### Waive Voice Install/Activation Charge

During the period April 19, 2010 through September 30, 2010, the Company will waive all service connection charges (excluding charges applicable for inside wiring, construction, or CPE installation) that are otherwise applicable when business customers who are contacted by the Company or who contact the Company and request this promotion order any Solutions or Solutions II Business Package and/or MultiLine Bundle as a new line to their account. There is no limit on the number of times a customer may place orders for new lines and receive this promotional benefit during the promotional period.

### 3 Months Free for Additional B1 Installation

From June 17, 2010 through September 30, 2010, existing business customers who are contacted by the Company or who contact the Company and request this promotion may be eligible for a credit of the monthly recurring charges for Business Individual Line Service. To be eligible, customers who have existing Business Individual Line Service must install an additional Business Individual Line and must agree to retain their service for a minimum of six months. Customers will receive three bill credits equal to the monthly recurring charge for that service. Credits will be issued for only one line when multiple lines are installed under the same order. The bill credits will be reflected on the first, second and third months following installation of the service.

Business Key Trunks, Business PBX Trunks and Rotary Trunk Hunting are not eligible for this promotion. Customers subscribing to services under this promotion who discontinue service within six months of installation will be assessed all charges originally credited under the promotion. There is no limit on the number of times a customer may place orders for new lines and receive this promotional benefit during the promotional period. This promotion may not be combined with any other promotional benefits.
