SECTION 3 - DESCRIPTION OF SERVICE

3.1. TIMING AND RATING OF CALLS

3.1.1. The Customer's long distance usage charge is based on the actual usage of the Company's Service. Usage begins when the receiver of the called number is answered. The moment of the called party's answer is determined by hardware supervision in which the local telephone company sends a signal to the underlying Carrier's switch or the software utilizing audio tone detection. The timing of the call occurs when called party answers and terminated when either party hangs up.

3.1.2. For all services except calling cards, the minimum call duration for billing purposes is six (6) seconds with six (6) second billing increments thereafter. For all calling cards, the minimum call duration for billing purposes is thirty (30) seconds with six (6) second billing increments thereafter. These increments apply unless otherwise noted in this Tariff.

(C)

3.1.3. Any portion of an applicable increment, after the appropriate minimum time for the call, will be rounded upward to the next increment. Calls less than the minimum length will be rounded to the minimum length.

3.1.4. There is no billing for incomplete calls.

3.1.5. The rate for the Company's Service is based on the following factors:

- The monthly calling volume; and
- The duration of the call; and
- The type of Service subscribed to; and
- The term of the Customer's contract with the Company.
