Re: Intrastate Access Tariff for PBT Telecom  
**Tariff No. E2013-152**

Dear Ms. Boyd:

Enclosed for filing please find a corrected revised Intrastate Access Tariff for PBT Telecom (the "Company"). The revised tariff was originally filed on May 31, 2013 to comply with the directives of the Federal Communications Commission ("FCC") in its *USF-ICC Transformation Order*, FCC 11-161 in WC Docket No. 10-90, as set forth in the Order, FCC rules, and subsequent clarifying orders. As part of that filing, the Company proposed to restructure its originating switched access rates to conform to the terminating switched access rate structure (*i.e.*, LTR) on a revenue-neutral basis. The Company submitted to the Commission and the Office of Regulatory Staff ("ORS") under seal a confidential price-out demonstrating that the rate restructure is revenue neutral to the Company, along with a motion for confidential treatment.

ORS has reviewed the data we submitted and, as a result of that review, the Company has made corrections to its price-out. The revised price-out is being submitted to the Commission and the Office of Regulatory Staff under separate cover, subject to the pending motion for confidential treatment.

The corrections to the price-out impact the Company's rates for tandem switched termination – originating (p. 33) and local switching – originating (p. 35), and the attached tariff reflects the new rates. We have also revised the Rate Comparison Sheet that was provided to the Commission and ORS as a convenience to work through the tariff changes. The attached revised Rate Comparison Sheet reflects the corrected rates.

Very truly yours,

McNAIR LAW FIRM, P.A.

Margaret M. Fox

Whenever reference is made in this Tariff to other Tariffs of the Telephone Company, the reference is to the tariffs in force as of the effective date of this tariff, and to amendments thereto and successive issues thereof.

INTRASTATE ACCESS SERVICE

General Concurrence

For Intrastate Access Services, PBT Telecom, Inc., hereinafter referred to as the Telephone Company, assents to, adopts and concurs with the terms and conditions for the provision of Access Services as specified in the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists, and as may be subsequently modified, with exceptions as noted in the following sections.

## INTRASTATE ACCESS SERVICE

1. Application of Tariff

The Telephone Company assents to, adopts and concurs with the terms and conditions for the provision of Access Services as specified in this section of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists, and as may be subsequently modified, with exceptions as noted below.

- 1.1 This tariff contains regulations, rates and charges applicable to the provision of carrier common line, switched access and special access service, and miscellaneous services, hereinafter referred to collectively as service(s), provided by the Telephone Company, Intrastate InterLATA Toll Carrier(s), hereinafter referred to as IC(s).
- 1.2 The provision of such services by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with the IC for the furnishing of any service.
- 1.3 The regulations, rates and charges contained herein are in addition to the applicable regulations, rates and charges specified in other tariffs of the Telephone Company which are referenced herein.
- 1.4 This tariff contemplates no subscriber (end user) charge.
- 1.5 The term "LATA" refers to Local Access Transport Area.

## INTRASTATE ACCESS SERVICE

2. General Regulations

2.1 – 2.6 General Regulations for this tariff are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. (“NECA”) as such tariff now exists and as may be subsequently modified.

- 2.1 Undertaking of the Telephone Company
- 2.2 Use
- 2.3 Obligations of the Customer
- 2.4 Payment Arrangements and Credit Allowances
- 2.5 Connections
- 2.6 Definitions

Exceptions to the above-referenced NECA Tariff sections are as follows:

2.7 Identification and Rating of VoIP-PSTN Traffic(A) Scope

- (1) VoIP-PSTN Traffic is defined as traffic exchanged between the Telephone Company end user and the customer in time division multiplexing (“TDM”) format that originates and/or terminates in Internet protocol (“IP”) format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates by the Federal Communications Commission in its Report and Order in WC Docket No. 10-90, *etc.*, FCC Release No. 11-161 (November 18, 2011) (“FCC Order”). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as “Toll VoIP-PSTN Traffic”) from the customer’s traditional intrastate access traffic, so that such Toll VoIP-PSTN Traffic can be billed in accordance with the FCC Order. The term “Toll VoIP-PSTN Traffic” denotes a customer’s interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over Public Switched Telephone Network (PSTN) facilities, which originates and/or terminates in Internet Protocol (IP) format. “Toll VoIP-PSTN Traffic” originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

## INTRASTATE ACCESS SERVICE

2. General Regulations (Cont'd)2.7 Identification and Rating of VoIP-PSTN Traffic (Cont'd)(B) Rating of VoIP-PSTN Traffic

The Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rates as specified in the Telephone Company's applicable federal access tariff.

(C) Calculation and Application of Percent-VoIP-Usage Factor

The Telephone Company will determine the number of Toll VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection (B), above, by applying a Percent-VoIP-Usage ("PVU") factor to the total terminating intrastate access MOU received by the Telephone Company from the customer. The PVU will be derived and applied as follows:

- (1) The customer will calculate and furnish to the Telephone Company a factor (the "PVU") representing the percentage of the total intrastate and interstate access MOU that the customer terminates to the Telephone Company in the State that is sent to the Telephone Company and that originated in IP format. This PVU shall be based on information such as traffic studies, actual call detail, or other relevant and verifiable information.
- (2) The Telephone Company will apply the PVU factor to the total terminating intrastate access MOU received from the customer to determine the number of Toll VoIP-PSTN Traffic MOUs.
- (3) If the customer does not furnish the Telephone Company with a PVU pursuant to the preceding paragraph 1, the Telephone Company will utilize a PVU equal to zero.

(D) Initial PVU Factor

If the PVU factor is not available and/or cannot be implemented in the Telephone Company's billing systems by December 29, 2011, once the factor is available and can be implemented the Telephone Company will adjust the customer's bills to reflect the PVU retroactively to January 1, 2012. This retroactive adjustment will be made to December 29, 2011, provided that the customer provides the factor to the Telephone Company no later than April 15, 2012; otherwise, it will set the initial PVU equal to zero, as specified in subsection (C)(3), above.

## INTRASTATE ACCESS SERVICE

2. General Regulations (Cont'd)2.7 Identification and Rating of VoIP-PSTN Traffic (Cont'd)(E) PVU Factor Updates

The customer may update the PVU factor quarterly using the method set forth in subsection (C)(1), above. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

(F) PVU Factor Verification

Not more than four times in any year, the Telephone Company may ask the customer to verify the PVU factor furnished to the Telephone Company. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the PVU factors.

The customer-provided PVU and supporting documentation for the factor shall be based on information that is verifiable by the Telephone Company, including but not limited to the number of the customer's retail VoIP subscriptions in the state (*e.g.* as reported on FCC Form 477), traffic studies, actual call detail or other relevant and verifiable information.

12.1 General

## INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

13.1 – 13.3 Regulations pertaining to the Additional Engineering, Additional Labor and Miscellaneous Services are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. (“NECA”) as such tariff now exists and as may be subsequently modified.

- 13.1 Additional Engineering
- 13.2 Additional Labor
- 13.3 Miscellaneous Services
- 13.6 Unauthorized Presubscribed Interexchange Carrier (PIC) Change

Exceptions to the above-referenced NECA Tariff sections are as follows:

13.4 Presubscription13.4.1 General

(A) End users may select one of the following options at no charge:

- indicate a primary IC for all of its lines,
- indicate a different IC for each of its lines.

Only one IC may be selected for each line or lines terminating in the same hunt group.

End users may designate that they do not want to presubscribe to any IC. The end user must arrange this designation by directly notifying the Telephone Company’s business office. This choice will require the end user to dial an access code (10XXX or 101XXXX) for all interLATA calls.

After the end user’s initial selection of a predesignated IC or the designation that they do not want to presubscribe to any IC, for any change in selection after conversion to Equal Access in the serving end office, a nonrecurring charge as set forth in Section 17 applies.

## INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)13.4 Presubscription (Cont'd)13.4.1 General (Cont'd)

- (B) New end users who are served by end offices equipped with Feature Group D will be asked to presubscribe to an IC at the time they place an order with the Telephone Company for Telephone Exchange Service. They may select either of the following options. There will be no charge for this initial selection.

- designate a primary IC for all of its lines,
- designate a different IC for each of its lines.

Only one IC may be selected for each individual line, or lines terminating in the same hunt group. Subsequent to the installation of Telephone Exchange Service and after the end user's initial selection of a predesignated IC, for any change in selection, a nonrecurring charge, as set forth in Section 17 applies.

- (C) If the new end user fails to designate an IC as its predesignated IC prior to the date of installation of Telephone Exchange Service, the Telephone Company will (1) allocate the end user to an IC based upon current IC presubscription ratios, (2) require the end user to dial an access code (10XXX or 101XXXX) for all interLATA calls, or (3) block the end user from interLATA calling. The end user will be notified which option will be applied if they fail to presubscribe to an IC. An allocated or blocked end user may designate another, or initial, IC as its predesignated IC one time at no charge, if it is requested within six months after the installation of Telephone Exchange Service.

For any change in selection after 6 months from the installation of Telephone Exchange Service, a nonrecurring charge, as set forth in Section 17 applies.

- (D) If an IC elects to change or discontinue use of a Carrier Identification Code (CIC) for any reasons other than those set forth in (H) above, the IC will identify to the Telephone Company any affected end users and advise the Telephone Company of the new CIC to be assigned to these end users. If the CIC change involves a change of carrier for any end users, the IC will notify the affected end users of the change. The telephone company will change the predesignated carrier code of each end user identified by the IC to the new CIC and bill the IC the nonrecurring charge for each end user line or trunk that is changed.

## INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)13.4 Presubscription (Cont'd)13.4.1 General (Cont'd)

- (E) As specified above, a nonrecurring charge will apply for subsequent changes to the end user's selection of a predesignated IC (PIC), including the establishment or removal of a no PIC selection. The nonrecurring charge to process a PIC change request is bifurcated into four (4) separate nonrecurring charges and applies as follows:
- (1) A nonrecurring charge, as set forth in Section 17, applies when the PIC change request is submitted to the Telephone Company through manual methods.
  - (2) A nonrecurring charge, as set forth in Section 17, applies when the PIC change request is submitted to the Telephone Company through electronic methods.
  - (3) A nonrecurring charge, as set forth in Section 17, applies to the PIC change when a request submitted to the Telephone Company through manual methods requests a simultaneous change to both the interLATA PIC and intraLATA PIC selections.
  - (4) A nonrecurring charge, as set forth in Section 17, applies to the PIC change when a request submitted to the Telephone Company through electronic methods requests a simultaneous change to both the interLATA PIC and intraLATA PIC selections.

As used above, manual methods are (i) all personal interaction between an end user, or a person acting on behalf of the end user, and a Telephone Company employee and (ii) any facsimile or written submissions from an end user, or a person acting on behalf of the end user, to a Telephone Company service center. Electronic methods shall include all other methods. If a PIC change request utilizing an electronic method results in manual processing, the electronic nonrecurring charge shall apply upon completion of the request.

INTRASTATE ACCESS SERVICE

14. Exceptions to Access Service Offerings

Regulations pertaining to Exceptions to Access Service Offerings are contained in the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists and as may be subsequently modified.

INTRASTATE ACCESS SERVICE

15. Access Service Interfaces and Transmission Specifications

15.1 – 15.3 Regulations pertaining to the Access Service Interfaces and Transmission Specifications Services are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. (“NECA”) as such tariff now exists and as may be subsequently modified.

- 15.1 Switched Access Service
- 15.2 Special Access Service
- 15.3 Directory Access Service

17.2.5 Directory Assistance Service

Rate

(A)	<u>Directory Assistance Service</u>	\$0.49	9.4.2
-----	-------------------------------------	--------	-------

A Directory Assistance Service Charge applies for each call to Directory Assistance Service.

(B)	<u>Directory Access Service Per Call</u>	\$0.0123	9.4.3
-----	--	----------	-------

Directory Access Service is made-up of an Interface Group and Directory Transport.

(C)	<u>Credit Allowance for Uncompleted DA Calls</u>		
-----	--	--	--

In addition to the credit allowances for Directory Assistance Service Call and Directory Transport as set forth respectively in 9.4.8(A) and (B) of the NECA Tariff, there is also a credit allowance for the Switched Access Service Portion in the originating LATA of such DA call. The credit will be as set forth following:

(1)	Credit per call when Switched Access Service is billed using non-premium per minute rates*	\$0.0432	9.4.8(C)
-----	--	----------	----------

(2)	Credit per call when Feature Group A or B Switched Access Service is billed using premium per minute rates*	\$0.0432	9.4.8(C)
-----	---	----------	----------

(3)	Credit per call when Feature Group C or D Switched Access Service is billed using premium per minute rates	\$0.0432	9.4.8(C)
-----	--	----------	----------

\* Per Docket No. 82-134-C, issued November 2, 1984 by the South Carolina Public Service Commission, there is no discount for Feature Group A and B service.

## (C) Optional Features and Functions (Cont'd)

Monthly  
Rate(2) Automatic Loop Transfer  
per arrangement\* \$389.24(3) Transfer Arrangement (key-activated\*\*  
or dial-up\*\*\*  
per four port arrangement including  
control channel termination\*\*\*\*) \$165.42(D) Network Channel Terminating  
Equipment (NCTE) per termination#- 1.544 Mbps \$ 78.05  
- Automatic Loop Transfer \$896.16

\* An additional Channel Termination charge will apply whenever the spare line is provided as a leg to the customer designated premises.

\*\* The key activated control channel is rated as a Metallic Channel Termination and Channel Mileage, if applicable.

\*\*\* The Dial-up option requires the customer to purchase to Controller Arrangement from the NECA Tariff FCC No. 5, Section 13.3.4 as such tariff now exists, and as may be subsequently modified

\*\*\*\* An additional Channel Termination charge will apply whenever a spare channel is configured as a leg to the customer designated premises. Additional channel mileage charges will also apply when the transfer arrangement is not located in the customer designated premises serving wire center.

# NCTE will only be provided under tariff if it existed in the Telephone Company's inventory as of November 18, 1983.

	<u>Charge</u>	<u>Section Reference</u>
(I) <u>Presubscription*</u>		13.4
(1) Submitted using manual methods	\$5.50	
(2) Submitted using electronic methods	\$1.25	
(3) Submitted using manual methods when both the interLATA PIC and intraLATA PIC selections are changed simultaneously	\$2.75	
(4) Submitted using electronic methods when both the interLATA PIC and intraLATA PIC selections are changed simultaneously	\$0.63	

- \* This charge is generally billed to the end user who is the subscriber to the Telephone Exchange Service. In those instances where the IC both requests the PIC change, and requests the associated charge be billed to it, the Telephone Company will bill the IC. In the event the subscriber is incorrectly presubscribed due to misassignment on the part of the Telephone Company, no charge shall apply. In the event the subscriber denies requesting a PIC change, the Telephone Company will credit the subscriber's account for the PIC Change Charge associated with the alleged unauthorized change, if such charge was billed to the subscriber. The Telephone Company will then bill the IC responsible for the alleged unauthorized change a PIC Change Charge to return the subscriber to its previous authorized carrier and, if initially billed to the subscriber, the PIC Change Charge for the alleged unauthorized change.
