SECTION 3 - SERVICE AND RATE DESCRIPTION, (CONT'D.)

3.3 Timing of Calls

(N)

3.3.1 Unless otherwise indicated, all calls are timed in six (6) second increments.

3.3.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

3.3.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

3.3.4 Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

3.3.5 Calls originating in one time period as defined in Section 4.3 and terminating in another will be billed the rates in effect at the beginning of each minute.

3.3.6 Minimum Call Duration and Rounding

Calls are measured in billing increments identified for each service. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Fractional cents will be rounded to the next higher cent. The minimum charge per call is \$0.01 (one cent) for other than calls included in fixed monthly fees.
