U13.9 CUSTOM CALLING SERVICES

U13.9.1 GENERAL

Call Waiting – Obsolete – See Section U100.

a. Enhanced Call Waiting

Provides the subscriber, who is on a call, with a tone signal when another caller is trying to reach that number. The subscriber may ignore the incoming call or terminate the original call and answer; or through the use of hookswitch flashes, put the original call on hold and receive the incoming call; or alternately, talk on both calls until one is terminated. This feature includes Call Waiting Control. Call Waiting Control allows subscribers to cancel the call waiting function for the duration of one (1) call. Subscribers may activate the Cancel Call Waiting Feature either before or during a call to prevent call waiting tones from interrupting the call. During the time the cancel feature is activated, incoming callers receive a busy tone. When the call is terminated, the call waiting function is automatically reactivated.

b. Call Forward Features

Call Forward Features permit the forwarding of incoming calls under a variety of conditions to another telephone number either by dialing an activation code or via pre-programming by the Company. Calls may be forwarded to any number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges. Only one call forwarding arrangement, consisting of a single calling path, will be provided per exchange service line for which the customer subscribes to this feature, unless the customer is also subscribed to the Call Forward Additional Paths feature, in which instance one call path per Call Forward Additional Path feature subscribed to will be provided. **When the Customer's designated forward-to number is not in the Customer's local or expanded local calling area, the use of multiple paths for the completion of simultaneous toll calls may be subject to restrictions or prohibitions imposed by the Customer's Presubscribed Interexchange Carrier.**

Call Forward Features shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of usage charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred. If the Company determines that Call Forward Features are being used in manner not consistent with the intent of the service or in any other way violates the restrictions of the service, the Subscriber will be determined ineligible for the service and the service will be removed from the Customer's account.

U13.9 CUSTOM CALLING SERVICES (Cont'd)

U13.9.1 General Description (Cont'd)

k. Three-Way Calling with Transfer (Cont'd)

- (4) This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the subscriber.
- (5) The Three-Way Calling with Transfer subscriber is responsible for all applicable local and toll usage charges for calls originated by the subscriber, including connections which continue after the subscriber exits the call. **The use of this feature by the subscriber to complete simultaneous outgoing calls may be subject to restrictions or prohibitions imposed by the Customer's Presubscribed Interexchange Carrier, if the calls are not in the Customer's local or expanded local calling area.**
