SOUTH CAROLINA INMATE TELECOMMUNICATIONS SERVICES

SECTION 3 – DESCRIPTION OF SERVICE

3.1 General

Pay·Tel Communications, Inc. provides telecommunications services to Inmates in county, state, and federal Confinement Facilities throughout the southeastern United States including South Carolina. Service provided under this tariff is intrastate voice telecommunications service between points in the State of South Carolina. Originating points of service are limited to Inmate telephones owned or operated by the Company in Confinement Facilities and made available for the use of Inmates. Services are provided on an automated basis through Inmate telephones, automated call processors and over subscribed facilities of certified local exchange and interexchange carriers.

Inmate service consists of the provision of automated operator service by means of an Automated Call Process System. To complete and arrange billing for calls, automated service is provided by means of a microprocessor which uses recorded voice prompts which prompt the parties to the call through the process of completing the call. The microprocessor responds to the Called Party's input of information by automatically processing and transmitting the information to establish a valid billing procedure for the call and to complete the call.

Consistent with applicable law governing the provision of telecommunications services to Inmates in Confinement Facilities and restrictions based upon the provision of such services by Confinement Facilities, the Company's Inmate telecommunications services are provided as follows:

- a. Only automated collect calls, and authorized prepaid card calls or debit calls through a confinement facility commissary may be placed.
- b. The automated voice prompts identify the Company, audibly and distinctly, to the Customer at the beginning of each call, and again before the Billed Party incurs any charge for the call.
- c. The Inmate and/or the Called Party receiving the call can terminate the call at no charge before the call is accepted.
- d. The Company shall disclose to the Customer, upon request and at no charge, a quote of its rates and charges for the call.
- e. The Company shall post notices in each Confinement Facility where the Company provides service containing the Company's contact information along with information on how the service is provided.

SECTION 3 – DESCRIPTION OF SERVICE (continued)

3.2 Timing of Calls

Charges begin once the called party accepts a collect call or when the prepaid Inmate call is accepted. After the system verifies acceptance, timing begins and a call detail record is generated from that moment until the call is concluded.

There shall not be a charge for unanswered and non-accepted collect calls. Upon receiving reasonable and adequate notification from Customer of a billing error for any such call, the Company or an authorized agent will issue a credit to the Customer in an amount equal to the charge for the call.

3.3 Monitoring and Recording of Inmate Calls

The Company installs and maintains call origination equipment (inmate telephone service systems) with monitoring and recording capabilities in confinement facilities that request and contract for such equipment. The Company has a Monitoring and Recording Policy that prohibits any employee from recording, listening to or disclosing the contents of telephone recordings except as authorized in accordance with all applicable state and federal laws, including Title III of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (the "Act"), 18 U.S.C.A. §2511 (c) and (d).

The Monitoring and Recording Policy provides the guidelines for law enforcement officials to monitor and record non-privileged inmate conversations. It also provides guidelines for company employees to respond to law enforcement investigations, analyze recordings for the purpose of quality control (voice and volume), and review recordings for the purpose of telephone fraud investigation..

Prior to recording any conversation, the Calling Party (the Inmate) and the Called Party are both notified that the call will be recorded and may be monitored. After the call is answered this notification is provided before and after the call is accepted. Calls between an inmate and attorney are not recorded if the attorney provides their phone numbers to the Confinement Facility to block recordings.

SECTION 3 – DESCRIPTION OF SERVICE (continued)

3.5 Non-Inmate Customers

3.5.1 Validation, and Fraud Prevention Process

When an Inmate attempts to place a collect call to a prospective Customer, the Company will initiate a process whereby the prospective Customer is evaluated. This process is a necessary undertaking by the Company in order to protect the Company's ability to collect for the services provided (and similarly limit and prevent unbillable revenues and bad debt), and limit and prevent fraud.

Accordingly, the Company will validate its Customers' bill-to number through available verification procedures and establish a maximum predetermined credit amount. Where the Customer's requested billing method cannot be validated, or a maximum credit amount cannot be established, the Company may refuse to provide service except through a Company Direct Bill and/or Prepaid Account basis as set out herein. Furthermore, the Company will use various methods to determine the likelihood of fraud associated with a particular Customer, and in the event the Company determines that such a likelihood exists, the Company may also refuse to provide service except on a Prepaid Account basis with payments only by money order, Western Union Quick Collect or MoneyGram.

3.5.2 Billing through the Customer's Local Exchange Carrier ("LEC")

This option is limited to those Customers who satisfy the Validation and Fraud Prevention procedures described above.

Accordingly, billing through the Customer's Local Exchange Carrier is not available when: the Customer's Local Exchange Carrier will not bill the Company's calls; the Customer has reached the Local Exchange Carrier's billing limit for collect calls; the Company determines, based upon the review described in Section 3.5.1 above, the Customer is otherwise ineligible to have calls billed on the Local Exchange Carrier's bill; or the Customer accrues a threshold amount of charges as set out in Section 3.5.3 hereof.

Each bill rendered by the LEC containing charges billed by the Company includes the Bill Statement Fee.

3.5.3 Direct Bill Customer Program

The Direct Bill Customer Program (“Program”) is available to those Customers whose calls cannot be billed through their Local Exchange Carrier. In addition, the Program applies to those Customers who accrue a threshold amount of charges within a thirty-to-ninety day period.

The Customer is provided a courtesy call to inform the Customer of the Company’s Billing Limit for calls billed through the Customer’s Local Exchange Carrier when total outstanding charges accrued within a thirty-day period reach \$50.00. Once the Customer has accrued \$75.00 or more of collect call charges within a ninety-day period, a second notification call is made to the Customer indicating placement in the Program. Billing treatment for Customers participating in the Program is as follows:

- A. To participate in the Direct Bill Program, the customer must complete a credit application and receive a satisfactory credit score. The credit application can be taken over the phone or completed on the Company website.
- B. If the customer receives a satisfactory credit score, all future billing will be by the Company directly to the Customer. The Company will obtain the address of the Customer and begin the billing process from the date the Customer is approved for the Direct Bill Program.
- C. With the first bill, the Customer is notified of the Billing Limit established by the Company, the Company’s credit policies, and the Company’s address and toll-free Customer Service telephone number. Information about the average cost of calls received from the Confinement Facility is also provided to assist the Customer in budgeting telecommunications expenses.
- D. Thereafter, Program Customers are billed on a weekly basis.
- E. If a Customer’s bill exceeds the Billing Limit established by the Company, the Customer is notified and then the Customer’s telephone number is blocked from receiving collect calls from Confinement Facilities served by the Company until payment on the account is received.

Weekly statements are provided at no charge to the customer.
