VIA ELECTRONIC FILING

Mr. Charles L.A. Terreni, Chief Clerk
Public Service Commission of South Carolina
Synergy Business Park, Saluda Building
100 Executive Center Drive, Suite 100
Columbia, SC 29210

Re: South Carolina Tariff No. 2 Revisions for Broadview Networks, Inc.

Dear Mr. Terreni:

Attached please find the electronic tariff revisions filed on behalf of Broadview Networks, Inc. ("Broadview") for South Carolina Tariff No. 2. These tariff revisions are submitted in Adobe PDF format and are being filed electronically via the Commission's E Tariff System. Please acknowledge receipt of these tariff revisions by email confirmation.

This filing makes various textual and rate changes to the service offerings of Broadview in South Carolina. Broadview respectfully requests these revisions go into effect December 23, 2010. Please feel free to contact me at (610) 755-4446 if there are any questions regarding this matter.

Sincerely,

A handwritten signature in black ink that reads "Jarrod Harper". The signature is written in a cursive style with a long, sweeping underline.

Jarrod Harper
Manager, Regulatory and Compliance

SECTION 4 – BASIC SERVICES AND RATES (Cont'd)

4.4 Basic Local Exchange Service

4.4.1 General

The Company offers Basic Local Exchange Service to customers seeking basic local exchange services. Voice Mail and other Custom Calling Features are available to Basic Local Service customers by selecting such services a la carte.

4.4.2 Service Offerings

The following Company Services in this section are for residence and business Customers and for carriers certificated by the Commission. Rates and charges for local services provided by the Company may be based, in part, on the Rate Group associated with the Customer's End Office. The Rate Group is determined by the total access lines and PBX trunks in the local calling area which can be reached from each End Office. In the event that an incumbent LEC or the Commission reclassifies an exchange from one Rate Group to another, the reclassification will also apply to customers who purchase services under this tariff.

The Company offers local dialtone service to customers in the Exchanges listed in Section 3.3. Local dialtone service allows customers to initiate and terminate calls within their local calling areas. Local dialtone service is available as a Flat Rate Service. No measured of message charges apply to calls placed or received from Flat Rate Service lines.

All services offered in this tariff are subject to service order and service change charges where the Customer requests new services or changes in existing services, as well as indicated Non-Recurring and Monthly Recurring Charges.

SECTION 4 – BASIC SERVICES AND RATES (Cont'd)

4.4 Basic Local Exchange Service (Cont'd)

4.4.3 Standard Access Line

The Standard Access Line provides a Customer with a single, analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Standard Access Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one line provided by Broadview Networks. Standard Access Lines enable the customer to:

- place or receive calls to any station in the local calling area, as defined herein;
- access enhanced 911 Emergency Service where available;
- access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- access Operator Services;
- access Directory Assistance;
- place or receive calls to 800 numbers;
- access Telecommunications Relay Service.

Touch Tone signaling, consisting of a push button or touchtone dial that sends out a sound which consists of two discrete tones (one low frequency and one high frequency), picked up and interpreted by telephone switches, is provided as part of the Standard Access Line.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in section 5.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)

5.10 Broadspeed PRI

(N)

5.10.1 Description

Broadspeed PRI is a local exchange access service that provides direct digital connections via 1.544 facility between customers with ISDN-PRI compatible Customer Premises Equipment (CPE) and ISDN-PRI equipped switches.

Broadspeed Primary Rate Interface (PRI) provides local exchange access loop services such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), and business dial tone lines. It can also be used as loop transport for circuit data applications. Broadspeed PRI is provisioned on the 1.544 megabits per second (Mbps) bandwidth and uses ISDN architecture of 23 B or bearer channels and 1 D or data channel, or 24 B channels to provide the customer with the capabilities of a simultaneous access, transmission, and switching of voice, data and video applications via channelized transport.

Customers are given the opportunity to subscribe to the Company's services for 1 year, 2 year or 3 year terms. If the Customer discontinues its term commitment prior to the expiration of the agreed upon contract, the termination liability will be equal to the monthly charge multiplied by the number of months remaining on the contract. All Customers agree to meet and will be billed a minimum of \$150.00 in monthly calling volumes, including local service, intraLATA toll, interstate and international long distance calling for each Broadspeed PRI service.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.10 Broadspeed PRI (Cont'd.)**

(N)

5.10.2 Features

Broadspeed PRI offers the following feature functionalities:

- Calling Party Number (CPN) – CPN allows the user to have access to the directory number of the calling party.
- Call-by-Call (CBC) – CBC allows B channels to be configured to access multiple services such as data, voice and video applications on a per call basis and eliminates the need for separate facilities for individual services.
- Multiple Facility Signaling Control – MFSC allows the D channel of one PRI arrangement to provide signaling for up to 20 (T) PRIs. A back up D channel is required for this arrangement.
- Calling Line Identification – Delivers the calling party's telephone number, if available, to the Broadspeed PRI subscriber. The number will be delivered if the call originates either in the same switch as the subscriber or is connected to the switch by SS7. This feature is available per port.
- Backup D Channel – provides a backup D channel as a standby spare in the event that the primary D channel fails. Multiple Facility Signaling Control is required for this feature. Backup D channel is available in the DMS switches; and must be NI-2 compatible.
- Caller ID With Name - This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.

Rye Brook, NY 10573

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.10 Broadspeed PRI (Cont'd)****5.10.3 Non-recurring Charges**

Installation: A non-recurring Installation charge is applicable for each Broadspeed PRI facility. Billing will commence at the earlier of: 1) the date on which installation is complete and services are turned up; or 2) fifteen days after written notification to Customer of the Company's readiness to schedule service turn up.

Service Order: A non-recurring Service Order charge is applicable for each Broadspeed PRI facility.

Change Order: A non-recurring Change Order charge is applicable for each Broadspeed PRI facility where after initial installation, the Customer requests changing telecommunications services associated with Broadspeed PRI.

Inside Wire: A non-recurring Inside Wire charge is applicable for Broadspeed PRI service. The charge is billed on an hourly basis with a minimum charge of one hour. Additional Inside Wire charges are billed in hourly increments.

5.10.4 Monthly Recurring Charges

Broadspeed PRI service is subject to monthly recurring charges on a per facility basis. All PRI facilities are subject to a fixed monthly recurring charge. PRI facilities that are greater than 0.1 miles and less than fifteen miles are subject to a monthly recurring mileage charge in addition to the fixed monthly recurring charge. No services are provisioned beyond fifteen miles from a Company T1 collocation. Subscribers will be subject to a fixed monthly recurring mileage component and a per mile component. DS1 facility mileage calculated at .5 or less will be rounded down. DS1 facility mileage calculated at .6 or higher will be rounded up (Example - If DS1 facility mileage equals 1.5 miles, the per mile component of the monthly recurring mileage would equal 1 mile. If DS1 facility mileage equals 1.6 miles, the per mile component of the monthly recurring mileage would equal 2 miles).

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)

5.10 Broadspeed PRI (Cont'd)

5.10.4 Monthly Recurring Charges (Cont'd)

Subscribers must select one of the following four (4) discrete calling plan options shown below.

Measured Plan: There is no monthly recurring charge associated with the Measured Plan with the exception of the facility charge. All local, intraLATA toll and long distance calls are timed and rated per usage rates defined herein.

10k Plan: Monthly recurring charges for the 10k Plan include 10,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 10,000 minute per month allowance will be billed at the overage per minute rates defined herein.

25k Plan: Monthly recurring charges for the 25k Plan include 25,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 25,000 minute per month allowance will be billed at the overage per minute rates defined herein.

100k Plan: Monthly recurring charges for the 100k Plan include 100,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 100,000 minute per month allowance will be billed at the overage per minute rates defined herein.

SECTION 5 – MISCELLANEOUS SERVICES AND RATES (Cont'd)**5.10 Broadspeed PRI (Cont'd)****5.10.5 Local Calls**

Broadspeed PRI provides local calling service. Local usage is non-time-of-day sensitive and is billed on per minute basis.

The Company concurs with the local exchange and service areas defined by the incumbent local exchange areas.

The Flat Rate Local Plan is limited to 100,000 minutes per month of outbound local usage allowance per PRI. Local usage exceeding the monthly allowance will be billed at standard Measured Plan per minute rates.

For customers with the Flat Rate Local Plan, the local usage allowance applies only to outbound direct dialed calls. The service cannot be used with autodialers which are devices that allow users to dial pre-programmed telephone numbers, or used for outbound call center applications such as telemarketing or market research. This service is available only to business customers and is only for voice use. The Company reserves the right to change the calling plan of customers with inappropriate usage or who are not in compliance with the restrictions set forth in this tariff. Customers who exceed the Flat Rate Local Plan allowance for three (3) consecutive months may have their rates adjusted to the standard Measured Plan.

5.10.6 IntraLATA Toll Calls

Broadspeed PRI provides IntraLATA Toll Calling Service which is furnished for communications between different local calling areas within a LATA. A LATA is an area defined in the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0191. A call that terminates within the same LATA but outside the local calling area is considered an IntraLATA Toll Service call. IntraLATA Toll usage is non-time-of-day sensitive and is billed on a per minute basis.

5.10.7 Long Distance Calls

Broadspeed PRI provides intrastate and interstate long distance calling service. Long distance usage is non-time-of-day sensitive. Usage is billed in initial thirty (30) second increments with six (6) second increments billed thereafter.

SECTION 6 – MAXIMUM RATES - BASIC SERVICES AND RATES (Cont'd)

6.4 Basic Local Exchange Service

6.4.1 General

The Company offers Basic Local Exchange Service to customers seeking basic local exchange services. Voice Mail and other Custom Calling Features are available to Basic Local Service customers by selecting such services a la carte.

6.4.2 Service Offerings

The following Company Services in this section are for residence and business Customers and for carriers certificated by the Commission. Rates and charges for local services provided by the Company may be based, in part, on the Rate Group associated with the Customer's End Office. The Rate Group is determined by the total access lines and PBX trunks in the local calling area which can be reached from each End Office. In the event that an incumbent LEC or the Commission reclassifies an exchange from one Rate Group to another, the reclassification will also apply to customers who purchase services under this tariff.

The Company offers local dialtone service to customers in the Exchanges listed in Section 3.3. Local dialtone service allows customers to initiate and terminate calls within their local calling areas. Local dialtone service is available as a Flat Rate Service. No measured of message charges apply to calls placed or received from Flat Rate Service lines.

All services offered in this tariff are subject to service order and service change charges where the Customer requests new services or changes in existing services, as well as indicated Non-Recurring and Monthly Recurring Charges.

SECTION 6 – MAXIMUM RATES - BASIC SERVICES AND RATES (Cont'd)**6.4 Basic Local Exchange Service (Cont'd)****6.4.3 Standard Access Line**

The Standard Access Line provides a Customer with a single, analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Standard Access Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one line provided by Broadview Networks. Standard Access Lines enable the customer to:

- place or receive calls to any station in the local calling area, as defined herein;
- access enhanced 911 Emergency Service where available;
- access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- access Operator Services;
- access Directory Assistance;
- place or receive calls to 800 numbers;
- access Telecommunications Relay Service.

Touch Tone signaling, consisting of a push button or touchtone dial that sends out a sound which consists of two discrete tones (one low frequency and one high frequency), picked up and interpreted by telephone switches, is provided as part of the Standard Access Line.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in section 5.

SECTION 7 – MAXIMUM RATES - MISCELLANEOUS SERVICES AND RATES (Cont'd)**7.11 Broadspeed PRI**

(N)

7.11.1 Description

Broadspeed PRI is a local exchange access service that provides direct digital connections via 1.544 facility between customers with ISDN-PRI compatible Customer Premises Equipment (CPE) and ISDN-PRI equipped switches.

Broadspeed Primary Rate Interface (PRI) provides local exchange access loop services such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), and business dial tone lines. It can also be used as loop transport for circuit data applications. Broadspeed PRI is provisioned on the 1.544 megabits per second (Mbps) bandwidth and uses ISDN architecture of 23 B or bearer channels and 1 D or data channel, or 24 B channels to provide the customer with the capabilities of a simultaneous access, transmission, and switching of voice, data and video applications via channelized transport.

Customers are given the opportunity to subscribe to the Company's services for 1 year, 2 year or 3 year terms. If the Customer discontinues its term commitment prior to the expiration of the agreed upon contract, the termination liability will be equal to the monthly charge multiplied by the number of months remaining on the contract. All Customers agree to meet and will be billed a minimum of \$150.00 in monthly calling volumes, including local service, intraLATA toll, interstate and international long distance calling for each Broadspeed PRI service.

SECTION 7 – MAXIMUM RATES - MISCELLANEOUS SERVICES AND RATES (Cont'd)**7.11 Broadspeed PRI (Cont'd.)**

(N)

7.11.2 Features

Broadspeed PRI offers the following feature functionalities:

- Calling Party Number (CPN) – CPN allows the user to have access to the directory number of the calling party.
- Call-by-Call (CBC) – CBC allows B channels to be configured to access multiple services such as data, voice and video applications on a per call basis and eliminates the need for separate facilities for individual services.
- Multiple Facility Signaling Control – MFSC allows the D channel of one PRI arrangement to provide signaling for up to 20 (T) PRIs. A back up D channel is required for this arrangement.
- Calling Line Identification – Delivers the calling party's telephone number, if available, to the Broadspeed PRI subscriber. The number will be delivered if the call originates either in the same switch as the subscriber or is connected to the switch by SS7. This feature is available per port.
- Backup D Channel – provides a backup D channel as a standby spare in the event that the primary D channel fails. Multiple Facility Signaling Control is required for this feature. Backup D channel is available in the DMS switches; and must be NI-2 compatible.
- Caller ID With Name - This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.

SECTION 7 – MAXIMUM RATES - MISCELLANEOUS SERVICES AND RATES (Cont'd)**7.11 Broadspeed PRI (Cont'd)****7.11.3 Non-recurring Charges**

Installation: A non-recurring Installation charge is applicable for each Broadspeed PRI facility. Billing will commence at the earlier of: 1) the date on which installation is complete and services are turned up; or 2) fifteen days after written notification to Customer of the Company's readiness to schedule service turn up.

Service Order: A non-recurring Service Order charge is applicable for each Broadspeed PRI facility.

Change Order: A non-recurring Change Order charge is applicable for each Broadspeed PRI facility where after initial installation, the Customer requests changing telecommunications services associated with Broadspeed PRI.

Inside Wire: A non-recurring Inside Wire charge is applicable for Broadspeed PRI service. The charge is billed on an hourly basis with a minimum charge of one hour. Additional Inside Wire charges are billed in hourly increments.

7.11.4 Monthly Recurring Charges

Broadspeed PRI service is subject to monthly recurring charges on a per facility basis. All PRI facilities are subject to a fixed monthly recurring charge. PRI facilities that are greater than 0.1 miles and less than fifteen miles are subject to a monthly recurring mileage charge in addition to the fixed monthly recurring charge. No services are provisioned beyond fifteen miles from a Company T1 collocation. Subscribers will be subject to a fixed monthly recurring mileage component and a per mile component. DS1 facility mileage calculated at .5 or less will be rounded down. DS1 facility mileage calculated at .6 or higher will be rounded up (Example - If DS1 facility mileage equals 1.5 miles, the per mile component of the monthly recurring mileage would equal 1 mile. If DS1 facility mileage equals 1.6 miles, the per mile component of the monthly recurring mileage would equal 2 miles).

SECTION 7 – MAXIMUM RATES - MISCELLANEOUS SERVICES AND RATES (Cont'd)**7.11 Broadspeed PRI (Cont'd)**

(N)

7.11.4 Monthly Recurring Charges (Cont'd)

Subscribers must select one of the following four (4) discrete calling plan options shown below.

Measured Plan: There is no monthly recurring charge associated with the Measured Plan with the exception of the facility charge. All local, intraLATA toll and long distance calls are timed and rated per usage rates defined herein.

10k Plan: Monthly recurring charges for the 10k Plan include 10,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 10,000 minute per month allowance will be billed at the overage per minute rates defined herein.

25k Plan: Monthly recurring charges for the 25k Plan include 25,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 25,000 minute per month allowance will be billed at the overage per minute rates defined herein.

100k Plan: Monthly recurring charges for the 100k Plan include 100,000 minutes per month of local, intraLATA toll and long distance calling. All local, intraLATA toll and long distance calls in excess of the 100,000 minute per month allowance will be billed at the overage per minute rates defined herein.

SECTION 7 – MAXIMUM RATES - MISCELLANEOUS SERVICES AND RATES (Cont'd)**7.11 Broadspeed PRI (Cont'd)****7.11.5 Local Calls**

Broadspeed PRI provides local calling service. Local usage is non-time-of-day sensitive and is billed on per minute basis.

The Company concurs with the local exchange and service areas defined by the incumbent local exchange areas.

The Flat Rate Local Plan is limited to 100,000 minutes per month of outbound local usage allowance per PRI. Local usage exceeding the monthly allowance will be billed at standard Measured Plan per minute rates.

For customers with the Flat Rate Local Plan, the local usage allowance applies only to outbound direct dialed calls. The service cannot be used with autodialers which are devices that allow users to dial pre-programmed telephone numbers, or used for outbound call center applications such as telemarketing or market research. This service is available only to business customers and is only for voice use. The Company reserves the right to change the calling plan of customers with inappropriate usage or who are not in compliance with the restrictions set forth in this tariff. Customers who exceed the Flat Rate Local Plan allowance for three (3) consecutive months may have their rates adjusted to the standard Measured Plan.

7.11.6 IntraLATA Toll Calls

Broadspeed PRI provides IntraLATA Toll Calling Service which is furnished for communications between different local calling areas within a LATA. A LATA is an area defined in the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0191. A call that terminates within the same LATA but outside the local calling area is considered an IntraLATA Toll Service call. IntraLATA Toll usage is non-time-of-day sensitive and is billed on a per minute basis.

7.11.7 Long Distance Calls

Broadspeed PRI provides intrastate and interstate long distance calling service. Long distance usage is non-time-of-day sensitive. Usage is billed in initial thirty (30) second increments with six (6) second increments billed thereafter.
