Mr. Charles L. A. Terreni  
Chief Clerk/Administrator  
Public Service Commission of South Carolina  
Columbia, South Carolina 29211

Dear Mr. Terreni:

Attached for filing with the Commission are the tariff pages listed:

General Subscriber Service Tariff

Section A32	Seventh Revised Page 2
	Fifth Revised Page 2.1
	Fourth Revised Page 2.1.1
Section A40	First Revised Page 14
Section A132	First Revised Page 3
	Original Page 3.1
	Original Page 3.2

This General Subscriber Services Tariff filing obsoletes, on a going-forward basis, the Dial and Dedicated arrangements for Integration Plus Management Service (IPMS) and Customer Network Management (CNM) that allows business customers to access their network services for monitoring and troubleshooting.

Existing IPMS and CNM customers who utilize Dial, Dedicated or Web based access arrangements to access their network service components for monitoring and troubleshooting are grandfathered and, therefore, are not impacted by this tariff filing.

On a going forward basis, business customers can continue to request the Web based access arrangement.

Yours very truly,

  
Vice President

## **A32. INTEGRATION PLUS MANAGEMENT SERVICES (IPMS)**

### **A32.1 Integration Plus Management Services (IPMS) Description (Cont'd)**

#### **A32.1.1 General (Cont'd)**

##### **D. Payment Schedules (Cont'd)**

2. (Obsoleted, see Section A132)<sup>1</sup> (Cont'd)
3. Termination Liability
  - a. The Termination Liability for IPMS is dependent upon the payment period selected by the customer.
    - (1) One Month Payment Plan - There is no termination liability for this option other than the initial service period as specified in 1. preceding.
    - (2) (Obsoleted, see Section A132)<sup>1</sup>
  - b. (Obsoleted, see Section A132)<sup>1</sup>
4. Allowance for Interruptions
  - a. When service is interrupted due to a failure or malfunction of IPMS, a pro rata adjustment of the appropriate IPMS monthly charges will be allowed at the request of the subscriber if the total system is unavailable for more than a twenty-four hour period and in accordance with the regulations specified in Section A2. of this Tariff.
  - b. No allowances will be granted for interruptions required to perform preventive or routine maintenance, or to perform software updates when the customer is notified at least twenty-four hours prior to such occurrences.
5. Suspension of service is not allowed.

#### **A32.1.2 Integration Plus Management Services Terminal Interface**

##### **A. Regulations**

##### **1. General**

The Integration Plus Management Services Terminal Interface chosen is utilized with either a switched service, a private line service or web access service as a means of accessing FlexServ service. (IPMSTI may only be used with FlexServ service). If the customer is located outside a local calling area, he must obtain any required switched service from BellSouth Telecommunications, Inc. or from another provider. If the customer desires to access an IPMS function via private line, he must purchase a private line from the appropriate tariff or from another service provider if his company location is outside a LATA served by the Company. If the customer desires to access an IPMS function via the web, the customer may utilize a personal computer that has a standard web browser. *Switched services and private line service used as a means of accessing FlexServ service has been obsoleted (see Section A132).*

(C)

**Note 1:** The terms and conditions for this plan that appear in Section A132 apply to any customer who is receiving the plan as of March 30, 2006, and they will continue to apply until such a customer terminates the plan or changes service locations.

## **A32. INTEGRATION PLUS MANAGEMENT SERVICES (IPMS)**

### **A32.1 Integration Plus Management Services (IPMS) Description (Cont'd)**

#### **A32.1.2 Integration Plus Management Services Terminal Interface (Cont'd)**

- A. Regulations (Cont'd)
  - 2. Availability of Access  
Access to IPMS is furnished only in serving wire centers where facilities are available.
  - 3. Requirements For Access
    - a. **(Obsoleted, See Section A132.)** (O)
    - b. **(Obsoleted, See Section A132.)** (O)
    - c. Management Terminal Interface - Web Access  
The customer must provide a personal computer (pc) equipped with web access. The customer will be provided a web address to establish a port connection to FlexServ service.
    - d. **(Obsoleted, See Section A132.)** (O)
    - e. **(Obsoleted, See Section A132.)** (O)
  - 4. Rates and Charges
    - a. **(Obsoleted, See Section A132.)** (O)

**Note 1:** Obsoleted, see Section A132. The terms and conditions for this plan that appear in Section A132 apply to any customer who is receiving this plan as of March 30, 2006, and they will continue to apply until such a customer terminates the plan or changes service locations.

**Note 2:** Obsoleted, see Section A132. The terms and conditions for this plan that appear in Section A132 apply to any customer who is receiving this plan as of March 30, 2006, and they will continue to apply until such a customer terminates the plan or changes service locations. (O)

## A40. FAST PACKET TRANSPORT SERVICES

### A40.12 Customer Network Management

#### A40.12.1 General

- A. Customer Network Management (CNM) is available on an optional basis as a feature of Frame Relay Service and Asynchronous Transfer Mode (ATM) Service.
- B. The CNM option provides customers a view into their BellSouth Fast Packet network for monitoring and trouble shooting purposes.
- C. The CNM platform supports hierarchical customer names. For example, a customer defines an overall network name (usually the customer name) and then may choose to establish multiple sub-network names. A maximum of five hierarchical tiers are available (the overall network plus four sub-network tiers).
- D. Access to CNM is via a Web interface. A dial or dedicated method available in Section A32., Integration Plus Management Services, may also be used to access CNM. *Switched service and private line service used as a means of accessing FlexServ service has been obsoleted (see Section A132).* For security reasons, customers are required to identify themselves via a username and password. The username and password are assigned at the time the account is established. Following is a description and requirements for each type of access:
  - 1. Web Interface - This interface allows customers to access CNM via the Web using a standard Web browser. This type of access requires a Security Card.
    - a. **(Obsoleted, See Section A132.)** (C)
  - 2. **(Obsoleted, See Section A132.)** (O)
  - 3. **(Obsoleted, See Section A132.)** (O)
- E. CNM is offered in packages which provide the following CNM options: Fault Management, On Demand Statistics and Performance Reporting.
  - 1. Fault Management

The Fault Management option provides the ability to monitor fault and alarm information as network events occur. If a BellSouth network event results in automatic rerouting of customer owned PVCs on a Customer Connection within the BellSouth Fast Packet network, such that those PVCs are not service impacted, then BellSouth will not send PVC events to the customer. The following Fault Management features are available on a customer and sub-network basis:

    - BellSouth will provide to the customer, in near real time, all events, faults, and network alarms on any Customer Connection or PVC.
    - The customer can determine the severity level of alarms displayed and suppress the alarms they do not wish to view.

## **A132. OBSOLETE SERVICE OFFERING - INTEGRATION PLUS MANAGEMENT SERVICES (IPMS)**

### **A132.1 Integration Plus Management Services (IPMS) (Cont'd)**

#### **A132.1.2 Integration Plus Management Services Terminal Interface**

##### **A. Regulations**

##### **1. Requirements For Access**

(Obsoleted 6-30-08, Type D; not available for new installations, moves or transfers. Existing customers may continue to utilize existing Dial or Dedicated Access arrangements.)

(C)

(N)

##### **a. Dial Access**

The customer must provide a switched (dial) access capability with asynchronous protocol from the customer's terminal location to the designated Company location. Customers who subscribe to a dial method of access, will be given a telephone number to dial which will establish a port connection.

(O)

(O)

##### **b. Security Card**

Dial and web access customers must also order a Security Card. This card provides the customer a unique password identification code which will electronically change periodically. The Security Card charge specified in 4. following will apply for the initial card or for the issuance of additional cards for additional users or to replace a lost, damaged or expired card.

(O)

(O)

If the customer has purchased a Security Card in conjunction with another feature or service offered by the Company, that Security Card may also be used in conjunction with FlexServ service. It is the customer's responsibility to notify the Company of an existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

(O)(T)

##### **c. Dedicated Access**

The customer must purchase a private line from the appropriate tariff for access to FlexServ service from the customer's terminal location to the designated Company location. The type of dedicated access required will depend on the type of access desired.

(O)(T)

(M)

##### **d. Other Requirements**

In addition to either purchasing a dial access or a private line, the customer will be required to furnish a VT100 type terminal and a compatible data set. The data set required will depend on the type of access chosen by the customer and the capability for connection with the Company. CPE must comply with specifications found in BellSouth Technical Reference Publication 73535 for Corporate Packet Network Asynchronous Terminal Access (8/89) and BellSouth Technical Reference Publication 73516 Issue C, Corporate Packet Network Physical Interface Specifications (9/91). These publications are available from Regional Documentation Operations, BellSouth Telecommunications, Inc., 600 North 19th Street, 20th Floor, Birmingham, AL 35203.
