Ms. Jocelyn G. Boyd, Chief Clerk
South Carolina Public Service Commission
101 Executive Center Dr., Suite 100
Columbia, SC 29210

**RE: McClellanville Telephone Company, Inc.
Metaswitch Conversion Delete/Modify Certain Offerings**

Dear Ms. Boyd:

Attached are the following tariff pages:

Index	Second Revised Sheets 2 & 4
Section 7	First Revised Sheets 4 through 6, 7.1 & 10.1 Second Revised Sheets 7 through 10 & 11 through 13
Section 9	First Revised Sheets 3, 10 & 14 Second Revised Sheet 17
Section 10	Fourth Revised Contents Sheet 1 First Revised Sheet 1 Original Sheets 17 & 18

The purpose of this filing is to remove, grandfather, and/or modify certain services and features offered by the Company. The Company will not be offering these services due to changes in network facilities. The services include Virtual Telephone Network, Repeat Dialing (Pay per Use), Hotline and Warm Line. Additionally, Extension Line Mileages has been renamed Off Premises Extension and also revised to standardize and make the service more consistent with other TDS Companies. The Company will not be offering Off Premises Extension provisioned in or through the Central Office due to changes in network has facilities. The service will be grandfathered to existing customers effective April 29, 2016. Rates have not been changed.

The enclosed tariff has an effective date of April 29, 2016.

St. Stephens, Norway & Williston Telephone Companies concur with McClellanville Telephone Company, but will have file separately to revise their concurrence exceptions as necessary.

If you have any questions, please feel free to contact me.

Sincerely,

Kris A. Groth
Senior Tariff Administrator
Kris.groth@tdstelecom.com

SPECIAL DIAL TONE ARRANGEMENTS

7.2 VIRTUAL TELEPHONE NETWORK¹

(C)

7.2.1 General

Basic Virtual Telephone Network (VTN) allows business customers to integrate multiple telephone features and functions by configuring VTN lines into a single VTN Group. The line type and quantity is determined by the customer's need.

VTN is offered only as a complete, integrated service arrangement. The network access, features, and other components of the service are not provided separately or in conjunction with other exchange services. Any other arrangements are outside the scope of this offering.

7.2.2 Standard and Optional Features

1. All VTN systems will have the option to be equipped with the following features at no charge:
 - a. Intercom Dialing
Allows VTN users to call other stations within their VTN Group using an abbreviated dialing pattern.
 - b. Distinctive Ringing
Allows VTN users to listen to the ringing pattern or Call Waiting tone to determine the type of call (intergroup, intragroup, recall, or other feature notification).
 - c. Station Restriction
 - Unrestricted
Allows VTN users to place all calls.
 - Toll Restricted
Restricts VTN users from placing toll calls.
 - Fully Restricted
Allows VTN users to only place calls within the VTN Group.
 - 900/976 Call Blocking
Restricts VTN users from placing 900/976 calls.
 - 900/976 & International Call Blocking
Restricts VTN users from placing 900/976 and international calls.
 - d. Attendant Dial "0"
Allows VTN users to reach an internal attendant by simply pressing "0".
 - e. Direct Inward Dialing (DID)
Allows VTN users to directly receive incoming calls without the assistance of an attendant.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

SPECIAL DIAL TONE ARRANGEMENTS

7.2 VIRTUAL TELEPHONE NETWORK¹ (Continued)

(C)

7.2.2 Standard and Optional Features (Continued)

1. (Continued)
 - f. Direct Outward Dialing (DOD)
Allows VTN users to call outside the VTN Group directly without the assistance of an attendant.
 - g. Call Forwarding of Call Waiting Calls
Allows the VTN user to divert all Call Waiting Calls to another directory number.
 - h. Station Usage Billing
Provides for toll bills to be separated by each VTN station.
2. Each VTN station will have the option to be equipped with the following features at no charge:
 - a. Call Forwarding - Variable
Allows a VTN user to direct all incoming calls to another directory number.
 - b. Call Forwarding - Busy
Allows all calls to be redirected to an alternate number when the called number is busy.
 - c. Call Forwarding - Don't Answer
Allows all calls to be redirected to an alternate number after a predetermined number of rings.
 - d. Call Forwarding - Remote Activation
Allows the VTN user to activate and deactivate Call Forwarding from any location.
 - e. Call Hold
Allows a VTN user to place a call on hold.
 - f. Call Park
Allows a VTN user to store a call against their directory number within the VTN Group and retrieve the call from any other number within the group.
 - g. Deny Incoming Calls
Prevents a VTN user from receiving incoming calls from outside of the VTN Group to their VTN DID station.
 - h. Directed Call Park
Allows a VTN user to store a call against any directory number within the VTN Group and retrieve the call from any other number within the group.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

SPECIAL DIAL TONE ARRANGEMENTS

7.2 VIRTUAL TELEPHONE NETWORK¹ (Continued)

(C)

7.2.2 Standard and Optional Features (Continued)

2 (Continued)

- i. Call Pickup - Group
Allows a VTN user to answer a call that is ringing at another station within the group by dialing an access code.
- j. Call Pickup - Directed
Allows a VTN user to answer a call that is ringing at another station within the group by dialing an access code and the ringing station number.
- k. Call Transfer - All Calls
Allows a VTN user to hold and transfer incoming, out-going and intragroup calls outside of their VTN Group.
- l. Call Transfer - Intragroup Only
Allows a VTN user to transfer calls to another station within the VTN Group.
- m. Call Waiting/Cancel Call Waiting
Alerts the VTN user who is on the phone that another call is waiting to be answered. Cancel Call Waiting allows the VTN user to deactivate this feature for one call by dialing a special code.
- n. Call Waiting Intragroup/Cancel Call Waiting
Alerts the VTN user, who is on the phone, that another call from within the VTN Group is waiting to be answered. Cancel Call Waiting allows the VTN user to deactivate this feature for one call by dialing a special code.
- o. Caller ID - Intragroup Number
Allows for the display of the calling party's telephone number on calls made within the VTN Group. VTN users must provide their own compatible premises equipment in order to process and display the number transmission.
- p. Message Waiting - Stuttered Dial Tone
This is a message waiting indication in the form of an audible interrupted dial tone. This tone is provided by the central office to inform the VTN user that an unplayed message is waiting.
- q. Message Waiting Visual/Lamp
This is a message waiting indicator, which illuminates a lamp at the customer's premise to inform the VTN user that an unplayed message is waiting. The customer must supply compatible customer premise equipment (CPE) capable of receiving and displaying the message waiting lamp indicator.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

7.2 VIRTUAL TELEPHONE NETWORK¹ (Continued)

(C)

7.2.2 Standard and Optional Features (Continued)

2. (Continued)

- r. Speed Call Short List
Allows the VTN user to call a short list of user programmed directory numbers by dialing one or two digits instead of the directory number.
 - s. Station Hunting
Allows calls directed to busy VTN stations to be directed to the next available station in the hunt group.
 - t. 3-Way Calling
Allows a VTN user to add a third party to an existing call.
 - u. Last Number Redial
Allows a VTN user to automatically redial the last outgoing telephone number dialed.
 - v. Call Blocking (per call)
Allows a VTN user to block the delivery of their Caller ID information on a per call basis by dialing a special code prior to placing a call.
 - w. Consultation Hold
Allows a VTN user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.
 - x. Make Set Busy
Allows a VTN user to make a particular station appear busy to incoming calls.
3. Each VTN Digital Key station will have the option to be equipped with the following features at no charge. VTN users must provide their own compatible premises equipment to utilize these features.
- a. Expansion Modules
Provides the VTN user with a Digital Key telephone to have additional keys for features or call appearances by adding one or two Expansion Modules to their VTN Digital Key station.
 - b. Automatic Dial
Provides autodialing of a single directory number via a single key on a Digital Key telephone.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

SPECIAL DIAL TONE ARRANGEMENTS

7.2 VIRTUAL TELEPHONE NETWORK¹ (Continued)

(C)

7.2.2 Standard and Optional Features (Continued)

3. (Continued)

c. Multiple Call Appearances of a Directory Number

Allows the VTN user to have up to five (four additional) appearances of the primary directory number or secondary directory number assigned to the Digital Key telephone, providing the capability of multiple hunting incoming or outgoing calls associated with that directory number.

d. Shared Call Appearances of a Directory Number

Allows a directory number(s) from any VTN station to appear on customer-provided sets of other users.

e. Busy Lamp Field / Direct Station Selection

Allows the VTN Digital Key station to monitor the busy status of another VTN station line or to directly call another VTN station by depressing the associated BLF/DSS key.

4. The following are optional, chargeable individual line features.

a. 6-Way Calling

Allows the VTN user to call up to five parties and establish a six-way call.

b. Assume Dial "9"

Enables a VTN line to place outgoing calls without the requirement of a network access "9" digit.

c. Caller ID Number (Standard VTN Line)

Allows the VTN user to see, where technically feasible, the directory number associated with an intergroup incoming call. VTN users must provide their own compatible premises equipment in order to process and display the number transmission.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

SPECIAL DIAL TONE ARRANGEMENTS

7.2 VIRTUAL TELEPHONE NETWORK¹ (Continued)

(C)

7.2.2 Standard and Optional Features (Continued)

3. (Continued)

d. Caller ID Name and Number

Allows the VTN user to see, where technically feasible, the name and directory number associated with an incoming call. VTN users must provide their own compatible premises equipment in order to process and display the number transmission.

e. Direct Connect

Allows a call to be automatically placed to a designated directory number without dialing by lifting the receiver off the switchhook.

f. Ground Start

A type of signaling on the VTN line in which one side of the two-wire trunk is momentarily grounded to receive dial tone.

g. Speed Call 30

Allows the VTN user to call a list of 30 preselected directory numbers by dialing two or three digits instead of the directory number.

h. Warm Line Transfer

Allows a call to be placed to a designated directory number without dialing. The call will be placed once the VTN user's phone has been off-hook for a predetermined amount of time.

i. Secondary Directory Numbers

Ann arrangement that allows a Digital Key telephone to have access to an additional telephone number(s). The additional telephone number(s), or Secondary Directory Number(s), may originate or receive calls independent of the Digital Key Telephone's Primary Directory Number.

7.2.3 Conditions and Limitations

1. A VTN customer must have a minimum of two VTN lines and all lines must be served by the same switch in the same local calling exchange.
2. The minimum charge period for services provided under this tariff shall be for twelve months.
3. VTN is offered subject to the availability of outside plant and/or Central Office facilities. Individual feature availability and availability of Digital Key lines may differ by exchange.
4. Requests for special feature or service arrangements not listed in this tariff may be subject to additional charges.
5. The Customer is responsible for the payment of any additional cost incurred when forwarding or transferring calls over the public switched network between the VTN station and the station at which the call is forwarded or transferred.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

(C)

7.2.3 Conditions and Limitations (Continued)

6. VTN service does not include any terminal equipment which may be required on the customer's premises.
7. Unless specifically exempted, VTN service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff.
8. Temporary Suspension of Service is not available with VTN Service.
9. Customers are entitled to one directory listing per VTN Group without charge. If the customer chooses not to list their main directory number, a Non-Published Number charge will apply. Additional Business Directory Listings are available. Please refer to Section 6 of this tariff.
10. VTN lines are provided in a non-blocking arrangement without trunk equivalents or simulated facility groups.
11. The local exchange calling area of any VTN line will be determined elsewhere in the Company's tariffs.
12. Individual Case Basis (ICB) or Special Pricing may be provided by the Company for VTN customers with 100 or more lines.
13. When subscribing to VTN Service, customers will be required to commit to a minimum number of lines they will maintain in service throughout the length of the contract. This minimum line commitment will be used to determine the appropriate line rate. Actual lines in service may be higher than the commitment level.
14. Each VTN Digital Key line may be provisioned with a maximum of 2 Digital Key Channels.
15. VTN Digital Key lines are provisioned for voice-only applications and may not be used for data transmission.

1 This service is grandfathered to existing customers effective April 29, 2016. The service will not be available to new customers after this date.

7.2.5. Termination Liability

If the Customer cancels VTN Service prior to the completion of the term of the Agreement, the Customer shall be obligated to pay one of the following termination liability charges. Customers who fall below their minimum line commitment will have an option of continuing to pay for the minimum number of liens committed to in the contract until the end of the contract term or terminate the contract. If the Customer terminates the contract, the applicable termination liability charge will apply.

1. 12-Month Term

If the Customer cancels service prior to 12 months of service, they will be assessed a liability charge equal to 75 percent of the remaining revenues from the minimum number of lines of the 12-month term.

(Minimum Number of Lines) X (12 Month Line Rate) X (Months to reach 12) X 75%

2. Multi-Term (Canceled Prior to 12 Months)

If the Customer cancels service prior to 12 months, they will be assessed the 12-Month Term liability charge. In addition, the Customer will also be charged the difference between the price they paid and the price they would have paid if on a 12-month term.

(Minimum Number of Lines) X (12 Month Line Rate) X (Months to reach 12) X 75%

(Number of Lines) X (Difference between billed rate and the 12-month line rate) X (Months in Service)

3. Multi-Term (After 12 Months)

If the Customer cancels service after 12 months, but prior to the expiration of the contract, the Customer will be retroactively billed as if the Customer had initially ordered the service at the most recently expired term offered for VTN service.

(Minimum Number of Lines) X (Difference between billed rate and most recently expired line rate) X (Months in Service)

¹

OPTIONAL SERVICES

9.1 ADVANCED CALLING SERVICES (Continued)

9.1.2 SERVICE DESCRIPTION (Continued)

F. REPEAT DIALING

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

Repeat Dialing is available on a flat monthly rate basis.

(D)
|
(D)

G. SPECIAL CALL ACCEPTANCE

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

H. CALLER ID

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

1) Caller ID - Basic

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

OPTIONAL SERVICES

9.2 **CUSTOM CALLING SERVICES** (Continued)

9.2.2. Service Descriptions (Continued)

8. Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

(D)

(D)

11. Personal Ringing

This service allows the customer to have up to three distinct telephone numbers on a single line. The second and third number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all three telephone numbers can be forwarded.

MISCELLANEOUS SERVICE ARRANGEMENTS

10.13 OFF PREMISES EXTENSION¹

A. General

Off-Premise Extension (OPX) is a telephone line that connects a station located in a separate building to the main station at the Network Interface Device or at the pedestal. This allows the phone at each location to ring at the same time.

B. Conditions and Limitations

1. OPX will only be provided where technically feasible and is subject to the availability of outside plant.
2. Mileage charges will be based upon the airline mileage between the locations of the primary (main station) and secondary line terminations.
3. For multi-point channels, the mileage is the shortest airline distance between each building in which the channel terminates. The charging mileage is the combination of such segments of distance which results in the lowest total mileage for the entire channel.
4. OPX is only provided to locations residing within the same exchange as the main station.
5. OPX may be located on the premises of another customer provided the other customers have a separate access line service at that location.
6. The Telephone Company may limit the number of off premise extensions connected to a line.
7. OPX is limited to voice grade service.
8. Calls made to 9-1-1 from the extension station may only list the main station in the 9-1-1 database.
9. The rates listed below are in addition to the Basic Local Exchange Service.
10. Non-recurring charges as stated in Section 4 apply.
11. If supporting structures are necessary for the purpose of furnishing OPX extensions on the customer's premises or the extension involves unusual construction or disproportionately large expenditures as compared with usual types of construction, the customer may be responsible for the additional costs of construction.

¹ Off Premises Extension provisioned in or through the Central Office is grandfathered to existing customers effective 4/29/16. This service will not be available to new customers after this date.
