U100.20.1 GENERAL

(T)

Privacy ID provides Caller ID subscribers with the ability to identify unavailable, unknown, blocked and private numbers. Privacy ID intercepts all unidentified calls before the subscriber's telephone rings then asks the caller to state their name or company. Once the calling party has responded, the service rings the subscriber and announces the calling party's information. The subscriber has the option to accept the call, reject the call, play an announcement to the calling party or forward the call to voicemail.

U100.20.2 REGULATIONS

(T)

1. The Privacy ID subscriber may provide calling parties with a Caller's Access Code. Use of this access code allows the calling party to bypass Privacy ID.
2. Privacy ID is provided subject to availability of facilities.
3. Privacy ID is not offered in conjunction with Integrated Service Digital Network (ISDN), Public Communication Service, Centrex, Centrex Service II and PBX systems.
4. When the Call Trace and Return Call features are activated on calls intercepted by Privacy ID, the telephone number captured is that of the Service Node, which performs Privacy ID, not the telephone number of the calling party.
5. Caller ID with Name is required in order to subscribe to Privacy ID.
6. Service Charges do not apply when Privacy ID is installed.

U100.20.3 RATES AND CHARGES

(T)

1. Service charges and monthly rates for exchange access lines and other services with which this service is associated apply, as appropriate.

	Residence	Business
2. Privacy ID	\$5.00	\$5.95
3. Privacy ID is available as an add-on to Personal II Solution and Standard Home Phone II at a monthly rate of \$4.00.
