GENERAL CUSTOMER SERVICES TARIFF

FRONTIER COMMUNICATIONS OF THE CAROLINAS LLC
ISSUED: November 2, 2015

Section 13
First Revised Sheet 2

By: Vice President
Rochester, New York

P.S.C. - S.C. No. 1
EFFECTIVE: November 16, 2015

MISCELLANEOUS SPECIAL ARRANGEMENTS

13.1 REMOTE CALL FORWARDING (Continued)

13.1.1 General (Cont'd)

- n. RCF Service provides for handling only one call at a time. An additional service feature is required for each additional call to be handled while the first call continues.
- o. RCF international is not allowed.

13.1.2 Rates and Charges

- a. The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used. Residence and business exchange service line rated do not apply at the call forwarding location

(1) Remote Call Forwarding

	<u>Monthly Rate</u>		
	<u>Residence</u>	<u>Business</u>	
Remote Call Forwarding			(C)
Per feature arranged	\$ 25.38 (I)	\$ 27.00 (I)	(C)
Per additional access facility	25.38 (I)	27.00 (I)	(C)

The message charges applicable to remotely forwarded calls shall be comprised of two separate charges; (1) a charge for that portion of the call from the originating station to the call forwarding location, and (2) a charge for that portion of the call from the call forwarding location to the terminating station. The respective charge for each such portion shall be as follows:

- 1) Between the originating station and call forwarding location.

The charge for this portion of a remotely forwarded call shall be the charge specified in this Tariff for the type of call involved.

- 2) Between the call forwarding location and the terminating station.

The Remote Call Forwarding customer is responsible for all local and toll charges as specified in the applicable tariff. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

- 3) Remote Call Forwarding via the toll network will be limited to those exchanges which have equipment available for identification of toll billing.

MISCELLANEOUS SERVICE ARRANGEMENTS

13.3 Calling Services (Cont'd)

13.3.3 Rates

Following a 30 day advance notice to existing customers, the Company may set rates for Calling Services at a range falling between the minimum and maximum rates listed below.

- a. Single Service - One calling service per line:

		<u>Monthly Rate</u>		<u>Installation</u>	
		<u>Residence</u>	<u>Business</u>	<u>Charge</u>	
(1)	Call Forwarding ¹ , per line				
	Present	\$3.55 (I)	\$6.85 (I)	\$ -	
	Minimum	2.00	4.00	-	
	Maximum	5.00	8.00	-	
(2)	Multipath, per line*				
	Present	3.50	5.50 (I)	-	
	Minimum	2.00	4.00	-	
	Maximum	5.00	8.00	-	
(3)	Call Waiting/Cancel Call Waiting ¹ per line				(T)
	Present	4.57 (I)	7.15	-	
	Minimum	2.50	5.00	-	
	Maximum	8.00	12.00	-	
(4)	Three-Way Calling ^{1,2} , per line				
	Present	4.31 (I)	6.99 (I)	5.00	
	Minimum	2.00	4.00	-	
	Maximum	5.00	8.00	-	
	Per Activation ^{3,4}	.76 (I)	2.00 (I)	-	(T)
(5)	8-Number Speed Dialing ^{1,5} , per line				(T)
	Present	3.30 (I)	5.50 (I)	-	
	Minimum	1.50	2.00	-	
	Maximum	5.00	6.00	-	

* Multipath is available only as an enhancement to Call Forwarding.

Note 1: Refer to Choice of Features Pack offer and applicable rate discount.

Note 2: The customer may subscribe to this service as follows: 1) On a per line basis which allows an unlimited number of activations; or 2) on a per activation basis which can be activated at any time. The per activation charge is only applicable for successful activations.

Note 3: At the customer's request, the "per activation" service will be blocked on all lines at no charge.

Note 4: Maximum monthly charge is \$15.00.

Note 5: Limited to existing customers at their existing locations.

Note 1: Cancel Call Waiting is not included toward the flexible packaging and/or Choice of Features Pack threshold. The rate, however, will be discounted if the threshold quantity is met.

Note 2: Refer to Choice of Features Pack offer and applicable rate discount.

GENERAL CUSTOMER SERVICES TARIFF

FRONTIER COMMUNICATIONS OF THE CAROLINAS LLC
ISSUED: November 2, 2015

Section 13
Second Revised Sheet 15

By: Vice President
Rochester, New York

P.S.C. - S.C. No. 1
EFFECTIVE: November 16, 2015

MISCELLANEOUS SPECIAL ARRANGEMENTS

13.3 Calling Services (Continued)

13.3.4 Custom Calling Local Area Signaling Service (Continued)

b. Description (cont'd)

- (2) Busy Number Redial is an arrangement which permits the customer to redial automatically the last number dialed. If the called line is found to be busy, a 30-minute queuing process begins. The customer is then given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of the called line until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the calling party is alerted with a distinctive ring signifying that the call can now be completed.

At the customer's request, the "per activation" feature will be blocked on all lines at no charge.

- (3) Automatic Call Return allows a customer to obtain information about the last incoming call when the service is activated by dialing *69. Upon dialing *69, information associated with the last incoming call is announced if it is available from the network and the calling party has not blocked the calling information. Depending on the serving central office, the date and time of the call may also be announced. When a telephone number is announced, it may not always identify the calling party and, in some cases, cannot be used to return the call automatically or by manual dial back.

If possible, the service may also allow a customer to return the call automatically by dialing "1". *69 cannot automatically return all calls. When a telephone number is announced, the customer is instructed to dial "1" to return the call automatically. If the customer dials "1" and the line associated with the called number is busy, the call is queued for up to 30 minutes or until both lines are idle. When both lines are idle, the customer is given an indication with a distinctive ringing pattern that the network will attempt to set up the call. Once the customer answers the distinctive ring, the network attempts to set up the call.

Per activation customers are charged upon announcement of information associated with the last incoming call. The charge applies regardless of whether the customer attempts to return the call by dialing "1" and regardless of whether the announced number identifies the calling party or can be used to return the call automatically or by manual dial back. Additional charges associated with calls returned using *69 will apply.

At the customer's request, the "per activation" feature will be blocked on all lines at no charge.

- (4) Selective Call Rejection allows a customer to block incoming calls from a maximum of 12 telephone numbers. The customer also can block incoming calls placed from the last calling number even if the number is unknown to the customer. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls. (T)

The terminating central office will recognize this "private" marking and if the number is entered onto the screening list automatically (not by dialing the digits), the voice announcement system will say the number cannot be announced during the screen list editing review. The calling number, however, will be matched against the customer's screening list and routed accordingly.

GENERAL CUSTOMER SERVICES TARIFF

FRONTIER COMMUNICATIONS OF THE CAROLINAS LLC
ISSUED: November 2, 2015

Section 13
Second Revised Sheet 17

By: Vice President
Rochester, New York

P.S.C. - S.C. No. 1
EFFECTIVE: November 16, 2015

MISCELLANEOUS SPECIAL ARRANGEMENTS

13.3 Calling Services (Continued)

13.3.4 Custom Calling Local Area Signaling Service (Continued)

b. Description (Continued)

- (7) Selective Blocking (Per Call) allows a single-line customer to make a call and temporarily mark the delivery of his/her calling number identification (CNI) as "private" to the next person he/she is calling. This is accomplished on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the delivery of the telephone number.

This feature will be available, subject to the availability of facilities, without presubscription, and at no charge.

Feature Interactions:

Automatic Call Return - The terminating central office will recognize this "private" marking and cause the voice announcement system to say the number cannot be announced.

Selective Call Rejection - The terminating central office will recognize this "private" marking and if the number is entered onto the screening list automatically (not by dialing the digits), the voice announcement system will say the number cannot be announced during the screen list editing review. The calling number, however, will be matched against the customer's screening list and routed accordingly. (T)

Caller ID-Number Only- The terminating central office will recognize this "private" marking and transmit that signal to the display device, which in turn will display "P", "PRIVATE", OR "PRIVATE NUMBER" or such similar indicator on that call.

Call Trace - This service is unaffected, and will record the calling number.

- (8) Complete Blocking (Per Line) allows a single-line customer to make all calls with the delivery of his/her calling number identification (CNI) marked as "private" to the people he/she is calling. If the preassigned access code for Complete Blocking (Per Line) is dialed, the calling number WILL be delivered on that call. Complete Blocking (Per Line) is available at no charge to established shelters of domestic violence intervention agencies and law enforcement agency offices and must be established/removed via a service order. Feature Interactions are the same as in Item (7) above.

- (9) (Reserved for Future Use)

(D)
|
(D)

- (10) Selective Call Acceptance screens incoming calls and only allows access to those telephone numbers on a customer determined list (up to a maximum of 12 telephone numbers). All others will be directed to a pre-recorded message.

- (11) Selective Call Forwarding is an arrangement which permits a customer to prespecify telephone numbers (maximum of 12) from which incoming calls are to be forwarded. During the period that Selective Call Forwarding is activated, only calls from the prespecified numbers will be forwarded.

- (12) Priority Call allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. If a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a special Call Waiting tone.
