**SECTION 3 – SERVICES AND RATES**

**3.1 Computation of Charges**

Unless otherwise specified for a particular service, charges for service will be based on the number of minutes of Service used by the Customer, the time of day at which the Service is used, and the distance between origination and termination of the call. For the purpose of computing charges a call begins at the time that the hardware or software answer supervision indicates that the call has been answered at the distant end, and terminates when the customer disconnects. Applicable usage charges apply for all calls which are answered regardless of the length of the calls. Unless otherwise specified for a particular service, the minimum charge for any call is the applicable rate for one minute; after one minute, charges will be in whole minute increments, with fractions rounded up to the nearest whole minute. If the computed charges include a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.523 would round up to \$1.53) on a per call basis. Calls will be billed at the rate effect during the call, with two rates applied if the call spans over more than one billing rate period. Billing periods are as follows:

(I)  
(I)

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM TO 5:00 PM*	DAYTIME RATE PERIOD
