TARIFF FORMAT

Page Numbering - Page Numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time new pages may be added to the tariff. When a new page is added between existing pages a decimal is added to the preceding page number. For example, a new page added between pages and 3 would be numbered 2.1.

Explanation of Symbols - When changes are made in any tariff sheet, a revised sheet will be issued canceling the tariff sheet affected. Changes will be identified on the revised page(s) through the use of the following symbols:

- (C) - to signify changed regulations
- (D) - to signify discontinued rate of regulation
- (I) - to signify increased rate
- (M) - to signify text relocated but not changed
- (N) - to signify new rate or regulation
- (R) - to signify reduced rate
- (S) - to signify reissued matter
- (T) - to signify a change in text, but no change in rate or regulation

Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*).

Paragraph Numbering Sequence - There are six levels of paragraph coding. Each level of coding is subservient to its next higher level.
