SECTION 3 - SERVICE DESCRIPTIONS (continued)

3.1 Service Elements (continued)

3.1.2 Time Periods Defined (continued)

Holidays include Christmas Day, New Year's Day, Thanksgiving Day, Independence Day, and Labor Day.

All times refer to local time.

3.1.3 Computation of Charges

For the computation of charges, the duration of each call is measured and rounded up to the applicable billing increment, then multiplied by the applicable rate and if the computed charge for any individual call results in a fraction of a cent, the fraction is then rounded up to the next whole cent on a per call basis. For example, a service may provide that each call will be charged a minimum of 18 seconds and thereafter timed in 6-second increments; therefore, under this example, a 10-second call will be rounded up to 18 seconds (0.3 minutes), and a 44-second call will be rounded up to 48 seconds (0.8 minutes). If, after multiplying the billing increment by the applicable rate, the computed charge for an individual call results in a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.523 would round up to \$1.53). Once the charge for each call is computed as described above, the calls are summed on the Customer's invoice.

Customers who enter into a term agreement may incur a Disconnect Charge, as described in the Customer's Terms and Conditions, for early termination of an Initial Term or Renewal Term.

3.47 Business Reach

Business Reach is a three (3) to five (5) line small business offering that utilizes T-1 delivery of local exchange service and Internet service. Local exchange service and data transmission share the available bandwidth, using all available bandwidth for data transmission when voice lines are not in use. Voice service takes precedence over data and, as voice transmission is required, Internet bandwidth is reduced to accommodate voice needs.

As part of the base package, each business line includes Expanded Calling Service (LATA-wide local calling). To accommodate Expanded Calling Service, the Company must be selected as the IntraLATA toll carrier. Each business line will automatically be configured with the following features:

SECTION 3 – SERVICE DESCRIPTIONS (continued)

3.47 Business Reach, continued

Subscription to the Company's long distance service is required with Business Reach. The Customer must subscribe to Business Reach LD. Product description, rules and regulations and pricing for Business Reach LD are set forth in the Company's Long Distance tariff. Other Company long distance services are not available in conjunction with Business Reach.

Business Reach requires a 2 or 3-year term agreement. The Business Reach VL Discount as outlined in the Rates Section of this tariff is the only discount that applies to Business Reach. The Business Reach VL Discount is determined based on the location of the end office serving the Customer, the length of the term and the number of lines purchased. The Customer will receive no other discount with Business Reach. However, Business Reach customers that sign a 3-year term agreement will receive a one-time \$150.00 credit applied to their second month's invoice.

Customers who enter into a term agreement may incur a Disconnect Charge, as described in Section 2, for early termination of an Initial Term or Renewal Term.

Trunks, DID, Point-to-Point Data/Voice, PRI, MPLS, and multi-site data connectivity services are not available with this product. Pricing, depending on number of local lines, end office serving the Customer location, and length of term, is set forth in the Rates Section of this Tariff.
