Demand Side Management/Energy Efficiency “Opt-Out” Option

Commercial customers with annual consumption of 1,000,000 kWh or greater in the billing months of the prior calendar year and all industrial customers may elect not to participate in Company's demand side management and energy efficiency programs by notifying Company of the customer's election in writing. Any Customer that elects this option will be exempt from paying either the DSM Rate or EE Rate, or both. For purposes of application of this option, a Customer is defined to be a metered account billed under a single application of a Company rate tariff. For commercial accounts, once one account meets the opt-out eligibility requirement, all other accounts billed to the same entity with lesser annual usage located on the same or contiguous properties are also eligible to opt-out in the same manner from paying the DSM Rate or EE Rate, or both. Since these rates are included in the rate tariff charges, Customers electing this option shall receive the following Credit on their monthly bill statement:

DSM Rate Credit = Billed kWh times DSM Rate\*  
EE Rate Credit = Billed kWh times EE Rate\*

\* The DSM Rate and EE Rate shall be as shown in the above table for the schedule applicable to Customer's monthly bill.

Following the December bill each year, usage for commercial accounts electing to “opt-out” of either the DSM or EE rate shall be reviewed and the customer shall be notified and removed from the “opt-out” option if annual consumption is less than 1,000,000 kWh in the prior twelve months.

SALES AND FRANCHISE TAX OR PAYMENT IN LIEU THEREOF

To the above charges will be added any applicable South Carolina sales tax, and for those customers within any municipal or other local governmental jurisdiction, an appropriate amount to reflect any franchise fee, business license tax, or similar percentage fee or tax, or charge in lieu thereof imposed by such entity.
