SECTION 5 - END USER LONG DISTANCE SERVICES**5.8 Business Migration Plan****5.8.1 Description of Service**

The Business Migration Plan is offered to Business Customers for lines presubscribed to the Company. This Plan is offered for both inbound (e.g., 800 service) and direct dialed outbound calling. Business Migration Plan is available only in conjunction with the Company's corresponding interstate plan.

5.8.2 Rates and Charges**A. Calculation of Charges**

All outbound calls are measured in six (6) second increments after an initial minimum call duration of eighteen (18) seconds. Toll free calls are measured in six (6) second increments after a minimum call duration of thirty (30) seconds. Total monthly usage is determined by recording each call individually and rounding the call to the next full minute on a per-call basis. The total monthly usage during a billing period is the sum of the minutes computed for each individual call.

B. Application of Rates

The applicable Usage Rate Level and corresponding Monthly Recurring Charge (MRC) is based on the total billing demonstrated at the time service is ordered or initiated. The MRC applies to each account with one or more lines presubscribed to the Business Migration Plan, regardless of the number lines subscribed. The MRC applies in full for each month or partial month of service. The MRC is permanently waived for Customers who demonstrate a usage history of \$775 or more.

C. Change in Rate Level

The Customer may initiate a request for a change in usage rate level, or the Company may initiate a change upon notice to the Customer, when total billing for a consecutive three month interval falls into a higher or lower rate category. When the Usage Rate Level is changed, the corresponding Monthly Recurring Charge is also changed.
