The Company shall limit the acceptance of contracts under this Rider to a collective total of 700,000 kW on the Company’s South Carolina system where the collective total demand is the sum of the participating customers’ maximum annual demand.

Requests for service under this Rider will be accepted on a first come, first served basis. The Company will accept requests for service under this Rider in the order in which they are received, beginning from the issuance of the Commission’s Order approving the Rider.

Service supplied to qualifying customers under the schedules listed above is subject to a decrement applied to the energy charges of the Rate set forth in the approved rate schedules. Effective with the first calendar month’s billing cycle that occurs at least 15 days after the Commission’s Order, the applicable kilowatt hour rider amount including revenue-related taxes and regulatory fees is -0.0765¢ per kilowatt hour. This rider is available for a total of 12 billing months or until such time as the total accrued decrement reaches \$3 million, whichever occurs first. This decrement is not included in the Rate Schedules of the Company and therefore must be applied to the bill as calculated under the applicable rate.

This Rider is available only to an individual qualifying establishment with 12 months of billing history and is not available to a successor customer at the same location.
