3. Rules and Regulations

3.1.8 Call Features

The Telephone Company shall not be liable for any loss of damages arising out of error, interruptions, defects, failure or malfunctions of Call Features associated with Telephone Company's Services. Damages arising out of such interruptions, defects, failures or malfunctions of the services after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

3.1.9 900/976 Call Block and International Call Blocking

Telephone Company blocks calls to 900, 976 and international chat lines. At this time, 900/976 and international chat line unblocking is not available. International call blocking will be provided, upon customer request, at no charge. The telephone Company reserves the right to block international calls when usage surpasses the threshold set by the Company and/or the account is delinquent.

3.2 Practices and Procedures – Residential Service

3.2.1 Rights of the Telephone Company in Furnishing Service

Ownership and Use of Services

Facilities furnished by the Telephone Company to provide transmission Service on the premises of a Customer (except for inside wiring and inside jacks) are the property of the Telephone Company. Telephone numbers assigned to the Customer by the Telephone Company are portable and transferable with the Customer. The agents and employees of the Telephone Company shall have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, maintaining or repairing the equipment, instruments and lines, or upon termination of the Service, for the purpose of removing such equipment, instruments and lines.

If the installation and maintenance of Service are requested at locations which are or may become hazardous or dangerous to the Telephone Company's employees or the public or property, the Telephone Company may refuse to install and maintain such Service, and, if such Service is furnished may require the Customer to install and maintain such Services and may also require the Customer to indemnify and hold the Telephone Company harmless from any claims, loss or damage by reason of the installation and maintenance of such Service.

Service Use by Customer

The Service is furnished only for use by the Customer, the Customer's family or persons residing in the Customer's household, except as the use of the Service may be extended to persons temporarily subleasing a Customer's residential premises. Use of the Services and all charges incurred therein shall be the sole responsibility of the Customer.

The Company may assign its rights or delegate its obligations under this Tariff to any affiliate or successor in interest. The Customer may not transfer or assign his or her rights or obligations associated with the Services hereunder without the Company's prior written consent.

5.2. Rights of the Telephone Company (Cont'd)

1. Customer is more than thirty (30) days past due with respect to any payment;
2. Customer has failed to comply with the terms of this tariff or contract;
3. Customer files or initiates proceeding or has proceedings filed or initiated against it, seeking liquidation, reorganization or other relief (such as appointment of a trustee, receiver, liquidator, custodian or such other official) under any bankruptcy, insolvency or other similar law and such proceedings are not dismissed within sixty (60) days.

In the event Customer is in default, the Telephone Company shall have at its discretion, and in addition to any other remedies it may have herein, to:

1. Suspend Services to the Customer immediately until such time the noncompliance has been corrected with affecting Customer's on-going obligation to pay the Telephone Company any amounts due (i.e. monthly charges) as if such suspension of Services had not taken place;
2. Termination of Services; or
3. After the occurrence of two (2) such events of Customer default in any twelve (12) month period of time, terminate contractual agreement and/or all of the applicable service orders

If termination is due to noncompliance by the Customer, Customer may be assessed a Termination Charge. The Termination Charge shall be equal to fifty percent

If termination is due to noncompliance by the Customer, Customer may be assessed a Termination Charge. The Termination Charge shall be equal to fifty percent (50%) of the unpaid balance of the Monthly Service charges that would have been due throughout the remainder of the applicable service period plus one hundred percent (100%) of (a) the outstanding balance of any and all one-time charges and (b) any and all previously waived one-time charges.

Customer shall not use or permit any third party to use the Services in any manner that violates applicable law or causes the Telephone Company to violate applicable law.

Customer represents to the Telephone Company that the Customer has the authority to execute, deliver and carry out the terms of this Tariff and/or individual contract for such telephone services. It is the responsibility of the Customer to ensure that any person who accesses any telephone service through the Customer's equipment or through the Telephone Company's facilities on the Customer's premises will be an authorized user.

The Customer may not assign or transfer (directly or indirectly by any means, his or her individual contract or services to any other entity without first obtaining written consent from the Telephone Company. Contracts may not be amended, supplemented or changed without the written consent of the Customer and the Telephone Company.

The Company may assign its rights or delegate its obligations under this Tariff to any affiliate or successor in interest.

5. Business Service

(N)

5.8 Private Line Services

The following services are offered where technically and operationally feasible.

A. Charter Business[®] Optical Ethernet Services

1. General

Charter Business[®] Optical Ethernet Services provide transparent optical network connectivity of point-to-point, point-to-multipoint or multi-point to multi-point configurations. The typical topology for Optical Ethernet is a standard fiber build using shared backbone bandwidth. A premium is charged for redundant/diverse access and dedicated backbone bandwidth. Charter Business[®] Optical Ethernet Services are certified using technical specifications and testing approved by the Metro Ethernet Forum (MEF). The service has an expectation of low Frame Delay, Frame Delay Variation and Frame Loss Ratio.

2. Optical Ethernet Service Types and Descriptions

a. E-Line Services (point-to-point)

Ethernet Private Line (EPL) provides a point-to-point Ethernet transport solution. EPL does not allow for service multiplexing as a dedicated UNI (User Network Interface) is used.

Ethernet Virtual Private Line (EVPL) – EVPL provides a point-to-multipoint (hub and spoke) Ethernet transport solution that allows for service multiplexing (more than one Ethernet Virtual Circuit can be supported at the UNI). The service meets the Metro Ethernet Forum (MEF) specification for an EVPL service and is MEF 9 and MEF 14 certified.

b. E-LAN Services (Multi-point to multi-point)

Ethernet Private Local Area Network (EP-LAN) – E-LAN provides a private metro “LAN” Ethernet network, providing the ability to share bandwidth between multiple Ethernet locations. The service connects a dedicated channel of bandwidth to a single customer that is shared among the customer’s locations. These locations may exchange traffic via the shared connection as required. For example, any port could send information to any other port (any-to-any) or multiple ports could send all of their traffic to a single port. EP-LAN does not allow for service multiplexing as a dedicated UNI (User Network Interface) is used.

c. Ethernet Virtual Private LAN (EVP-LAN) – EVP-LAN provides a private metro “LAN” Ethernet network, providing the ability to share bandwidth between multiple Ethernet locations. The service connects a dedicated channel of bandwidth to a single customer that is shared among the customer’s locations. These locations may exchange traffic via the shared connection as required. For example, any port could send information to any other port (any-to-any) or multiple ports could send all of their traffic to a single port. EVP-LAN does not allow for service multiplexing (more than one Ethernet Virtual Circuit can be supported at the UNI).

These services meet the Metro Ethernet Forum (MEF) specification for an E-LAN service and is MEF 9 and MEF 14 certified.

(N)

5.8 Private Line Services (Cont'd)

A. Charter Business[®] Optical Ethernet Services (Cont'd)

2. Optical Ethernet Service Types and Descriptions (Cont'd)

d. Service Features

The Charter Business[®] Optical Ethernet service offers full duplex connectivity between sites with speeds ranging from 10Mbps up to 10Gbps, scalable in 10Mbps increments. Specific equipment is used at the customer premises to deliver the service. All equipment is MEF compliant.

B. Charter Business[®] Ethernet

Charter Business Ethernet provides transparent network connectivity of point-to-point, point-to-multipoint or multi-point to multi-point configurations via the Company's hybrid fiber-coax (HFC) network which may provide an HFC only private network solution or may be intermixed with Optical Ethernet endpoints.

C. Charter Business[®] Optical Transport Service

A secure private connection delivers high-quality fiber-optic service between two or more sites. A private connection delivers transmission speeds ranging from TDM (DS1, DS3) to high-end SONET (OC3, OC12, OC48), and wavelength services.

D. Charter Business[®] Optical Layer 3 VPN

Optical Layer 3 VPN service provides private IP connectivity between two or more sites within a metropolitan or regional area. The service offers data rates ranging from 10 Mbps to 10 Gbps
