Access to essential services such as 911 as well as 611 calls terminating at the Telephone Company will be available. Suspension Service also includes Voice Mail if requested by the customer. If the customer does not provide a restore service date, Telephone Company will restore service and resume billing after the suspend date option requested. The restored service will be the same and will reflect the same features as the service prior to the suspension. (T)

Use of the Temporary Suspension of Service option allows the customers to not be charged a disconnect service order charge and a new connect service order charge, while maintaining their telephone number. All other monthly recurring charges are waived for the suspended period. If promotional pricing is in effect at the start of the suspension period, the promotional period will not be extended for the period of the seasonal disconnect.

For example, in January, a customer requests an additional line promotion that is priced at fifty percent (50%) of the regularly tariffed rate for the first six (6) months. The customer requests a seasonal disconnect for three (3) months beginning in April. When the service is restored in July, the original promotional time frame has expired and the customer will no longer receive the promotional rate.

Additionally, if rates for any of the services that the customer subscribes to have been increased or decreased during the suspension period, the customer's service will be billed at the rate in place at the time of termination of seasonal disconnect.

The monthly, per line charge for Suspension Service can be found in [Appendix A](#) of this Tariff. (T)

A residential customer may request a temporary suspension of Service to accommodate extended absence needs for vacation, etc. Requests for Seasonal Service may be in four (4) or six (6) consecutive month increments, and can only be applied to the Telephone Company customer's account one (1) time per calendar year. (N)

This service will maintain full dialing and alarm system capabilities. Seasonal Service also includes access to Call Forwarding service as well as Voice Mail if requested by the customer. If the customer does not provide a restore service date, Telephone Company will restore service and resume billing after the suspend date option requested. The restored service will be the same and will reflect the same features as the service prior to the suspension.

Use of the Seasonal Service option allows the customers to not be charged a service and equipment charge, while maintaining their telephone number. All other monthly recurring charges are waived for the suspended period. If promotional pricing is in effect at the start of the suspension period, the promotional period will not be extended for the period of the seasonal disconnect.

For example, in June, a customer requests an additional line promotion that is priced at fifty percent (50%) of the regularly tariffed rate for the first six (6) months. The customer requests a seasonal disconnect for six (6) months beginning in October. When the service is restored in March, the original promotional time frame has expired and the customer will no longer receive the promotional rate. (N)

Additionally, if rates for any of the services that the customer subscribes to have been increased or decreased during the suspension period, the customer's service will be billed at the rate in place at the time of termination of seasonal disconnect.
