TARIFF FORMAT

- (A) **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added.
- (B) **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check sheet for the page currently in effect.
- (C) **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1(A)
 - 2.1.1(A)(1)
 - 2.1.1(A)(1)(a)
 - 2.1.1(A)(1)(a)(I)
 - 2.1.1(A)(1)(a)(I)(i)
 - 2.1.1(A)(1)(a)(I)(i).(1)
- (D) **Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Calculation of Distance

For mileage sensitive services, the distance between originating and terminating points of a call or private line facility are determined using vertical ("V") and horizontal ("H") coordinates for the serving wire center(s) or the Company access point(s) associated with the call or facility. For purposes of determining the airline mileage of a call the Company references the V and H coordinates as found in Telcordia's V&H Tape and NECA FCC Tariff No. 4. The use of coordinates for wire centers versus access points and the method for calculating actual distances varies based on the type of service and the form of access used to reach the Company network.

For non-switched private line services, mileage measurements are based on the distance in airline miles between the Company access points associated with each end of the circuit. Distance measurements are determined using the mileage calculation method shown in section 3.4.1

For outbound and inbound switched long distance services utilizing Switched Access Origination, mileage measurements are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and terminating points. Distance measurements are determined using the mileage calculation method shown in section 3.4.2

For outbound switched long distance services utilizing Special Access Origination, mileage measurements are based on the distance in airline miles between the Company access point associated with the station utilizing Dedicated Access Lines and the serving wire center associated with the called station. Distance measurements are determined using the mileage calculation method shown in section 3.4.2

For inbound switched long distance services utilizing Special Access Termination, mileage measurements are based on the distance in airline miles between the serving wire center associated with the calling station and the Company access point associated with the station utilizing Dedicated Access Lines. Distance measurements are determined using the mileage calculation method shown in section 3.4.2

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Calculation of Distance, (Cont'd.)

3.4.1 Calculation Method for Private Line Services

The following steps describe the procedure for calculating mileage distances for private line services:

- Step 1:** Obtain the "V" and "H" coordinates for the Company access points serving the originating and terminating locations.
- Step 2:** Obtain the difference between the "V" coordinates. Obtain the Difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- Step 3:** Square the differences obtained in Step 2.
- Step 4:** Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5:** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6:** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the wire centers and/or access points.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

Issued: August 21, 2002

Effective: September 18, 2002

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Calculation of Distance, (Cont'd.)

3.4.2 Calculation Method for Switched Services

The following steps describe the procedure for calculating mileage distances for switched long distance services:

- Step 1:** Obtain the V and H coordinates for each rate center.
- Step 2:** Obtain the difference between the V coordinates of the two rate centers. Obtain the difference between the H coordinates. The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- Step 3:** Divide each of the differences obtained in 2. by three, rounding each quotient to the nearer integer.
- Step 4:** Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3. by three and repeat step 4. Repeat this process until the sum of the squares obtained in 4. is less than 1778.
- Step 5:** The number of successive divisions by three in steps 3. and 4. determines the value of N. Multiply the final sum of the two squares obtained in step 4. by the multiplier specified in the following table for the value of N preceding.

N	Multiplier	Minimum Rate Mileage
1	0.9	-----
2	8.1	41
3	72.9	121
4	656.1	361
5	5904.9	1081
6	53144.1	3241

Issued: August 21, 2002

Effective: September 18, 2002

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Calculation of Distance, (Cont'd.)

3.4.2 Calculation Method for Switched Services (continued)

Step 6: Obtain square root of product in 5. and with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 5. preceding, the minimum rate mileage corresponding to the N value is applicable.

Example: Calculate distance from Phoenix City, Alabama and Atlanta, Georgia.

	V	H
(1) Atlanta	7260	2083
Phoenix City	7559	2047
(2) Difference between Vs & Hs	299	36
(3) Dividing each difference by three & rounding to nearer integer equals 100 and 12.		
(4) Squaring integers & adding	100 x 100=	1000
	12 x 12=	<u>264</u>
Sum of squared integers		10264
(5) Sum of integers is greater than 1777, so divide integers in(3) by three & repeat (4).		
(6) Dividing integers in(3) by three & rounding equals 33 and 4.		
(7) Squaring integers and adding,	33 x 33=	1089
	4 x 4=	<u>16</u>
Sum of squared integers		1105
(8) The sum of the squared integers is less than 1778 and was obtained after two successive divisions by three, therefore, N = 2.

Effective: March 10, 2004

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Calculation of Distance, (Cont'd.)

3.4.2 Calculation Method for Switched Services (continued)

Example (continued)

- (9) Multiply final sum of squared integers by factor 8.1 (corresponding to $N = 2$).

$$\begin{array}{r} 1105 \\ \times 8.1 \\ \hline 8950.5 \end{array}$$

- (10) Square root of 8950.5 = 94 and a fraction which is rounded up to 95 miles (fractional miles being considered full miles). The 95 miles is larger than the minimum of 41 rate miles applicable when $N=2$, so the message rate mileage is 95 miles.

The BellSouth® Select Business program (“Program”) is a BellSouth-wide customer loyalty program operated and managed by BellSouth Select, Inc., a wholly-owned subsidiary of BellSouth Corporation. The Program allows customers that meet certain criteria set by each participating BellSouth company to earn points (“Select Points”) that can be redeemed for: (1) certain non-regulated products and services (including discounts on such products and services) offered by BellSouth companies; (2), cash, in the form of a check issued by BellSouth Select, Inc.; or (3) certain products and services (including discounts on such products and services) offered by entities other than BellSouth companies. Under the Company's participation in the Program, Customers may not redeem Select Points earned from the Company for BellSouth Telecommunications, Inc. products and services.

By participating in the Program, the Program participant agrees that BellSouth is not responsible for the benefits provided or to be provided by entities other than BellSouth companies. Each company is responsible for its benefits only and not for those benefits provided by BellSouth or entities other than BellSouth companies.

In order to redeem Select Points, the Program participant must be current on payment of his BellSouth account(s). In the event any of the participant's BellSouth accounts is disconnected for non-payment, the Program participant will be removed from the Program and all unredeemed Select Points shall be forfeited. Unredeemed Select Points will expire no sooner than December 31, two calendar years after the year in which they are issued unless otherwise specified in the Program. For example, Select Points awarded in 2002 will expire on December 31, 2004.

If a Program participant fails to actively participate in the Program during any three year period following Program enrollment, Program participants will be terminated and all accumulated and unredeemed Select Points will be forfeited. 4.3.20 BellSouth® Select Business Program, (cont'd.)

Select Points will be awarded quarterly following a Company determination that the Customer has maintained the Company's services through the end of the quarter. Business Customers enrolled in the Program receive one (1) Select Point for every \$2.00 of long distance charges purchased from the Company once a monthly \$50.00 threshold of purchases of the Company's services has been reached throughout the quarter for which points are being awarded. This threshold is calculated based on the sum of all charges, including non-recurring charges, taxes, FCC charges and 911 charges (net of any other discounts, rewards or credits that may apply to the Customer's purchase of the Company's services). Any tax liability resulting from the award or redemption of Select Points and the receipt of awards is the sole responsibility of the customer/participant. The cash value of a Select Point is \$0.025.

If the Customer fails to pay his bill in full, points equivalent to the amount not paid by the Customer may be deducted from the Customer's point total. Select Points awarded by other BellSouth companies may vary.

Program participants may change their service address (within the Company's service territory), add additional Company products and services, or make changes to the telephone number(s) associated with their enrolled account and continue as Program participants. Address changes and changes to the name on the Program account record must be made by calling the BellSouth Select Service Center. If a Program participant discontinues all BellSouth products and services, Program participation will be terminated and all accumulated and unredeemed Select Points will be forfeited. If within 90-days of terminating all BellSouth products and services, a former Program participant returns to BellSouth for equivalent services, enrolls in the Program, and requests reinstatement of forfeited Select Points, such forfeited Select Points will be reinstated.

The Company will review Business Customer accounts annually to verify eligibility to participate in the Program.

Misappropriation of Select Points or the violation of Program terms may lead to appropriate administrative and/or legal action by BellSouth Select, Inc., including but not limited to forfeiture of all accrued points.

Program participants that have multiple business locations billed on one combined monthly bill will be issued only one Program number per combined bill. All Select Points will be issued in connection with that single membership number.

SECTION 6.0 - CONTRACTS FOR SERVICE*

(T)

6.1 General

Services may be offered by the Company on a contractual basis under one of the following arrangements:

6.1.1 Term Plans - Tariffed services provided by the Company may be offered under contract at discounted rates to Customers who agree to use the Company's services for specific time periods or meet other service specific criteria designated by the Company. Plan availability, qualifications, and rates for services offered with Term Plans are specified on a per service basis as described in the applicable tariff section for the individual service or package of services. Rules and regulations associated with each Term Plan are listed in this section of the tariff. Unless otherwise specified, services furnished under a Term Plan are subject to all general rules and regulations applicable to the provision of service by the Company as stated elsewhere in this Tariff.

6.1.2 Customized Pricing Arrangements (CPA) - Under appropriate circumstances, the Company may enter into Customer-specific CPAs furnished in lieu of existing tariff offerings to meet specialized requirements of the Customer not contemplated in this tariff. CPAs may include discounts off of rates contained in this Tariff, waivers of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company's general service offerings, or other customized features. The terms of the CPA may be based partially or completely on a term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features.

CPAs will be offered under contract and will be made available to similarly situated Customers. 7.4.4 BellSouth® Long Distance Voice VPN

Long Distance Voice VPN is an Advanced Intelligent Network (AIN) based voice product. It has enhanced specialized features that optimize the carrier's network to create the appearance and functionality of a private network for the Customer.

Long Distance Voice VPN offers Customers their own private company network by using an outside carrier's public network for transport. From the end user's perspective, the network appears to be Customer specific based on the features the Customer has subscribed to. The AIN architecture allows public network switches to query Service Control Points (SCPs) for instructions to process a VPN call.

(T)

8.1 Service Description, (Cont'd.)

Private Line service includes DS-0, DS-1, Fractional DS-1, DS-3 and OC-n capacity digital transmission services and may be used to transmit both voice and data communications. These services utilize dedicated access arrangements on both the Originating and Terminating ends of each circuit. Charges are billed in advance. Service is subject to the availability of facilities.

(M)

8.1.1 The Company offers the following Private Line services:

- (A) **DS-0 service** - a digital transmission service operating at speeds of 56 or 64 Kilobits per second (Kbps). Service can be delivered via analog or digital access (local loop) facilities
- (B) **DS-1 service** - a digital transmission service operating at 1.544 Megabits per second (Mbps).
- (C) **DS-3 service** - a digital transmission service operating at speeds of 44.736 Mbps.
- (D) **OC-n service** - a broadband digital transmission service.
- (E) **Fractional DS-1 service:** provides point-to-point (Customer premises to Customer premises) connectivity at speeds of 2 to 23 DS-0 circuits. The service is supported in 56/64 kbps increments. The Fractional DS-1 service can be delivered via DS-1, DS-3 or OC-n access.

(M)

The Company also provides Echo Cancellers as an optional feature on DS-0, DS-1 and DS-3 Private Line services. Echo Cancellers eliminate undesired signals (i.e., echoes) on long haul circuits that may experience "echoes" as a result of their distance (generally over 500 miles) and are used exclusively on voice circuits. This optional feature is provided at an additional charge.

8.3 Terms and Conditions of Service

Private Line service is available under the Integrated Service Package Offerings in Section 10 of this Tariff. Terms and conditions of the provision of Private Line service as part of an Integrated Service Package, including, without limitation, discounts, usage minimums, and term commitments are set forth in this Tariff.

The Rates and Charges described in this Section of the Tariff are based on the commitment of the Customer to utilize the service for a specified minimum period of time. Therefore, notwithstanding anything in this Tariff to the contrary, the Customer will be billed by and required to pay to the Company all rates, fees and charges which accrue for each Private Line circuit and for all associated Dedicated Access facilities during the entire Circuit Minimum Service Term (as defined below) applicable to each such Private Line Circuit.

The Circuit Minimum Service Term shall be a minimum in-service period beginning on the day the Company notifies the Customer that the facility or circuit is available for use and the Customer accepts delivery of such facility or circuit. A facility or circuit is considered accepted by the Customer if (i) the Customer fails to give written notice that the facility or circuit is in material non-compliance with the applicable standard network specifications within five (5) business days after notification to the Customer by the Company that the facility or circuit is available; or (ii) the Customer places live traffic over the facility or circuit after notification by the Company that facility or circuit is available.

Billing shall commence once a facility or circuit is considered "available and accepted" as described above, regardless of whether or not the Customer utilizes all or any part of such facility or circuit.

For Fractional DS-1 and DS-1 BellSouth[®] Long Distance Private Line service the Circuit Minimum Service Term is six (6) continuous months. For DS-3 Long Distance Private Line service, the Circuit Minimum Service Term is twelve (12) continuous months. For OC-n Long Distance Private Line service the Circuit Minimum Service Term is determined on an Individual Case Basis (ICB).

The company will bill and collect from the Customer all waived nonrecurring charges associated with a Private Line service promotion on a Private Line circuit or facility that has not met the Circuit Minimum Service Term upon termination of the Customer's agreement or upon disconnect of such Private Line circuit or facility.

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

8.4 Rates and Charges

BellSouth[®] Long Distance Private Line service is available under the Integrated Service Packages offerings in Section 10 of this Tariff. Terms and Conditions for the provision of Private Line service as part of an Integrated Service Package, including without limitation, discounts, usage minimums, and term commitments, are set forth in Section 10 of this Tariff.

The rates and charges described in this Section are the base rates and charges prior to any volume and term discounts given to the Customer. Customers who subscribe to Integrated Service Packages in this Tariff may obtain discounts from these base rates and charges.

The nonrecurring charges for each Private Line channel apply for the installation of new circuits, changes in speed of existing circuits or temporary disconnects of a circuit for Customer reasons. For changes in Private Line service speeds, the nonrecurring charge associated with the current (old) channel speed shall apply. The nonrecurring charges associated with a change of speed or temporary disconnect will not apply to DS-0, Fractional DS-1 and DS-1 channels in service for at least six (6) continuous months or to DS-3 and above speed channels in service for at least twelve (12) continuous months.

The monthly charges for each Private Line channel shall be the applicable monthly charges in effect on the date that such Private Line channel is installed, and the rates for such Private Line channel shall remain fixed for the duration of the Customer's Contract Term.

Additionally, rates set forth herein do not include Dedicated Access channels and access-related charges (including, without limitation, installation charges, inside wiring charges assessed by the Local Exchange Carrier (LEC), construction charges assessed by the LEC and distance and termination charges assessed by the LEC). Therefore, Dedicated Access channels and access related charges are additional charges. Rates and charges for Dedicated Access channels provided by the Company are found in Section 9 of this Tariff.

OC-n rates and charges will be calculated on an Individual Case Basis (ICB).

The nonrecurring charges herein apply to Dedicated Access channels used in conjunction with BellSouth® Long Distance Private Line Service.

A Customer request to Change/Move the location or address of one end of a Private Line service will be treated as either: A) Move Order or B) Disconnect and New Order depending on whether the change in location results in a change in Serving Wire Center.

- (1) **Move Order:** If the Customer request to Change/Move one end of the Private Line does not result in a change to the corresponding Serving Wire Center, the change will be treated as a Move Order, and no additional move charges shall be payable other than those provided for a Move within the Same Building for the Dedicated Access Loop pursuant to Section 10.5.6 (A) of this tariff.
- (2) **Disconnect and New Order:** If the Customer request to Change/Move one end of the Circuit results in a change to the corresponding Serving Wire Center, the change will not be considered to be a Move and will be treated as a disconnect and new order for service. Any applicable early termination, disconnection or nonrecurring charges, including a new Circuit Minimum Service Term, may apply pursuant to this tariff.

SECTION 9.0 - DEDICATED ACCESS SERVICE*

(T)

9.1 Service Description

Dedicated Access service provides for the connection of a customer premises to the Company's point of presence (POP) or its designate. With Dedicated Access service, the Customer is connected directly to the Company's network or its designate without utilizing the services of the local switched network.

Dedicated Access service may be obtained directly from the Company at rates and charges contained in this Tariff. Dedicated Access services are available in various facility types for originating, terminating and two-way point-to-point service at transmission speeds shown in the following table:

Facility Type	Available Bandwidth	Equivalent VG Channels
DS-0 Analog	300-3000 Hz	1 Channel
DD-S	64 Kbps	1 Channel
DS-1	1.544 Mbps	24 Channels
DS-3	44.736 Mbps	672 Channels

BellSouth[®] Dedicated Access service at DS-3, OC-3, OC-12, OC-48 and OC-192 rates may also be available but will be provided on an individual case basis (ICB) pursuant to contract as described in Section 6 of this Tariff.

A Dedicated Access service as offered by the Company provides a transmission path between a Customer's designated premises or the central office of the Customer's serving LEC¹ to a Company Point of Presence (POP) or its designate. Dedicated Access service connections are provided as digital channels differentiated by bit rate.

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

(T)
(T)

¹ Centrex-type service switches, packet switches and digital cross-connect systems provided by the Customer's serving LEC are considered to be a customer premises for purposes of administering regulations and rates contained in this Tariff.

SECTION 9.0 - DEDICATED ACCESS SERVICE*, (CONT'D.)

(T)

9.1 Service Description, (Cont'd.)

As an alternative, the Customer may provide its own Dedicated Access service from another access vendor, ("Customer Provided Access"). Customer Provided Access allows the Customer to provide its own local access (local channel) via a local exchange carrier (LEC) or other vendor provided the vendor has entrance facilities into the BellSouth Long Distance Network Access Point of Presence ("NAP"). BellSouth Long Distance is responsible for all network components with the exception of the Customer provided local channel.

If the Customer chooses to provide its own access facility in conjunction with BellSouth Long Distance services, the Customer has the sole responsibility to acquire, coordinate the delivery, and maintain the access facility. The BellSouth Long Distance Customer Resource Center ("CRC") will provide the Customer with a "Letter of Authorization" ("LOA") and a "Channel Facility Assignment" ("CFA") to facilitate the delivery of the local channel by the Customer's Access vendor.

Rates and charges for Customer Provided Access are contained in Section 9.5.

Customers can order a basic channel and select, from a list of available transmission parameters and channel interfaces, those that they desire to meet specific communications requirements. For purposes of ordering channels, each is identified by type of service. However, such identification is not intended to limit a Customer's use of the channel nor to imply that the channel is limited to a particular use. Following is a brief description of each type of channel offered by the Company:

DS-0 Analog - a voice grade channel which provides voice frequency transmission capability in the nominal frequency range of 300 to 3000 Hz and may terminate as a two-wire or four-wire facility. Analog DS0 access service is provided between the Customer premises and the Company point of presence.

Digital Data Service Access - a channel for duplex four-wire transmission of synchronous serial data at the rate of 56.0 or 64.0 kbps. Transmission speeds of 56.0 and 64.0 kbps are referred to as high speed Digital Data Service (DDS) options. The actual bit rate is a function of the channel interface selected by the Customer.

DS-1 - a channel for the transmission of nominal 1.544 Mbps isochronous serial data. The actual bit rate is a function of the channel interface selected by the Customer.

DS-3 – a channel for the transmission of nominal 44.736 Mbps isochronous serial data. A DS-3 channel has capacity for 28 DS-1 channels.

(T)

9.1 Service Description, (Cont'd.)

(T)

9.2 Rate Elements

Generally, a BellSouth[®] Dedicated Access service facility consists of the following rate elements: Access Channel, Optional Features and Functions, Access Coordination Fee and Central Office Connection. Each of these elements is described below in more detail.

9.2.1 Access Channels

An Access Channel provides for the communications path between a customer premises and the Company Point of Presence (POP) or designate. Included as part of the Access Channel is a standard channel interface arrangement which defines the technical characteristics associated with the type of facilities to which the access service is to be connected at the Point of Termination (POT) and the type of signaling capability, if any. The signaling capability itself is provided as an optional feature as set forth in 9.2.2 following. One Access Channel charge will apply per Customer-designated Premises at which the channel is terminated.

Rates and charges for Access Channels are specified by facility type in Section 9.5 and Appendix A of the Company's Complex Business Services Interstate Pricing Guide

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

(T)
(T)

SECTION 9.0 - DEDICATED ACCESS SERVICE*, (CONT'D.)

(T)

9.2 Rate Elements, (Cont'd.)

9.2.2 Optional Features and Functions

Optional Features and Functions provide for capabilities which may be added to a basic BellSouth[®] Dedicated Access service facility to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics, which may be obtained. These characteristics may be obtained by using various combinations of equipment.

Although the equipment necessary to perform a specified function may be installed at various locations along the path of the service, they will be charged for as a single rate element.

(A) DS-0 Analog Service

When service is used for voice applications, signaling is typically required. Additionally, when service is used for data transmission, the Access Channels may require special conditioning (e.g. C-type and/or D-type conditioning).

(1) Signaling

Signaling capability provides for the process by which one Customer Premises alerts another customer premises on the service with which it wishes to communicate.

(2) Conditioning

Conditioning provides more specific transmission characteristics for analog DS-0 access services. C-Type conditioning controls attenuation distortion and envelope delay distortion. D-Type conditioning provides transmission characteristics suitable for data communications. D-Type conditional also provides for the control of "Signal to C-Notch Noise Ratio" and intermodulation distortion.

(T)

9.2 Rate Elements, (Cont'd.)

9.2.2 Optional Features and Functions, (cont'd.)

(B) DS-1 Service

(1) Clear Channel Capability

Clear Channel Capability (CCC) is an arrangement that alters a DS-1/1.544 Mbps signal with unconstrained information bits. This will allow a Customer to transport an all-zero octet over a DS-1/1.544 Mbps channel and will provide an available combined maximum 1.536 Mbps data rate.

CCC is provided on DS-1/1.544 Mbps channels between two Customer designated premises and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS-1/1.544 Mbps channel is ordered, or it may be ordered as an additional feature of an existing channel.

9.2.3 Central Office Connection (COC)

A Central Office Connection consists of monthly and non-recurring charges to telecommunications users for the access connection between the local central office and Company facilities. The charges are on a per channel and speed of circuit basis.

9.2.4 Access Coordination Fee (ACF)

An Access Coordination Fee consists of monthly and non-recurring charges to a telecommunications Customer to compensate for internal labor costs of ordering, provisioning, installing and maintaining end-to-end service by the Company. The charges are on a per access channel and speed of circuit basis.

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

9.3 Payment Plans

BellSouth[®] Dedicated Access service is available on a month-to-month basis with a minimum three-month service period unless otherwise specified in this Tariff. Term discounts, if available, may be provided by the Company through plans as contained in Section 9.5 of this Tariff, promotional offerings or on a contractual basis according to Sections 5 and 6 of this Tariff, respectively.

If a month-to-month Customer disconnects Dedicated Access service prior to the end of the three-month minimum service period, the Customer shall be charged the applicable monthly recurring charge for the full and partial month(s) remaining in that period.

9.4 Special Access Surcharge

A Special Access Surcharge applies when Dedicated Access services are connected to a PBX or equivalent device which is capable of interconnecting the Dedicated Access service with local exchange service.

The Company will automatically bill the surcharge on each Dedicated Access service installed irrespective of whether the interconnection capability exists in the customer's premises equipment or in a Centrex type service switch unless written certification is received from the Customer certifying exemption status as set forth in 9.4.1.

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

9.4.1 Special Access Surcharge Exemptions

A Dedicated Access channel will be exempted from the surcharge if the Customer provides the Company written certification that the Dedicated Access channel termination is one of the following:

- (1) an open-end termination in a Company switch of an FX line, including CCSA and CCSA-equivalent ONALS; or
- (2) an analog Access Channel that is used for radio or television program transmission; or
- (3) a termination used for TELEX service; or
- (4) a termination that by the nature of its operating characteristics could not make use of Company common lines; or
- (5) a termination that interconnects either directly or indirectly to the local exchange network where the usage is subject to Carrier Common Line charges such as, where the Dedicated Access channels access LEC Feature Group A facilities and no local exchange lines, or Dedicated Access service between Customer points of termination or Dedicated Access service connecting CCSA or CCSA-type equipment (inter-machine trunks); or
- (6) a termination that the Customer certifies to the Company is not connected to a PBX or other device capable of interconnecting the Dedicated Access facility to a local exchange subscriber line.

9.4 Special Access Surcharge, (Cont'd.)

9.4.2 Exemption Certification

BellSouth[®] Dedicated Access services which are terminated as set forth in 9.4.1 preceding will be exempted from the Special Access Surcharge if the Customer provides the Company with a written notification certifying exemption. Such notification shall be provided by the Customer (1) at the time the Dedicated Access service is ordered or installed; (2) at such time as the Dedicated Access service is reterminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Dedicated Access service becomes associated with a LEC-provided Feature Group A service that is subject to Carrier Common Line charges.

If written certification is not received at the time the Dedicated Access service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the Customer.

The exemption certification is to be provided by the Customer ordering the service. The certification must be signed by the Customer or authorized representative and include the category of exemption, as set forth in 9.4.1 preceding, for each termination, and the date which the exemption is effective.

The Customer shall also notify the Company when an exempted Dedicated Access service is changed or reterminated such that the exemption is no longer applicable.

9.4.3 Crediting the Surcharge

The Company will cease billing the Special Access Surcharge when certification that the BellSouth[®] Dedicated Access channel has become exempt from the surcharge, as set forth in 9.4.1 preceding is received. If the status of the Dedicated Access service was changed prior to receipt for the exemption certification, the Company will credit the Customer's account, not to exceed ninety (90) days, based on the effective date of the change specified by the Customer in the letter of certification.

9.4.4 Surcharge Rates

The monthly Special Access Surcharge applies to Dedicated Access services on a per voice equivalent basis as shown in the following example.

Voice Grade	1 x \$25.00	= \$ 25.00
DS-1	24 x \$25.00	= \$600.00

In the case of multipoint Dedicated Access service, one Special Access Surcharge will apply for each termination at a Customer designated premises except that no surcharge applies at the Customer designated premises at which the Access service is connected to interstate service.

9.5.7 Access Discount Plan (ADP)

Dedicated Access service Customers will receive the applicable discount from the table below based on the Access Discount Plan Term that the Customer selects per circuit. The discount applies only to the DS-3, DS-1, DS-0 and DDS local channel monthly rates in Appendix A of the Company's Complex Business Services Interstate Pricing Guide.

Access Discount Plan Term	% Discount
One Year	5%
Two Year	10%
Three Year	12%
Four Year	12%
Five Year	12%

If an ADP is terminated by the Customer prior to the end of the ADP Term, the Customer will be assessed an early termination charge equivalent to 75% of the pre-discounted local channel monthly charges multiplied by the number of months remaining in the Customer's ADP Term.

If the Customer extends an ADP Term on any circuit prior to the expiration of that ADP's term, the Company will waive early termination charges provided that the new ADP Term is equal to or greater than the original ADP Term.

Upon ADP expiration, the Customer may elect to enroll in a currently available ADP Term. The applicable % discounts will be applied to the then current monthly rates contained in this Section and Appendix A of the Company's Complex Business Services Interstate Pricing Guide. The Customer will be charged at the current discounted rate for the newly selected ADP commencing the day following completion of the prior payment period.

Customers may continue to receive service upon expiration of their current ADP without enrollment in a new plan. However, service will be continued at the then current monthly rates without any discounts. Additionally, any other promotional monthly waivers associated with the expired ADP will be discontinued. Customers have no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge.

The BellSouth[®] Business Class Family of Services (BBCFS) is a suite of business communication services for Customers who agree to a "minimum monthly revenue commitment" (MMC) for services purchased from the Company and who agree to a "contract term" (Term) of one (1) to five (5) years. Customers may also select a month-to-month option with no MMC or Term obligations. Services available under the BellSouth[®] Business Class Family of Services include BellSouth[®] Dial Direct service and BellSouth[®] Toll-Free service, BellSouth[®] Long Distance Voice VPN service and BellSouth[®] Long Distance Calling Card service, BellSouth[®] Long Distance Private Line service, and BellSouth[®] Dedicated Access service. Discounting is based on the contract term selected by the Customer and the Customer's target revenue commitment.

The term of a BellSouth[®] Business Class Family of Services agreement shall begin, and the applicable discounts or credits will accrue, from the first day of the next billing month if the agreement is accepted by both parties and returned to the Company at least twenty (20) days prior to the first day of the next billing month. Otherwise, the term will commence on the first day of the second billing month following the acceptance of the agreement by both parties. After the expiration of the initial term or any subsequent Renewal Terms, a Customer's BellSouth[®] Business Class Family of Services agreement shall continue on a monthly basis (each month a "Term Extension") subject to the same prices, terms and conditions as in the initial term for the particular services in the original BBCFS agreement, unless the Customer or the Company provides written notice of its intent not to renew such agreement at least thirty (30) days prior to the expiration of the initial term or subsequent Term Extensions.

(T)

10.2 BellSouth® Business Class Family of Services, (Cont'd.)

10.2.1 Description, (cont'd.)

Monthly Revenue used to determine an MMC shall be the aggregate amount charged by the Company to the Customer for the Contributory Services listed in this tariff. Monthly Revenue is calculated prior to the application of any discounts except for BellSouth® Long Distance Private Line service and BellSouth® Dedicated Access service which are aggregated net discounts.

(A) The following charges will be excluded from the calculation of Monthly Revenue:

- (1)** Any Dedicated Access service charges imposed by third parties
- (2)** Any monthly charges not listed in the immediately preceding paragraph.
- (3)** Non-recurring charges
- (4)** Taxes
- (5)** Surcharges (Directory Assistance, Operator Services and Payphone charges are not surcharges)
- (6)** Service charges for Operator Services
- (7)** Payphone charges

When the Customer's total Monthly Revenue for BellSouth® Business Class Family of Services falls below the MMC during any Monthly Period of the term, the Customer shall be billed for and must pay the MMC at the end of that month.

The Company will allow a three-month ramp-up period during which the Customer's Monthly Revenue will not be subject to the MMC. Discounts will apply during this three-month period if the Customer does meet the MMC.

When a Customer signs a BellSouth® Business Class Family of Services agreement and cannot satisfy the MMC due to an installation delay, if such delay was beyond either the Company's or the Customer's sole control or a force majeure event beyond the Customer's control, including but not limited to acts of God, fire, flood, explosion, storm, labor strikes, lockouts, insurrections, acts of terrorism, riots, wars (declared or undeclared), acts of government authority, or of any civil or military authority, national emergencies; then the Company will waive that portion of the Customer's MMC that directly results from such a force majeure event, subject to the following limitations.

To request an MMC waiver under the above provision, the Customer must notify the Company in writing within 30 days of the conclusion of each event for which an MMC waiver may be requested; and provide the Company with a written MMC waiver request within 45 days of each affected month.

The Customer must not be in material breach of the BellSouth® Business Class Family of Services agreement and must have satisfied all of the conditions in such agreement to receive an MMC waiver adjustment. The Company will waive the Customer's MMC for the affected period only. The Customer's MMC will not be waived for any other purpose or period. Any adjustment in excess of 10% of the Customer's MMC may depend on the Customer's agreement to extend the term for a period equal to the number of months in the term affected by the force majeure event, or installation delay, if the delay was beyond either the Company's or Customer's sole control.

10.2 BellSouth[®] Business Class Family of Services, (Cont'd.)

10.2.2 Discount Application, (cont'd.)

Under BellSouth[®] Business Class Family of Services, the Customer commits to an MMC that must be attained during each Monthly Period of the contract Term (1, 2, 3, 4 or 5 years).

The MMC provides the Customer with the discount level to be applied each month regardless of the Customer's actual Monthly Revenue for that particular month, provided the Customer meets the MMC. If the Customer's actual Monthly Revenue in such month exceeds the MMC, the Customer receives the applicable discount from the Volume and Term Discount Table(s) that corresponds to the Customer's MMC. As stated in Section 10.2.1, when the Customer's total Monthly Revenue falls below the MMC during any Monthly Period of the term, the Customer shall pay the MMC at the end of that month and receive the contracted Volume and Term discount for such MMC. There are no MMCs and no discounts for Customers selecting a month-to-month agreement.

Volume and Term discounts will be applied to each Recipient Service according to the appropriate Volume and Term Discount Tables applicable to the particular Recipient Service and the Customer's MMC.

Volume and Term discounts depend on the Customer's selected contract term (1, 2, 3, 4 or 5 years) and the Customer's MMC. Volume and Term discounts do not apply to Customers selecting a month-to-month contract.

10.2.5 Business Downturn

If Customer cannot, despite its best efforts, meet its MSC, as defined in the Customer's BellSouth Business Class of Family Services Agreement ("BBCFS") for Long Distance Services, because of a business downturn beyond its control, BellSouth Long Distance and Customer will cooperate in developing an arrangement to address the parties' concerns. The arrangement may include a change in rates, Discounts, Credits, MSC, Term or other provisions. Any reductions to Customer Term and/or MSC must be a direct result of Customer's business downturn and must be commensurate with the corresponding reduction in Service charges. To invoke this provision, Customer must: (i) notify BellSouth, in writing, within thirty (30) days after the business downturn; and (ii) include in the notice a description of the business downturn and its effect on Customer's operations and MSC Contributory Services usage.

This provision will not apply if Customer decides to: (i) reduce its telecommunications services' use, (ii) change its telecommunications network architecture, or (iii) transfer part of its traffic or projected growth to other carriers. This provision shall also not apply during the first twelve (12) monthly periods of the Initial Term of Customer's BBCFS contract and may only be invoked one (1) time by Customer during the Term of Customer's BBCFS contract. This provision does not constitute a waiver of any charges incurred by Customer prior to the time the parties mutually agree to amend or replace Customer's BBCFS contract. BellSouth Long Distance reserves the right to factor any up-front credits and/or discounts provided to Customer as part of Customer's BBCFS contract into its overall business downturn impact assessment.

10.2.6 Technology Upgrade

Should Customer purchase, as a direct substitute for any BellSouth Long Distance MSC Contributory Service, a new Service made available by BellSouth, or any of its affiliates, during the Term, such substitute Service shall be considered in assessing Customer's potential shortfall liability to BellSouth Long Distance, provided substitute Services have a Term commitment of at least as long as the length of time remaining on Customer's existing BellSouth Business Class Family of Services Agreement. Should substitute Service be made available by BellSouth Long Distance, Customer's Service charges for such substitute Service will contribute to Customer's MSC. As a direct result of Customer's Service substitution, should Customer no longer be able to satisfy its MSC, BellSouth Long Distance will waive the Shortfall Liability caused directly by Customer's switch to such substitute Service. Customer's Shortfall Liability waiver under this provision will not exceed 50% of Customer's MSC. Should BellSouth Long Distance waive Customer's Shortfall Liability under this provision by more than 25% of Customer's MSC, BellSouth Long Distance may adjust Customer's Service Charges to compensate BellSouth Long Distance for that waiver.

SECTION 11.0 - SUPPLEMENTAL CHARGES*

(T)

11.1 Service Expedites

11.1.1 General

The Company will accept orders requiring expedited installation intervals for review in the attempt to satisfy a Customer's request. A service order (non-recurring) Expedite Charge will be applied to each accelerated installation approved by the Company and accepted by the Customer.

The Expedite Charge will be determined based upon the actual date of service delivery in relation to the standard provisioning interval. Due to resource allocation costs and charges incurred during the accelerated provisioning process, a minimum Expedite Charge may be assessed for service deliveries that occur outside the target interval. While the Company will make every effort to provide the requested accelerated service installation, the Company makes no guarantees that the request will be approved, or that any approved expedited installation intervals will be met.

The Expedite Charge consists of two elements: (i) a flat amount which is applied when an expedite request is processed and (ii) an amount based on the number of days that the service is delivered to the Customer prior to the Standard Service Interval (SSI). The first element of the Expedite Charge always applies for processing the Customer's request, regardless of whether or not there is an improvement over the SSI.

* This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.

11.1.2 Service Intervals

All SSI intervals are given after receipt of order (ARO) by the Company. Receipt of order is defined as the point in time at which a “clean” (complete) sales order package is transferred from the Company’s Sales Order Verification Group to Order Entry for processing. The Sales Order Verification Team will notify the Customer’s Account Team regarding incomplete orders, at which time, the Account Team may provide the required information or the package may be returned for additional documentation.

On-Net Facility SSI 30 days ARO for DS-0 Analog, DDS and DS-1 circuits.

Off-Net Facility SSI: 45 days ARO for DS-0 Analog, DDS and DS-1 circuits.

There are no SSIs for DS-3 or OC-n circuits. Intervals for DS-3 and OC-n circuits will be determined on an individual case basis.

For purposes of this Section, On-Net Facilities are defined as the physical media, including switches, circuits and/or ports that are provided (whether leased or owned) by the Company or an affiliate of the Company. On-Net Facilities do not include local access circuits or tail circuits provided by another carrier or local access provider. Off-Net facilities are those local access circuits or tail circuits provided by another carrier or local access provider.

SECTION 12.0 – CUSTOMIZED PRICING ARRANGEMENTS

(N)

12.1 General

This section applies to the Company Customized Pricing Arrangements (CPAs) provided by the Company for intrastate telecommunications.

Each individually designed CPA is customized to meet the diverse communications and network needs of a Customer. The underlying switched and dedicated Network Services included within a CPA are furnished under this section, as well as Section No. 2 of this tariff and the applicable section(s) of this tariff pertaining to the service(s) modified by each particular CPA.

CPAs may include network management; network engineering, design and optimization; network operations and planning; disaster recovery; contingency planning; procurement; vendor management; and training. Except as expressly provided herein, all of the rates, terms and conditions set forth in Section 2 of this tariff as well as the applicable section(s) of this tariff pertaining to the service(s) modified by each particular CPA apply to all CPAs.

Each CPA contains a Network Service or combination of Network Services. Unless otherwise specified herein, all of the terms and conditions set forth in Section 2, as well as any other applicable section of this tariff, apply to the Network Services provided under the CPAs. The contract schedule options herein summarize the Customer's agreements for the provision of CPAs and contain CPA charges, as well as material classifications, practices and regulations affecting such charges.

The Company reserves the right to refuse a Customer's request for a CPA where facilities are not available or when the provision of such CPA is not economically feasible.

When the Company and a Customer agree to a CPA, such CPA will be made available to other similarly situated Customers where additional requests for such CPA are made within the specified period of availability stated in the posted CPA.

SECTION 12.0 – CUSTOMIZED PRICING ARRANGEMENTS, (CONT'D.)

12.2 Definitions

Certain terms used generally through this Section are defined below:

Base Service Schedule: The base service schedule contains all the rates, terms and conditions for a particular Company Service. For example, Section 8 which contains the rates, terms and conditions for the Company's provision of BellSouth[®] Long Distance Private Line Service, is the base service schedule for Long Distance Private Line Service.

Commencement Date: Unless a different date is specified in the CPA, the Term of the CPA shall begin and the applicable CPA discounts or credits will accrue from the first day of the next billing month if the CPA is signed by both parties and returned to Company at least twenty (20) days prior to the first day of the next billing month. Otherwise, the Term will commence on the first day of the second billing month following signature by both parties. Pricing, Services and other arrangements under a CPA agreement will take effect on the Commencement Date.

Company: BellSouth Long Distance, Inc. d/b/a AT&T Long Distance Service.

Condition: A condition is a requirement that a Customer agrees to satisfy and must satisfy in order to receive all of the benefits of a given CPA. Unless otherwise specified in a CPA, the Customer must satisfy the condition during each billing month of the Term. If the Customer fails to satisfy a condition, then certain adjustments described in the CPA may be made to the terms of the Customer's purchase of Network Services. If no specific adjustments are stated in the CPA, then the Company may adjust the Customer's charges for Network Services upon notice to the Customer.

Contract Month: The Contract Month is the monthly billing period within a Contract Year starting on the Commencement Date (or the day following the ramp up period, if an initial ramp up period is provided, unless the Customer's CPA specifies a different date) and any subsequent month thereof.

Contract Year: The Contract Year is the twelve-month billing period starting on the Commencement Date (or the day following the ramp up period, if an initial ramp up period is provided, unless the Customer's CPA specifies a different date) and any anniversary thereof. If the number of months in the Term is not evenly divisible by 12, all of the Company's and the Customer's annual obligations during the last partial Contract Year will be prorated based upon the number of billing months in such partial Contract Year.

Preferred Interexchange Carrier: For purposes of this section, if stated in the CPA, the Customer will award the Company at least 98% (or such other amount as may be specified in its CPA) of its and its affiliated entities' Interexchange telecommunications services of the type(s) included under the CPA and such additional Services as may be specified in the CPA during each billing month of the Term. Affiliated entities include all of the Customer's majority owned subsidiaries, parent companies for which the Customer purchases or influences the purchases of telecommunications services, and other entities under the control of or common control with the Customer and for which the Customer either purchases, controls or directs the purchases of telecommunications services. Affiliated entities include all such entities acquired after the date of Customer's CPA. The Customer's total volume of telecommunications services will not include (for purposes of this calculation) any binding commitments that any affiliated entity may have with another Interexchange carrier on the effective date of the Customer's CPA or the date of its acquisition, as the case may be, service that is routed to another carrier during the period of any Service outage, and any other service usage expressly excluded under the Customer's CPA. The amount of any such commitments will be deducted from the Customer's total amount of telecommunications services when measuring the Customer's compliance with this provision. Upon Company request, Customers designating the Company as their Preferred Interexchange Carrier must provide copies of all Interexchange Carrier invoices and reports for telecommunications services purchased during the preceding six months in order to permit the Company to audit the Customer compliance. If a Customer fails to comply with this requirement, after written notice from the Company, the Customer will not receive any discounts, concessions, waivers or credits under its CPA and all charges to the Customer for Services under the CPA will be based upon base service schedule rates and standard schedule discounts.

Ramp Up Period: An initial period established under a CPA during which a Customer is permitted time to transition services to the Company. The Customer may be relieved from certain of its Minimum Service Commitment, Monthly Volume of Service and other obligations to the Company and the Company may be relieved of certain of its obligations to the Customer during the ramp up period, as expressly provided in the Customer's CPA. The ramp up period may be part of the Initial Term or a separate preceding period and in addition to the Initial Term, as specified in the CPA.

Renewal Term or Renewal Period: Renewal Terms or Periods are one or more 12-month (or other length as may be specified in the Customer's CPA) periods following the end of the Initial Term. The Customer or the Company, as specified in the CPA, may be permitted to renew the CPA for one or more additional renewal periods. If the CPA provides one or more Renewal Terms or Renewal Periods without specifying a procedure for invoking it or them, they will commence automatically. A Renewal Term commences immediately following the conclusion of the Initial Term or the preceding Renewal Term. In the case of automatic Renewal Terms, either the Customer or the Company may elect not to renew the CPA by providing written notice of its or their election not to renew the CPA to the other party at least 30 days prior to the end of the Initial Term or then current Renewal Term. In order for the Customer to exercise any Renewal Term option, it must not be in default of the CPA either at the time of exercise or at the commencement of the Renewal Term. Additional terms, conditions and prerequisites to the exercise of any Renewal option may be set forth in the CPA.

Services: All Company products and services provided under this tariff including, but not limited to, intrastate BellSouth® Dial Direct service, intrastate BellSouth® Toll-Free service, interstate BellSouth® Long Distance Voice VPN service, BellSouth® Long Distance Calling Card service, interstate and intrastate BellSouth® Long Distance Private Line service, interstate BellSouth® Long Distance Frame Relay service and interstate BellSouth® Long Distance ATM service and interstate BellSouth® Dedicated Access service. Shortfall Liability: The amount by which the Customer "falls short of" or fails to meet a Minimum Service Commitment.

Standard Schedule Discounts: Standard schedule discounts are the standard volume and term discounts in the discount tables for Integrated Service Packages in Section 10 of this Tariff or plan discounts available for BellSouth® Dedicated Access service in Section 9 of this Tariff, excluding all promotions, targeted calling options, promotional discounts, and any other temporary promotional-type offerings described in this Tariff.

Term: The Term of a CPA includes, as applicable, the Initial Term, any Renewal Terms exercised and any additional ramp up and/or transition period permitted under a Customer's CPA. If no ramp up period, Renewal Term or transition period is permitted or elected under the CPA, the Initial Term and Term are the same and may be used interchangeably. If no other Term is specified, then the Term will be coterminous with any Term plan or other standard schedule term agreement referenced in the CPA. If no Term is specified and no standard schedule term plan applies, then the Term will be month-to-month and either party may terminate the CPA on 30 days' written notice. Upon the expiration or other termination of the Term of a CPA, the Company will provide Services to the Customer on a month-to-month basis at the same rates, terms and conditions of the CPA that were in effect at the end of the Term of such CPA unless either the Customer or the Company provides written notice to the other party of its intent not to renew a CPA at least thirty (30) days prior to the expiration of the Initial Term or subsequent Renewal Terms.

Transition Period: A Transition Period is an additional period, the length of which is specified in a Customer's CPA, following the expiration or conclusion of the Initial Term or the final Renewal Period during which the Company will cooperate in an orderly and efficient transition of Services to a successor vendor. If no Transition Period is specified in a CPA, no Transition Period is available to the Customer. The Customer will remain responsible for all charges incurred during the Initial Term and any Renewal Terms. A Transition Period is not available in the event that the Company terminates a CPA as a result of a Customer's nonpayment or default. In order to receive a Transition Period, the Customer must not be in default of its CPA and must have satisfied all of the Minimum Service Commitments, Conditions and Qualifications under the CPA at the conclusion of the Initial Term or the Renewal Period. The Customer must inform the Company at least 120 days (or such other period as may be specified in its CPA) in advance of its intent to allow the CPA to terminate and enter into the Transition Period. The Company will furnish Services during the Transition Period at the discounts, Type A through Type E Volume Discounts only, and will not provide any other Credits, adjustments, waivers of charges or price concessions provided under the CPA. In all other respects, the Company's standard schedule terms and conditions and other applicable policies and procedures apply to Services purchased during the Transition Period, in lieu of all other terms and conditions of the CPA.

Volume Charges (also known as Usage Charges): Volume charges are the variable charges for use of the Company's Interexchange communications network. Such charges are determined by the amount of telecommunications network service used by the Customer (units of time or a similar measure). Except as may be expressly provided in a Customer's CPA, volume charges do not include taxes, interest, surcharges, access line, access facilities and other charges associated with tail circuits, fixed recurring or monthly charges, feature charges, service charges for Operator Services, directory assistance charges, installation charges, account charges, set up fees, report charges and other non-recurring charges. For the services set forth herein, if the computed charge of a call includes a fraction of a cent, the fraction is rounded up to the next whole cent (e.g., \$2.341 is rounded up to \$2.35).

12.3 Scope

The price schedules in this section are applicable, subject to availability of facilities, where the Customer subscribes to Company Services within the state. The price schedule herein summarize the Customer CPA for the provision of Services and contain CPA charges for Services, as well as material classifications, practices and regulations affecting such charges. In the event of an inadvertent error in the summarization of the Customer CPA, the CPA will govern the provision of Services to the Customer and the schedule option will be corrected to conform to the CPA.

12.4 Payments

All terms and conditions stated in Section 6 (Contracts for Service) of this tariff will apply to CPA agreements between the Customer and the Company.

Payment terms may be modified by the Company at the Company's discretion based on the Customer's credit rating, credit risk, prior payment history with the Company, financial circumstances, or other demonstrations of lack of credit-worthiness by the Customer.

12.5 Minimum Service Commitments

A Customer's Minimum Service Commitment (MSC) is a volume of Service that the Customer commits to purchase within a specified period of time (e.g., month, year) that may be expressed in dollars, minutes, calls or any other appropriate measure of Service volume.

When volume is expressed as charges, a Customer's MSC may be denoted as either "Net" or "Gross." "Gross" MSC is measured by charges before any available discounts and credits, and a "Net" MSC must be satisfied with charges calculated after all available discounts and credits.

SECTION 12.0 – CUSTOMIZED PRICING ARRANGEMENTS, (CONT'D.)

(N)

12.5 Minimum Service Commitments, (Cont'd.)

When a Minimum Service Commitment is expressed in monthly terms, volume charges are measured prior to the application of credits. References to "charges" in this definition should be understood to refer to minutes, calls, miles or such other units of measure as may be specified in a Customer's CPA.

Unless specifically stated in the Customer's CPA, MSCs will be determined as follows: (a) for MSCs expressed in dollars, the calculation of Minimum Service Commitments will be based on Gross MSCs except for BellSouth® Long Distance Private Line service and BellSouth® Dedicated Access service which will be based on Net MSCs; and (b) For Minimum Service Commitments expressed in monthly terms, the Customer's Net MSC volume charges are measured prior to the application of credits.

The Customer may have a single Minimum Service Commitment or multiple Minimum Service Commitments applicable to subgroups of Services defined in the Customer's CPA. A Customer's Service volume may include monthly charges, and other charges comparable to Interexchange network service usage charges, for the specific Services listed in the Customer's CPA which may include all or part of the following "MSC Contributory Services": (i) Usage for Interstate BellSouth® Dial Direct service, BellSouth® Toll-Free service, BellSouth® Long Distance Voice VPN service, and BellSouth® Long Distance Calling Card service; (ii) Usage for Intrastate BellSouth® Dial Direct service, BellSouth® Toll-Free service, BellSouth® Long Distance Voice VPN service, and BellSouth® Long Distance Calling Card service; (iii) Usage for International BellSouth® Dial Direct service and BellSouth® Toll-Free service; (iv) BellSouth® Long Distance Private Line service monthly charges; (v) BellSouth® Long Distance Frame Relay Port and PVC monthly charges; (vi) BellSouth BSE, Inc. provided Frame Relay Service, PVCs, Packet Service Lines, Packet Service Line Extensions and Internetwork Serving Area Links monthly charges; (vii) BellSouth® Dedicated Access service monthly charges for access channels, ACF and COC; (viii) BellSouth® Long Distance ATM Port and PVC monthly charges; and (ix) similar charges for other Services as specified in the Customer's CPA.

SECTION 12.0 – CUSTOMIZED PRICING ARRANGEMENTS, (CONT'D.)

(N)

12.5 Minimum Service Commitments, (Cont'd.)

Unless otherwise specified in the CPA, if the Customer fails to meet the Minimum Service Commitment(s), the Customer will be billed for and will be required to pay to the Company, in addition to all other applicable charges, the difference between the Minimum Service Commitment(s) and the Customer's actual charges for MSC Contributory Service volume for each period in which the Customer does not achieve the Minimum Service Commitment(s), or such other amount as may be specified in the Customer's CPA.

The Customer's MSC applies during the term, irrespective of any "ramp up" or other period in the base service schedule during which the base service schedule minimum commitment does not apply or during which cancellation under the base service schedule is permitted.

A Minimum Monthly Commitment (MMC) is the minimum amount of Service Volume Charges that a Customer is required to purchase from the Company on a monthly basis. Unless otherwise specified in the CPA, if the Customer's actual Service Volume Charges for those Services listed in the Customer's CPA (MSC Contributory Services) do not equal or exceed the MMC, then the Customer will pay to the Company the difference between the MMC and Customer's actual Service Volume Charges for the MSC Contributory Services for each month in which Customer does not achieve the MMC ("Shortfall Liability"). Unless otherwise specified in the Customer's CPA, MMCs are based on "Gross" charges prior to the application of any discounts except for MMCs associated with BellSouth® Long Distance Private Line service and BellSouth® Dedicated Access service which are based on "Net" charges after discounts.

A Minimum Annual Commitment (MAC) is the minimum amount of Service Volume Charges that a Customer is required to purchase from the Company on an annual basis. Unless otherwise specified in the CPA, if the Customer's actual Service Volume Charges for the MSC Contributory Services do not equal or exceed the MAC, then the Customer will pay to the Company the difference between the MAC and the Customer's actual Service Volume Charges for the MSC Contributory Services for each Contract Year in which the Customer does not achieve the MAC ("Shortfall Liability"). In the event that the Term, Initial Term or Renewal Term, as the case may be, of a Customer's CPA includes a partial Contract Year, and that Contract Year MAC is not stated separately or otherwise adjusted under the CPA, the Customer's MAC will be prorated based upon the number of months in the partial Contract Year. Unless otherwise specified in the Customer's CPA, MACs are based on "Net" charges after the application of appropriate discounts.

12.5 Minimum Service Commitments, (Cont'd.)

A Minimum Commitment (MC) is the minimum amount of Service Volume Charges that a Customer is required to purchase from the Company during any other period(s) (other than monthly or annual) specified in the Customer's CPA (e.g., the first two Contract Years, Term, Initial Term and/or Renewal Term). Unless otherwise specified in the CPA, if the Customer's actual Service Volume Charges for the MSC Contributory Services do not equal or exceed the MC during the specified period, then at the conclusion of the specified period the Customer will be required to pay to the Company the difference between the MC and Customer's actual Service Volume Charges for the MSC Contributory Services during the specified period ("Shortfall Liability").

Subject to all of the conditions and limitations stated below, the Customer's Shortfall Liability may be waived up to 10% of the Minimum Service Commitment if Customer is unable to satisfy its Minimum Service Commitment due to:

- (A) a force majeure condition, including, but not limited to acts of God, fire, flood, explosion, storm, labor strikes, lockouts, insurrections, acts of terrorism, riots, wars (declared or undeclared), acts of government authority, or of any civil or military authority, national emergencies, cable or fiber cuts resulting from the actions of third parties beyond the reasonable control of the Company;
- (B) the sale or other disposition of any subsidiary, division or other significant business unit;
- (C) a delay in the installation of any MSC Contributory Service beyond the Company's standard installation interval;
- (D) a MSC Contributory Service outage.

In order to be eligible to receive a waiver to a Minimum Service Commitment under subsection (ii) above, the Customer's CPA must designate the Company as the Customer's Exclusive Interexchange Carrier or Exclusive Telecommunications Service Provider.

12.5 Minimum Service Commitments, (Cont'd.)

In order to request a MMC Waiver to the Minimum Service Commitment under this provision, Customer must notify the Company in writing of each event for which a MMC Waiver may be requested within 30 days following the event; and submit a written request for a MMC Waiver within 45 days following the conclusion of the Minimum Service Commitment Period.

The Customer must not be in breach of its CPA and must have satisfied all of the conditions under the CPA in order to be eligible to receive any Shortfall Liability Waiver adjustment under this provision. The Company will waive Customer's Minimum Service Commitment MMC for the affected period only. The Minimum Service Commitment MMC will not be waived for any other purpose or period.

12.6 CPA Discounts

12.6.1 Application of Discounts

All CPA discounts will be credited to the Customer's intrastate charges for Services. CPA discounts may not exceed the Customer's total intrastate charges invoiced during any billing month for Services. If the Customer's intrastate charges do not exceed the total dollar amount of the CPA discounts, the Customer will receive a total CPA discount equal to the total of its intrastate charges for such billing month. Base service schedule rates and standard schedule discounts apply to call types, at any volume levels and under any other circumstances not listed in a Customer's CPA.

Discounts under CPA agreements apply to usage charges and, except as expressly provided in the CPA, do not apply to other non-usage charges such as taxes, interest, surcharges, access facility charges, other charges associated with access, fixed recurring charges, installation charges and other non-recurring charges. CPA discounts may be applied in arrears.

12.6.1 Application of Discounts, (cont'd.)

In order to receive base service schedule term plan or other incentive discounts for which the Customer may be eligible under the CPA, the Customer must sign the applicable agreements, contracts and/or enrollment forms. Any terms and conditions applicable to such discounts and/or programs in which the Customer elects to participate are in addition to the terms and conditions applicable under the CPA.

Other than as may be expressly permitted in its CPA, the Customer is not eligible to receive any other CPA, promotions, incentives or discounts (other than standard schedule discounts) applicable to Services. The CPA contract discounts are in lieu of and supersede all such promotions, incentives and discounts. Customers electing to obtain Service under one CPA option may not obtain Service under another option, unless specifically permitted in the CPA option.

12.6.2 Types of Discounts, (cont'd.)

Incremental Discount: Each of the five types of discounts described above, and other types of discounts, may be stated in volume sensitive tables in a CPA. The CPA may also specify that a discount is incremental. An incremental discount, also known as a marginal rate discount table or "tax table" discount, is calculated by applying the discount for the first tier to the volume for the first tier, plus the volume for the second tier multiplied by the second tier discount, and the same for the following tiers of the table, until the customer's total volume for the period is reached and the total discount is calculated.

The following example of an Incremental Discount Calculation is provided for illustration purposes only. The rates, discounts and charges depicted are not intended to be representative of actual rates, discounts or charges that a customer might expect to receive:

The Customer uses 1,000,000 minutes of usage at a \$0.25 per minute base rate with an additional discount (Type A Discount) based upon the following incremental discount table.

Minutes of Use	Discount Rate
50,000 – 100,000	5%
100,001 – 500,000	10%
500,001 – 1,500,000	15%
1,500,001 +	20%

Incremental Discount Calculation:

		Discount Rate	Discount Amount	Net Charges
50,000 min. x \$0.25 =	\$ 12,500	0%	\$ 0	\$ 12,500

12.6 CPA Discounts, (Cont'd.)

12.6.2 Types of Discounts, (cont'd.)

Retroactive Discounts: Each of the five types of discounts, and other types of discounts, may be stated in volume sensitive tables in a CPA. The CPA may also specify that a discount is retroactive. A retroactive discount is calculated by applying the discount corresponding to the volume tier achieved by the Customer by the Customer's total volume for the period. If a CPA does not specify whether discounts in a table are applied incrementally or retroactively, the discounts will be applied retroactively.

The following example is provided for illustration purposes only. The rates, discounts and charges depicted are not intended to be representative of actual rates, discounts or charges that a Customer might expect to receive.

Example of a Retroactive Discount Calculation:

The Customer uses 1,000,000 minutes of usage at a \$0.25 per minute base rate with an additional discount (Type A Discount) based upon the following retroactive discount table.

Minutes of Use	Discount Rate
50,000 – 100,000	5%
100,001 – 500,000	10%
500,001 – 1,500,000	15%
1,500,001 +	20%

Retroactive Discount Calculation:

	Discount Rate	Discount Amount	Net Charges
1,000,000 min. x 0.25 =-	15%	\$37,500	\$212,500

12.6.3 Calculation of Net Effective Usage Rate

Net Effective Usage Rate or Net Effective Rate is the effective rate which a Customer will pay for a Service or Service element under the Customer's CPA for Usage Charges, after the application of credits, discounts and any other price (and discount) related adjustments which apply to that individual Service or Service element, allocated in the manner requested by or explained to the Customer, subject to the systematic reporting capabilities of the Company, and based upon the Customer's specific weighted average Service and call traffic profile or reasonable estimates thereof.

The calculation of the Net Effective Usage Rate is illustrated in the following example. The example is provided for illustration purposes only. The rates, discounts and charges depicted are not intended to be representative of actual rates, discounts or charges that a Customer might expect to receive.

Assume a Customer is eligible for the following discounts based upon "Monthly Minutes of Use":

Monthly Minutes of Use	Dedicated Service	Switched Service
100,000 – 499,999	8.0%	10.0%
500,000 – 999,999	9.0%	15.0%
1,000,000 +	10.0%	20.0%

Assume further a dedicated base rate of \$0.25 per minute for 1,000,000 minutes of dedicated service and a switched base rate of \$0.30 per minute for 250,000 minutes of switched service. The following is a calculation of the net effective usage rate:

12.7 Termination Liability

If the Customer discontinues using Services before the end of the Initial Term, or Renewal Term, as applicable; if the Company terminates the CPA due to the Customer's nonpayment of charges or failure to meet other obligations; if the Customer terminates the CPA for any reason other than the Company's material failure as permitted under its CPA; or if the Customer ceases to use a material amount of Services under the CPA at any time during the Term, the Customer will pay the Company fifty percent (50%) of the monthly amount of the Minimum Service Commitment applicable during the Term or then current Renewal Term, as the case may be, (applicable MSC divided by the number of months to which it applies), multiplied by the number of months remaining in the Term. In addition, the Customer will be required to pay the Company an amount equal to all, or such part of as may be specified in the Customer's CPA, concessions and credits issued, PIC charge and other charges reimbursed and charges waived under the CPA.

When the CPA is terminated for any reason other than those specified above, the Customer will be required to pay the Company an amount equal to all, or such part of as may be specified in the Customer's CPA, concessions and credits issued, and other charges specified under the CPA.

Except as may be expressly permitted under the CPA, if the Customer disconnects prior to 24 months of service any Dedicated Access local channel of capacity less than a DS-1 that received installation charge waivers under the CPA, the Customer will pay to the Company the total installation charges waived for such circuit in addition to all other applicable charges and termination liabilities. Customer's obligation under this condition survives any expiration or termination of the CPA.

Except as may be expressly permitted under the CPA, if the Customer disconnects prior to 24 months of service any dedicated local access line or Service element of capacity equal to or greater than DS-1 or other Service element that received installation charge waivers under the CPA, the Customer will pay to the Company the total installation charges waived in addition to all other applicable charges and termination liabilities. The Customer's obligation under this condition survives any expiration or termination of the CPA.

All other termination liabilities in the base service schedules apply.

12.8 Obligations Of The Customer

CPA agreements may be modified only by written amendment, executed by duly authorized officers or representatives of the Customer and the Company. CPA agreements may not be assigned by a Customer without the written consent of the Company.

12.9 Use Of Name, Service, Trademarks Or Trade Secrets

BellSouth Long Distance may identify the Customer as a Customer of the Company and use its name in suitable advertising, press releases and sales presentations. Otherwise, the Company and the Customer agree not to use the name, service marks, trademarks or trade secrets of the other party or any of its affiliates for any purpose without the prior written consent of the other party.

12.10 Billing And Reporting

Multiple invoice formats are available to CPA Customers. The presentation of CPA discounts, credits, concessions and charges invoices and reports may differ from the format specified in the CPA.

12.11 Availability

Each posted CPA available under this Section will specify the period during which it will be available for new Customer enrollment. Such period will begin on the effective date of the schedule offering.

CPAs are available to similarly situated Customers. An applicant must not be receiving Services under another CPA, in breach of any Company agreement or obligation, nor have any outstanding past due balances with the Company in order to request Services under any CPA.

Requests for Services available under a CPA must be made in writing and received by the Company within the period of availability and must contain a demonstration that the request is being made by a similarly situated Customer. If a written request is received during the specified period, the Company will, subject to Section 12.12, provide the applicant with a CPA contract. CPA contracts may not be requested after the period of availability has expired. In order to purchase Services under a CPA, the CPA must be signed and returned to the Company within 15 days.

12.12 Credit Approval And Deposits

Each CPA applicant will be required to establish credit. Any applicant whose credit has not been duly established to the sole and exclusive satisfaction of the Company may be required to make a deposit to be held as a guarantee of payment of charges at the time of application. In addition, an existing Customer may be required to make a deposit or increase a deposit presently held.

The Company will accept Bank Letters of Credit instead of cash as deposits. The deposit may be retained for as long as the financial condition/credit worthiness of the Customer is considered to be unsatisfactory by the Company. A deposit is not to exceed the estimated charges for six (6) months' Service plus installation.

If the deposit is not posted within five (5) days of receipt of the deposit notice, Service to the Customer may be discontinued without further notice.

A deposit will be returned: (a) if the CPA is not consummated. The deposit will be applied to any charges applicable in accordance with the base service schedules and the excess portion of the deposit will be returned; or (b) upon the discontinuance of all Services. The Company will refund the Customer's deposit or the balance in excess of all outstanding charges, including all termination liabilities.

The fact that a deposit has been made in no way relieves the Customer from complying with the regulations with respect to deposits and the prompt payment of invoices.
