 Rochester, NY 14646-0500

RESALE COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS1.1 Access Line

A dedicated arrangement which connects a customer location to an Global NSC (see below for definition).

1.2 Administrative Change

The modification of an existing circuit, dedicated access line or port, at the request of the customer, that involves changes in authorization codes, speed numbers, route guide, consolidation of billing, verification of testing performed by parties other than Global, or any other administrative change not covered by a Billing Record Change. (See Below for definition)

1.3 Application for Service

A standard Global order form which includes all pertinent billing, technical and other descriptive information which will enable Global to provide the communication service as required.

1.4 Global

Global Crossing Telecommunications, Inc.

1.5 Global FCC Tariffs

Those tariffs kept on file by Global with the Federal Communication Commission and at its issuing office known as Global Crossing Telecommunications, Inc. Tariff FCC No. 5 and 5D respectively, as amended from time to time.

1.6 Authorization Code

A multi-digit code, one or more of which are available to Metered Use Service customers to enable them to identify individual users or groups of users, and thereby allocate the costs of their long distance service; except where Equal Access Dialing is used by the customer and costs are allocated on the basis of the telephone number from which the customer uses the service.

RESALE COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS (Cont'd)1.7 Authorized User

A person, firm, corporation or other entity authorized by the customer to receive or send communications. Such permission includes, without limitation, 1) the use of the customer's Authorization Code where the Authorization Code has been made known to the user by the customer, its employees or agents and 2) the use of customer's telephone number when Equal Access Dialing is used.

1.8 Billing Record Change

A change in customer billing address or a change from one billing package to another using the same access method.

1.9 Cancellation of Order

A customer initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion. Cancellation charges will be assessed for each dedicated access line canceled from an order prior to its completion by Global under the following circumstances:

1.9.1 if the local Telco has already confirmed in writing to Global that the dedicated access line will be installed: or

1.9.2 if Global has already submitted facilities orders to an interconnecting telephone company (This differs from a Disconnection, see below for definition).

1.10 Circuit Termination

The point at which Global's circuit originates, terminates, or drops for the insertion or removal of a customer's signal.

1.11 Customer

The person, firm, corporation, other entity, which uses, causes the use of, or allows the use of the Carrier's communication network and/or services and is thereby responsible for the payment of charges and for compliance with the Carrier's tariff regulations.

RESALE COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (Cont'd)

- 1.12 Customer-Provided Terminal Equipment
Terminal equipment, as defined herein, provided by a customer.
- 1.13 Disconnection
The disconnection of a dedicated access line or port connection being used for existing service. (This differs from a Cancellation; see above for definition.)
- 1.14 Equal Access Dialing
The use of service through Telco Equal Access facilities allowing the customer to access Global's NSC through either a "1+" or 10444 dialing sequence. Customers using Equal Access Dialing may be billed to the telephone number from which the Equal Access Dialing originates.
- 1.15 Installation
The connection of a dedicated access line or port for new or additional service.
- 1.16 Joint User
A person, firm, or corporation designated by the customer as a user of communication facilities furnished to the customer by Global, and to whom a portion of the charges for such facilities are billed under a joint user arrangement.
- 1.17 National Holidays (Carrier Recognized Holidays)
Global-recognized National Holidays are New Year's Day, Fourth of July, Labor Day, Thanksgiving Day and Christmas Day.
- 1.18 Network Switching Center (NSC)
Any location where Global has a network switch installed.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS2.1 Description of Service

2.1.1 Global is an interexchange common carrier furnishing long distance communications services between specified locations under the terms of this tariff.

2.1.2 Global, when acting at the customer's request, and as his/her authorized agent, will make reasonable efforts to arrange for service requirements which may include terminal equipment and circuit conditioning or Equal Access Dialing.

2.2 Limitations

2.2.1 Service is offered subject to the availability of facilities and the provisions of this tariff.

2.2.2 Global reserves the right to discontinue furnishing service, upon written notice, when necessitated by conditions beyond its control or when the customer is using the service in violation of the provisions of this tariff, or in violation of the law.

2.3 Terms and Conditions

2.3.1 Service is provided and billed on the basis of a minimum period of at least one month, beginning on the date that billing becomes effective, and continues to be provided until canceled by the customer, in writing, on not less than thirty (30) days' notice. In the event a customer orders an Global Option that does not require a monthly subscription fee, Global reserves the right to reclassify a customer's account to inactive status if (1) the customer fails to use the service for more than 90 (ninety) days and (2) the customer fails to respond to notices of future cancellation for non-use of service.

2.3.2 Service is offered on a monthly basis.

2.3.3 For the purpose of computing charges in this tariff, a month is considered to have 30 days.

2.3.4 The name(s) of the customer(s), including all members of a group of customers who share the same service must be stipulated in the application for service.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.4 Liability

- 2.4.1 The liability of Global, for whatever reason, shall not exceed an amount equivalent to the proportionate charge otherwise payable for the period of time during which any mistake, omission, interruption, delay, error or defect, or any other event giving rise to a claim, occurs. In no event shall Global be liable for special, consequential or incidental damages.
- 2.4.2 Global shall be indemnified and held harmless by the customer against:
- 2.4.2.A claims for libel, slander, or infringement of copyright arising out of the material, data, information, or other content transmitted over Global's channels; and
- 2.4.2.B patent infringement claims arising from combining or connecting Global's furnished channels with apparatus and systems of the customer; and
- 2.4.2.C all other claims arising out of any act or omission of the customer in connection with any service provided by Global.
- 2.4.3 Global is not liable for any act or omission of any other company or companies furnishing a portion of the service.
- 2.4.4 The customer indemnifies and holds Global harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or persons, for any personal injury to, or death of, any person or persons, and owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition,

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.4 Liability (Cont'd)

or use of such equipment where such installation, operation, failure to operate, maintenance, condition, location use is not the direct result of Global's negligence.

2.4.5 Global is not liable for any defacement of, or damage to, the premises if a customer resulting from the furnishing of channel facilities or the attachment of instruments, apparatus, and associated wiring furnished by Global on such customer's premises or by the installation or removal thereof when such defacement or damage is not the result of Global negligence. No agents or employees of other participating carriers shall be deemed to be agents or employees of Global.

2.4.6 The customer is responsible for taking all necessary legal steps for interconnecting his customer-provided terminal equipment or communications systems with Global facilities. Customer shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.

2.4.7 The customer shall ensure that his equipment and/or system is properly interfaced with Global facilities.

2.4.8 As a telephone utility under the regulation of the Public Service Commission of South Carolina, Global does hereby assert and affirm that as a reseller of intrastate telecommunications service, Global will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and Global will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, Global will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. I understand that violation of this provision could result in a rule to show cause as to the withdrawal of our certification to complete intrastate telecommunications traffic within the state of South Carolina.

2.5 Cancellation of Service By A Customer

If a customer cancels his/her order for service either (1) before the service begins, or (2) before completion of the minimum period, customer is responsible for portions of expenditures or liabilities incurred expressly on behalf of the customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the customer by Global and not fully reimbursed by installation and monthly charges. If, based on an order by a customer, any construction has either begun or been completed, but no services provided, the nonrecoverable cost of such shall be charged to the customer.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.6 Use of Service

2.6.1 The services offered herein may be used for one or more of the following:

2.6.1.A for the transmission of communications to or by the customer

2.6.1.B for the transmission of communications to or by an authorized user or joint user

2.6.2 Service may be arranged for joint use or authorized use. The joint user or authorized user shall be permitted to use such service in the same manner as the customer, but subject to the following:

2.6.2.A One joint user or authorized user must be designated as the customer. The designated customer does not necessarily have to have communications requirements of his own. The customer must specifically name all joint users or authorized users in the Application for Service. Orders which involve the start, rearrangement, or discontinuance of joint use or authorized use service will be accepted by Global only from that designated customer and will be subject to all regulations in this tariff.

2.6.2.B All charges for the service will be computed as if the service were to be billed to one customer and any discount arrangements will be based on the actual number of circuits installed at the beginning of the billing period. The customer shall be responsible for allocating charges to each joint user or authorized user.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.6 Use of Service (Cont'd)

2.6.3 Service may be arranged for use by other common carriers for the purposes of resale subject to the following:

2.6.3.A Other Common Carriers will be responsible for charges applicable pursuant to the tariff.

2.6.3.B Other Common Carriers are responsible for all interaction and interface with their own subscribers or customers.

2.6.4 Service shall not be used:

2.6.4.A for any unlawful purpose; or

2.6.4.B for any purpose for which payment or other compensation is received by the customer, except when the customer is a duly authorized and regulated common carrier. This provision does not prohibit an arrangement between the customer, authorized user or joint user to share the cost of the service so long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.

2.7 Payment Arrangements

2.7.1 The customer is responsible for payment of all charges for services furnished to the customer or any authorized user through customer's authorization code or Equal Access Dialing telephone number. Charges for installation, physical or administrative changes, or for cancellation of orders are payable upon completion. Recurring charges are billed in advance.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.7 Payment Arrangements (Cont'd)

2.7.2 Bills will be payable upon receipt. Interest at the rate of 1 and 1/2% per month (unless prescribed by law, in which event at the highest rate allowed by law) may be added to any unpaid balance brought forward from the previous billing date to cover the cost of collection and carrying accounts in arrears.

2.7.4 The charges set forth in this tariff for circuit terminations contemplate installations made in normal locations and under normal working conditions. Any installations to be made under other circumstances are subject to additional charges, which will be tarified as appropriate.

2.7.5 If notice of a dispute as to charges is not received, in writing, by Global within three months after an invoice is rendered, such invoice shall be deemed to be correct and binding upon the customer.

2.8 Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Global, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

Issue Date: November 30, 1999

Effective Date: December 15, 1999

Issued by: Manager - Rates and Tariff Compliance
Global Crossing Telecommunications, Inc.
180 South Clinton Avenue
Rochester, NY 14646-0500

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.9 Restoration of Service

The use and restoration of service in emergencies shall be in accordance with Part 64, sub-part D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

2.10 Inspection

Global may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements of this tariff are being complied with in the installation, operation or maintenance of the customer or Global equipment. Global may interrupt the service at any time, without penalty to Global, because of departure from any of these requirements.

2.11 Cancellation For Cause By Global (See Section 2.5 for Cancellation by Customer)

Without incurring liability, the Carrier may immediately discontinue service or cancel an application for service by written notice to the customer:

- A. For nonpayment of any sum due to the Carrier for more than 30 days after the Carrier issues the bill for the amount due,
- B. For violation of any of the provisions governing the furnishing of service under this tariff,
- C. For any violation of any law, rule, regulation or policy of any government authority having jurisdiction over service, or
- D. By reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Carrier from furnishing service.

Issue Date: November 30, 1999

Effective Date: December 15, 1999

Issued by: Manager - Rates and Tariff Compliance
 Global Crossing Telecommunications, Inc.
 180 South Clinton Avenue
 Rochester, NY 14646-0500

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)

2.12 Testing and Adjusting

Upon reasonable notice, the circuits provided by Global shall be made available to Global for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

2.13 Local Charges

In certain instances, the customer may be subject to telephone charges or message unit charges to access Global's service. Global is not responsible for any such charges imposed directly on the customer for gaining access to Global's intercity network.

2.14 Taxes and Surcharges

Customer will be billed for and is liable for payment of all applicable federal and state taxes and applicable surcharges.

RESALE COMMON CARRIER SERVICE

SECTION 2 - RULES AND REGULATIONS, (Cont'd)2.15 Deposits

Applicants for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit (up to a maximum amount of two (2) months total billings) at the time of application for service to be held as a guarantee of payment of charges. In addition, an existing customer may be required to make a deposit (up to an amount equal to the total actual bills for the highest two (2) consecutive months within the preceding six (6) months) or increase a deposit currently held. In case of a cash deposit, interest, at a rate set by the South Carolina Public Service Commission will be paid for the period during which the deposit is held by the Carrier.

- (A) A deposit will be returned when an application for service has been canceled prior to the establishment of service. (The deposit will be applied to any charges applicable in accordance with the tariff and the excess portion of the deposit will be returned.); or
- (B) Upon discontinuance of service. (The Carrier will refund the customer's deposit or the balance in excess of unpaid bills for the service.); or
- (C) At the end of twenty-four (24) months of satisfactory credit history or when otherwise required by a regulatory authority.
- (D) The fact that a deposit has been made in no way relieves the customer from complying with the regulations with respect to the prompt payment of bills on presentation.

RESALE COMMON CARRIER SERVICE

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)3.2 Metered Use Service3.2.A General Description

Metered Use Service offers the use of intercity communication facilities shared among multiple users. The individual customer's basic monthly charges for its use of these intercity communication facilities are based upon the total time the customer utilizes such facilities from each originating location and can vary, depending upon the option chosen, with the distance of each call. Global's basic per minute usage charges, by individual city-pair mileage, are set forth in Section 4.2. Calls may be completed by Carrier in accordance with the authority granted Carrier by the South Carolina Public Service Commission.

A monthly listing of each individual call and its duration is available as a standard.

In order to utilize Global's facility intrastate, a subscriber must be a subscriber under Global's Tariff FCC Nos. 5 or 6. Appropriate rates and charges found therein apply for all options and services other than intrastate calling. Rates for intrastate calling are governed by the rates set forth in Section 4.2.

Customers may experience network busy signals in less than 1 percent of all calls.

3.2.1 Service Options

Global metered use intrastate calling is a one-way dial-up or dedicated access multipoint service whereby the customer originates and terminates calls via LEC-provided switched access lines or LEC-provided dedicated access lines. The rates for this service are contained in Section 4.2.

RESALE COMMON CARRIER SERVICE

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)

3.2 Metered Use Service (Cont'd)3.2.1. Service Options (Cont'd)

3.2.1.A ALLNET Option 1

ALLNET Option 1 is an outbound, dial-up multi-point service whereby the customer originates and terminates calls via LEC-provided switched access or ALLNET Option 1 service. Subscribers to GLOBAL service may originate calls by dialing the access number of Global's NSC switch or through Equal Access Dialing. The rates for this service are contained in Section 4.2.1.

3.2.1.B ALLNET MAXCESS I

ALLNET MAXCESS I is an outbound, multipoint service designed for very high volume users. Maxcess I customers may originate calls via voice grade special access or high capacity (T1) access arrangements provided by the customer between the customer's premises and Global's switch. Global reserves the right to limit service availability to customers with a minimum requirement for 17 voice grade equivalent channels. The customer's per minute usage rates are based upon the airline distance between the originating and terminating locations of each call and are contained in Section 4.2.2. Calls are measured in six second increments. Any fraction of an increment is rounded up to the next whole increment. Recurring and non-recurring charges for the dedicated access facilities, associated multiplex and customer premises equipment will apply as set forth in the appropriate local exchange company's tariff and Global's FCC Tariff No. 6.

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)

3.2 Metered Use Service (Cont'd)3.2.1 Service Options (Cont'd)

3.2.1.C ALLNET MAXCESS II

ALLNET MAXCESS II is an outbound, multipoint service designed for high volume users. MAXCESS II customers may originate calls via voice grade special access or high capacity (T-1) access provided by the customer between the customer's premises and Global's switch. The applicable per minute rates are contained within Section 4.2.3 and are based on the airline distance between the originating and terminating locations of each call. Calls are measured in six second increments. Any fraction of an increment is rounded up to the next whole increment. All applicable recurring and non-recurring charges for MAXCESS II will be billed by the local telephone company in accordance with the charges set forth in its applicable tariff

3.2.1.D ALLNET MAXCESS III

ALLNET MAXCESS III is an outbound, multipoint service whereby the customer originates calls via dedicated facilities or by presubscribing long distance service to Global. Calls can be completed from the customer's premise to any location within the state of SOUTH CAROLINA. The rates for these services are contained in Section 4.2.4. MAXCESS III calls are measured in six second increments with a minimum usage of one minute per call. Any fraction of an increment is rounded up to the next whole increment. All applicable recurring and non-recurring charges for MAXCESS III will be billed by the local telephone company in accordance with the charges set forth in its applicable tariff.

3.2.1.E ALLNET CALL HOME AMERICA

Allnet Call Home America is an inward switched access service offered only in conjunction with Global's interstate Call Home America service, wherein customers are billed via their credit card, only, for intrastate and interstate calls that originate at stations in different service areas and terminate to the customers' Call Home America station. Call Home America permits billing to the called party, rather than the call originators. Charges for Call Home America are based on length of call, and time of day.

The customer's total monthly use of Call Home America is charged at the applicable rates per minute set forth in Section 4.2.14. Calls are billed in one minute increments, with a one minute minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.F ALLNET ACCESS (Travel)

Allnet Access is an inbound gateway service whereby the caller dials an 800 number plus an eleven digit calling code to gain access to information, travel, call delivery and voice mail services. A personalized call card will be issued to each Allnet Access subscriber. Charges for Allnet Access Travel are based on length of call, and time of day of each call. The customer's total monthly use of Allnet Access Travel is charged at the applicable rates per minute set forth in Section 4.2.6. Long distance calls made through Allnet Access are billed in one minute increments with a one minute minimum for each call. Any fraction of an increment after one minute is rounded up to the next six second increment.

3.2.1.G ALLNET PACESETTER

Allnet Pacesetter service is a one-way, multipoint service, designed for subscribers with large amounts of daytime usage Monday through Friday. Pacesetter customers may originate calls by dialing 1 plus an area code and the desired telephone number or by dialing 10XXX then an area code and the desired number. The rates for this service are contained in Section 4.2.7 and are based on the length of call, time of day and the originating and terminating locations of each call. Calls are billed in one minute increments with a one minute minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.H CALLNET 1+

CallNet 1+ is an outbound switched access service offered only in conjunction with Global's interstate CallNet 1+ service wherein customers are billed primarily via their credit card. CallNet 1+ customers may originate intrastate calls by dialing 1 plus an area code and the desired telephone number, or by dialing 10XXX and then the area code and the desired telephone number. CallNet 1+ calls are based on length of call, and time of day. The customer's total monthly use of CallNet 1+ service is charged at the applicable rates per minute set forth in Section 4.2.9. Calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. CallNet 1+ customers will also be eligible for The CallNet Calling Card at the rates and time of day definitions set forth in Section 2.02021 of the tariff. The CallNet Calling Card is not available on a stand alone basis. Customers must be presubscribed to CallNet 1+ service in order to receive The CallNet Calling Card. Calls made to directory assistance telephone numbers are charged on a per call basis.

3.2.1.I ALLNET INSTANTLINE 800

Allnet Instantline 800 is an inward switched access service which permits intrastate and interstate calls to terminate at a customer's station (i.e., customer's telephone lines) while originating at stations in different service areas, and in which the customer is billed for the calls rather than the call originator. Intrastate Allnet Instantline 800 may only be used in conjunction with interstate Allnet Instantline 800 or Allnet Precisionline 800. The rates for Allnet Instantline 800 are set forth in Section 4.2.8 and are based on the originating and terminating locations of each call. Calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.J ALLNET VANTAGE

Allnet Vantage is a one-way, multipoint service requiring the customer to originate calls via dedicated facilities or by presubscribing long distance service to the Carrier's service option. Calls can be completed from the customer's premise to any location within the State of SOUTH CAROLINA. Customers may originate calls via dedicated access or by dialing 1 plus an area code and the desired telephone number, or by dialing 10XXX +1 then an area code and the desired number. Charges for Allnet Vantage are assessed on a usage basis. The customer's total monthly usage for Allnet Vantage is charged at applicable rates set forth in Section 4.2.13 and are based on the airline distance between the originating and terminating locations of each call. There is a thirty second minimum for each call made using Allnet Vantage. The thirty second minimum is applicable to all Allnet Vantage calls that occur during Business Hours or Off Hours and the duration of calls is measured in six second increments. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.L ALLNET SOLUTION

Allnet Solution is a family of two-way, telecommunication service features which offer single location or multiple location customers the simplicity of a uniform charge for all of their outbound and inbound calls. Intrastate Allnet Solution is available for use only in conjunction with interstate Allnet Solution service offerings. Customers reselling or rebilling intrastate Solution service must have a certificate of Public Convenience and Necessity as an IXC from the SOUTH CAROLINA Utilities Commission. Allnet Solution provides customers with a single per minute non-distance sensitive usage rate for all inbound and outbound usage. Solution customers may elect any combination of the following Solution service features:

- Solution I - LEC-provided dedicated Access
- Solution II - LEC-provided switched access, high volume usage
- Solution III - LEC-provided switched access, low and medium volume usage
- Solution IV - LEC-provided switched access, high volume usage, short duration calls
- Residential Solution - LEC-provided switched access, high volume off-hour usage
- Solution 800 - provides an add-on inbound capability for Solution I, II, III, IV and Residential Solution features

Customers electing the Solution I feature may originate or receive calls via LEC-provided dedicated access lines. Charges for LEC-provided dedicated access facilities will be billed by the Customer's local exchange carrier. Customers who order Solution II, III and IV features may originate or receive calls on their local business or residential lines;

calls may be originated by dialing 1 plus an area code and the desired number; or 10444 plus the area code and telephone number.

Charges for Solution I, II, III, IV, and Residential Solution as well as Solution 800 are assessed on a per minute basis based on duration of the call, and time of day of each inbound and outbound call.

The customer's total monthly use of the Allnet Solution I, II, III, IV, Residential Solution and associated 800 is charged at the applicable rates per minute set forth in Section 4.2.17. Solution II, III, IV and Residential Solution outbound and inbound (via associated Solution 800) calls are billed in six second increments. Solution II, III and Residential Solution have a 30 second minimum for each call. Solution I outbound and inbound (via associated Solution 800) calls are billed in six second increments, with a 6 second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Solution 800 is available only as an add on to Solution I, II, III, IV and Residential Solution features and is not available as a stand alone feature. Solution 800 inbound calls associated with Solution I, II, III or IV outbound features are charged the same rate per minute as the Solution outbound feature purchased by the customer as set forth in Section 4.2.17. For example, inbound (Solution 800) calls terminating on a line that originates Solution II calls are charged at the Solution II rates; inbound (Solution 800) calls terminating on a line that originates Solution III calls are charged at the Solution III rates.

Solution I, II, III, and Residential Solution customers who make Allnet Access (Travel) calls are billed at the rates set forth on PL-4

3.2.1.N Allnet Edge

Allnet Edge 1+ is a two-way switched access service offered only in conjunction with Global's interstate Edge service. Allnet Edge provides customers with mileage based per minute rates for both their inbound (800) and outbound (1+) usage. Allnet Edge customers may originate outbound intrastate calls by dialing 1 plus an area code and the desired telephone number, or by dialing 10XXX and then the area code and the desired telephone number. Inbound calls are originated to the Allnet Edge customer's designated location by users dialing 1+ the Allnet Edge customer's 800 telephone number. Allnet Edge calls are based on length of call, the distance between the originating and terminating locations of each call, and time of day. The customer's total monthly use of Allnet Edge service is charged at the applicable rates per minute set forth in Section 4.2.10 of the tariff. Calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Allnet Edge customers who make long distance calls through Allnet Access (Travel) are billed in six second increments with a thirty second minimum at the rates set forth in Section 5 of the tariff.

Allnet Edge customers will receive the following discount credits on qualifying usage: 1) a discount credit of 10% will be applied to all outbound Allnet Edge calls made to a single area code with highest total domestic usage during a billing cycle; and 2) a discount credit of 10% will be applied to all outbound Allnet Edge calls between telephone numbers (ANIs) on the same Global account.

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)

3.2 Metered Use Service, (Cont'd)3.2.1 Service Options, (Cont'd)3.2.1.P ALLNET MULTIPOINTsm 800 SERVICE

Allnet Multipointsm 800 Service is a shared, inward switched service which permits inbound calls, originated by dialing an "800" number to terminate at a Multipointsm 800 customer's common line (i.e., business or residential line), provided a valid personal identification routing number (PIRN) is entered by the caller. The Multipointsm 800 customer is billed for the calls rather than the call originator. Multipointsm 800 intrastate service is only available in conjunction with Multipointsm 800 interstate service. Multipointsm 800 service completes calls to a Carrier-assigned 800 telephone number. The PIRNs entered by the caller determine the customer-designated telephone number to which the 800 call will terminate. Each Customer may request any combination of the four digit PIRNs, excluding the PIRNs reserved for special use by the Company. Multipointsm 800 service employs shared 800 telephone numbers and, by conversion to Multipointsm 800 service, the Multipointsm 800 customer releases any ownership or exclusive rights of its 800 telephone number to the Carrier. Under the non-validated option, Multipointsm 800 customers may receive inbound Multipointsm 800 calls even if the calling party enters no PIRN or an incorrect PIRN. Under the validated option, the Multipointsm 800 customer may receive Multipointsm 800 inbound calls only when the correct PIRN is entered by the calling party. The service hours and per minute usage rates applicable to Multipointsm 800 service are set forth in Section 4.2.12 and apply to both validated and non-validated Multipointsm 800 calls, and are based on the time of day, length of call, and the airline distance between the originating and terminating location of each call. Multipointsm 800 calls are billed in one minute increments with a one minute minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.Q ALLNET PRODUCT ONE

Allnet Product One is a long distance service which provides customers with single per minute rates for both their inbound (800) and outbound (1+) usage. Allnet Product One customers may originate outbound calls by dialing 1 plus an area code and the desired telephone number. Inbound calls are originated to the Product One customer's designated location by users dialing 1 plus the PRODUCT ONE customer's 800 telephone number. Allnet Product One calls are based on the length of the call and the time of day.

The customer's Allnet Product One service is charged at the applicable hours in Section 4.1.9 and rates per minute set forth in Section 4.2.15 based on the Product One product option selected. Allnet Product One customers switched 1+ and 800 calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Allnet Product One dedicated access 1+ and 800 calls are billed in six second increments, with an eighteen second minimum for each call. Allnet Product One customers who make long distance calls through Allnet Access are billed in one minute increments with a one minute minimum or, Allnet Spectrum are billed in six second increments with a thirty second minimum at the per minute and per call rates set forth on page 24.3. Any fraction of an increment is rounded up to the next whole increment.

Allnet Product One customers may subscribe to one of seven (7) mutually exclusive Product One service options: Product One month-to-month (MTM); Product One Term Plan I, Term Plan II or Term Plan III, Term Plan IV, Term Plan V, or Term Plan VI. For each Product One Term plan option, a Product One customer must commit to either a one year (12 month), two year (24 month) or three year (36 month) term agreement. Product One customers electing either a two or three year term plan agreement will receive one of the applicable per minute discount off of the base one year term plan rates. The applicable per minute discounts are set forth in Section 4.2.15. Product One customers may elect either a switched or dedicated access option (or both) for Term Plans III, IV, V or VI. Term Plans II, V and VI may use switched access only in conjunction with a dedicated access option. The MTM option is only available on a switched access basis. Product One customers electing a dedicated access option will be billed by their local exchange carrier or alternative provider for all monthly and non-recurring charges associated with the dedicated access facilities required to access Global.

3.2.1 Service Options, (Cont'd)

3.2.1.V ALLNET SIMPLICITY

Allnet Simplicity service allows customers to receive switched outbound and inbound service, and travel card service as a unified service offering. It is only available in conjunction with Global's interstate Simplicity service. Allnet Simplicity customers may originate outbound intrastate calls by dialing 1 plus an area code and the desired telephone number, or by dialing 10XXX and then the area code and the desired telephone number. Inbound calls are originated to the Simplicity customer's designated location by users dialing 1+ the Simplicity customer's 800 telephone number. Allnet Simplicity calls are based on length of call, and time of day.

The customer's total monthly use of Allnet Simplicity (switched, dedicated and travel) service is charged at the applicable rates per minute set forth in Section 4.2.22, and the hours as set forth in Section 4.1.14. Allnet Simplicity switched calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Allnet Simplicity customers who make long distance calls through their travel card service are billed in six second increments with a thirty second minimum. There are monthly minimum usage charges (MMUC) associated with Simplicity service. Beginning with the customers' second invoice, and for the remaining months of any term plan commitment, the customer will be charged the difference between the gross account usage and the MMUC if the gross account usage is less than the MMUC committed to by the customer. There are incremental volume discount credits applicable to Allnet Simplicity service as set forth on Sheet PL-10.3. In addition, Simplicity customers who commit to a service term may receive additional discount credits as set forth on Sheet PL-10.3 based on their monthly usage level commitment.

Allnet Simplicity customers will also receive a discount credit of 10% will be applied to all outbound Allnet Simplicity calls made to a single area code with the highest total domestic usage during a billing cycle.

Calls made to directory assistance telephone numbers are charged on a per call basis.

3.2.1 Service Options, (Cont'd)

3.2.1.Y Frontier Flex Connect 8XX

Frontier Flex Connect 8XX Service is a shared, inward switched service which permits inbound calls, originated by accessing an 8XX number to terminate at a MultipointK 8XX customer's common line (i.e., business or residential line), provided a valid personal identification routing number ("PIRN") is entered by the caller. The Flex Connect 8XX customer is billed for the calls rather than the call originator. Flex Connect 8XX service completes calls to a Carrier-assigned 8XX telephone number. The PIRNs entered by the caller determine the customer-designated telephone number to which the 8XX call will terminate. Upon customer request, from one to a maximum of ten PIRNs, may be assigned by the Carrier to the customer, excluding the PIRNs reserved for special use by the Carrier. Requests for four or more PIRNs are subject to credit approval by the Carrier. Flex Connect 8XX service employs shared 8XX telephone numbers and, by conversion to Flex Connect 8XX service, the Flex Connect 8XX customer releases any ownership or exclusive rights of its 8XX telephone number to the Carrier.

The applicable per minute usage rates for Flex Connect 8XX are set forth in Section 4.2.25 following. Flex Connect 8XX calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

The following time periods apply in rating Frontier Flex Connect 8XX calls:

Business Hours	Monday through Friday	8:00am - 4:59pm Excluding Carrier Recognized holidays
Off Hours	Monday through Friday Saturday and Sunday	5:00pm - 7:59am All Day Including Carrier Recognized Holidays

3.2.1.AA Frontier Independence

Frontier Independence is a long distance service which provides customers with a single per minute rate for both their inbound (8XX) and outbound (1+) usage. Independence customers may originate outbound calls by dialing 1 plus an area code and the desired telephone number. Inbound calls are originated to the Independence customer's designated location by users dialing 1 plus the Independence customer's 8XX telephone number.

Independence service is a flat rated, non-distance sensitive switched service, twenty four (24) hours a day, seven (7) days a week, including Carrier recognized holidays. The applicable per minute rates are set forth in Section 4.2.27 following, and are based on the Independence product plan selected. Independence switched 1 plus and 8XX calls are billed in six second increments, with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Frontier Independence Dedicated Access 1 plus and 8XX calls are billed in six second increments, with a six second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Independence customers who make long distance calls through Access or Spectrum Calling Card service, are billed in six second increments, with a thirty second minimum for each call, at the per minute rates set forth in Section D following. Switched Access Independence service option customers may subscribe to the service on a month-to-month basis or, subscribe to one of five service plans. In each of the five plans the customer must commit to either a one year (12 month), two year (24 month), or three year (36 month) term agreement. Customers electing to subscribe to one of the five plans will receive one of the applicable per minute discount rates off the one year base rate. The applicable discounts are set forth in Section D following. Subscribers to Independence Dedicated Access service must commit to either a one year (12 month), two year (24 month) or three year (36 month) term agreement. Applicable per minute rates for Independence Dedicated Access service are set forth in Section 4.2.27 following.

3.2.1.AC Frontier Value Net

Frontier Value Net is a long distance switched service which provides customers with single per minute rates for both their inbound (8XX) and outbound usage. Frontier Value Net calls are non-distance sensitive, flat rated, twenty four (24) hours a day, seven days a week (including Carrier recognized holidays).

The applicable per minute rates are set forth in Section 4.2.29 following, and are based on the Frontier Value Net service plan selected. Frontier Value Net inbound (8XX) and outbound calls are billed in six second increments, with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Customers may subscribe to Frontier Value Net service on a Month-to-Month basis, or subscribe to either a fifteen (15) or thirty (30) month term agreement. The per minute rate applicable to the Month-To-Month, fifteen (15) and, thirty (30) month term commitment plans are set forth in Section 4.2.29 following. A Minimum Monthly Usage Commitment (MMUC) will be associated with each service plan offered. The per minute rate, and Minimum Monthly Usage Commitment levels are set forth in Section 4.2.29 of this tariff.

Frontier Value Net fifteen (15) and thirty (30) month term plans will automatically renew for successive periods of fifteen (15) months unless the Customer notifies the Carrier in writing before the end of their current term of their intention to terminate the agreement at the completion of the term. Customers electing to Continue receiving service without renewing their current term commitment will automatically revert to the current month-to-month rate. A termination fee, equal to the Minimum Monthly Usage Commitment applicable to the term plan the Frontier Value Net customer is subscribing to, will be assessed for each of the remaining months in the current month term after a Frontier Value Net Customer terminates service prior to the completion of the then current term service.

3.2.1.AE Frontier Voice Virtual Private Network

Frontier Voice Virtual Private Network ("VPN") provides the Customer the functionality and capabilities of a private network through the use of shared and/or dedicated transmission facilities, which permits the Customer to establish a communications path between two Customer locations by using a Customer- defined Private Numbering Plan ("PNP"). The following call types are available to Frontier Voice VPN Customers:

- 1) Dedicated to Dedicated: provides PNP type calls between locations linked by dedicated access. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 2) Dedicated to Switched: calls originating from a VPN Customer's dedicated location and terminate on switched facilities either within or outside the Customer's PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 3) Switched to Dedicated: calls originating from a switched location within a Customer's PNP and terminate on a dedicated location within the PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 4) Switched to Switched: calls originate from a switched location within the Customer's PNP and terminate on a switched location either within or outside the PNP. All calls are billed in six second increments with a eighteen second minimum for each call. Any fraction of an increment will round up to the next whole increment.

3.2 Metered Use Service, (Cont'd)

3.2.1 Service Options, (Cont'd)

3.2.1.AE Frontier Voice Virtual Private Network, (Cont'd)

- 5) 8XX Remote access to Switched/Dedicated: calls originate from a switched location via a VPN 8XX remote access number and terminate to a switched/dedicated location within the Customer's PNP. A VPN personal code is used to verify that the caller is authorized to make VPN calls. The PNP code must be a uniform length not to exceed 10 digits. All 8XX remote access calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment will round up to the next whole increment.

Frontier Voice VPN service charges consist of both recurring and non-recurring charges. Recurring charges consist of flat monthly charges and usage-based charges. Flat monthly charges apply whether or not the service is used. Usage charges apply to all completed calls. The usage charges apply to all call types, 24 hours a day 7 days a week. All recurring, non-recurring, volume and term discounts applicable to Frontier Voice VPN service are set forth in Section 4.2.31 following.

The Frontier Voice VPN Customer must have T-1 access from at least one of their locations into one of the Company's switches equipped to provide VPN service. Additional connections to the VPN network can be either via dedicated, switched or remote access.

The Customer can originate calls via dedicated access and switched access. With switched access, Customer originated calls are connected to the Company network via a dial access basis. Switched access calls include those originating from the Customer's VPN lines pre-subscribed to the Company and using 1+ or 1+700 dialing plans.

For a one time setup charge a Switched Overflow option is available to the Frontier Voice VPN Customer. Switched Overflow will route any call placed from any PNP location terminating to a dedicated PNP location, to a switched plan old telephone service (POTS) number at the dedicated terminating location if the dedicated facility is busy or the network is at capacity. The setup charge applicable to this option is set forth in Section 4.2.31 following.

3.2.1 Service Options, (Cont'd)

3.2.1.AE Frontier Voice Virtual Private Network, (Cont'd)

Customers may subscribe to Frontier Voice VPN on one, two or three year term plan and may select from 4 monthly minimum usage levels (MMUL). Beginning with the Customers' fourth invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. Term Plan Customers are eligible to receive tariffed volume discounts set forth in Section 4.2.31 each month based on its VPN MMUL commitment.

Voice VPN Term Plan Customers whose monthly gross account usage exceeds the next higher MMUL above the level to which the subscriber has committed will receive the discount applicable to the next higher MMUL. Discounts on all monthly gross account usage will be capped at the discount level applicable to the next higher MMUL. Volume discounts are calculated off the Frontier Voice VPN Month-to-Month rates in effect when calls are made. The discounts apply to VPN usage (outbound and remote access) only and do not apply to non-recurring or monthly recurring charges nor to any associated calling card, operator/directory assistance, international and value added service usage. Volume discounts are not available to Customers subscribing to Frontier Voice VPN Month-to-Month service. In addition, Frontier Voice VPN customers who commit to a service term may receive additional discount credits as set forth in Section 4.2.31 following. Term plan options will automatically renew for successive periods of one year unless the Customer notifies the Company in writing before the end of their current term that the Customer intends to terminate the agreement at the completion of the term. The Company will notify the term plan customer at least 60 days prior to the end of the current term that the end of their current term is approaching. Customers choosing not to renew their term plan option will be assessed the Frontier Voice VPN Month-to-Month tariff rate currently in effect. A termination fee, equal to the MMUL of the term plan that the Frontier Voice VPN customer is subscribing, times the number of months remaining in the current term will be assessed to customers terminating service prior to the completion of their current term of service.

The Customer is responsible for any Company and local service provider monthly recurring charges for dedicated circuits/loops necessary for the service, and costs incurred by the Company, including installation and local service provider contract termination charges, if such circuits/loops are canceled prior to activation of service, or the completion of the term commitment made by the Customer.

RESALE COMMON CARRIER SERVICE

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)**3.2 Metered Use Service, (Cont'd)****3.2.1 Service Options, (Cont'd)****3.2.1.AF ULTIMATE 800**

ULTIMATE 800 is a two-way switched access service completing calls to a Carrier-assigned toll free telephone number. Inbound calls are originated by dialing a toll free number which terminates at a ULTIMATE 800 Customer's common line (i.e business or residential line), provided a valid personal identification routing number ("PIRN") is entered by the call originator. Outbound calls may be originated by dialing a toll free number and entering a Customer specific PRIN number to receive dial tone, permitting the call originator to place a 1+ outbound call. The ULTIMATE 800 Customer is billed for both the inbound and outbound calls. The ULTIMATE 800 Customer may request any combination of four digit PIRNs for their inbound ULTIMATE 800 service. Only one dial tone PIRN is allowed per ULTIMATE 800 Customer. The dial tone PIRN cannot have more than two repeating digits and, cannot have more than two consecutive digits. The dial tone PIRN cannot match the last four digits of the Customers toll free number.

ULTIMATE 800 service is a flat rated, non-distance sensitive, usage based switched service, twenty four (24) hours a day, seven days a week.

The Customer's total monthly use for ULTIMATE 800 is charged at the applicable per minute rates set forth in Section 4.2.32. Calls are billed in one minute increments with a one minute minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.AG PriorityPlan

PriorityPlan is a long distance service which provides Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched and dedicated access usage.

PriorityPlan switched and dedicated calls are non-distance sensitive, usage based, and flat rated.

The Customer's total intrastate monthly usage of PriorityPlan (switched, dedicated) service is charged at the applicable per minute rates set forth on PL-10.15 of this tariff. PriorityPlan switched inbound and outbound calls are billed in six second increments with a thirty second minimum for each call. PriorityPlan dedicated inbound and outbound calls are billed in six second increments with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

PriorityPlan Customers may subscribe to either a one year or two year term plan. A per minute base rate set forth on PL-10.15 of this tariff, is applicable to the inbound and outbound switched and dedicated service plans. There are Minimum Monthly Usage Levels (MMUL) required for each of the (switched, dedicated) term plan options. Beginning with the Customer's second invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross usage is less than the MMUL. The MMUL and applicable discounted per minute usage rates are set forth on PL-10.15 of this tariff.

3.2 Metered Use Service, (Cont'd)

3.2.1 Service Options, (Cont'd)

3.2.1.AH EZ Plan II

EZ Plan II is a long distance switched service which provides Customers with single per minute rates for both their inbound (8XX) and (1+) access usage.

EZ Plan II inbound and outbound calls are non-distance sensitive, usage based, and flat rated.

The applicable per minute rates are set forth on PL-10.16 of this tariff, and vary based on the EZ Plan II service plan selected. EZ Plan II inbound and outbound calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Customers may subscribe to EZ Plan II service on a month-to-month basis, or subscribe to either a fifteen (15) or thirty (30) month term agreement. A Minimum Monthly Usage Level (MMUL) is required with each service plan offered. Beginning with the Customers second invoice, and for the remaining months of any service plan, the Customer will be charged the difference between the gross account usage and the MMUL if the gross usage is less than the MMUL. The applicable MMUL and applicable per minute rates are set forth on PL-10.16 of this tariff.

3.2 Metered Use Service, (Cont'd)

3.2.1 Service Options, (Cont'd)

3.2.1.AH EZ Plan II, (Cont'd)

EZ Plan II fifteen (15) and thirty (30) month term plans will automatically renew for successive periods fifteen (15) months unless the Customer notifies the Carrier in writing before the end of their current term of their intention to terminate the agreement at the completion of the term. The Carrier will notify the Customer at least 60 days prior to the end of their current term that the end of the term is approaching. Customers electing to continue to receive EZ Plan II service without renewing their current term commitment will automatically revert to the current tariffed month-to-month rate. A monthly termination fee, equal to the MMUL of the term plan that the EZ Plan II Customer is subscribing to, will be assessed for each month of the remaining months in the term commitment when an EZ Plan II Customer terminates service prior to the completion of the full term of service.

EZ Plan II Customers will also be eligible for the EZ Plan II Optional Calling Card Service, at rates set forth on PL-11.4 of this tariff. EZ Plan II Optional Calling Card calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

3.2.1.AI Web Beta

Web Beta is a switched, non-distance sensitive, flat rated long distance service which provides Customers with a single rate for both outbound (1+) and inbound (8XX) calls. A Travel Card is also available to Web Beta Customers.

Enrollment

To Subscribe to Web Beta Service, Customers must enroll via a Company-designated Internet site. Customers must subscribe to Web Beta outbound (1+) service in order to qualify for Web Beta inbound (8XX) and/or Travel Card services. Web Beta Customers must also commit to a \$25 Minimum Monthly Usage Level (MMUL). Beginning with the Customer's second monthly invoice, the Customer will be charged either their actual total monthly usage, or the MMUL, whichever is greater. All of the Customer's intrastate, interstate, and international Web Beta per minute usage charges will count towards the Customer's MMUL.

Usage Charges

Web Beta out bound and inbound calls are billed in six second increments with a minimum billing increment of eighteen seconds per call. Any fraction of an increment is rounded up to the next whole increment. Travel Card calls are billed in six second increments with a minimum billing of 30 seconds per call and any fraction of an increment is rounded up to the next whole increment.

3.2.1 AJ Web Alpha

Web Alpha is a switched, non-distance sensitive, flat rated long distance service which provides Customers with a single rate for all outbound (1+) calls. A Travel Card is also available to Web Alpha Customers.

Enrollment

Customer must subscribe to Web Alpha outbound (1+) service in order to qualify for Web Alpha Travel Card service.

Usage Charges

Web Alpha outbound calls are billed in one minute increments with a minimum billing increment of one minute per call. Any fraction of an increment is rounded up to the next full minute. Travel Card calls are billed in one minute increments with a minimum billing increment of one minute per call. Any fraction of an increment is rounded up to the next full minute for Travel Card calls.

3.2.1 Service Options, (Cont'd)3.2.1.AK Incentive Plan

Incentive Plan is a long distance service which provides Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched and dedicated access usage.

Rate Structure

Incentive Plan switched and dedicated calls are non-distance sensitive, usage based, and flat rated.

Usage Charges

The Customer's total intrastate monthly usage of Incentive Plan (switched, dedicated) service is charged at the applicable per minute rates set forth in Section D following. Incentive Plan switched inbound (8XX) and outbound (1+) calls are billed in six second increments with a thirty second minimum for each call. Incentive Plan dedicated inbound (8XX) and outbound (1+) calls are billed in six second increments with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Incentive Plan Customers may subscribe to either a month-to-month, one year or two year term plan. A per minute base rate set forth in Sheet PL-10.18 following, is applicable to the inbound (8XX) and outbound (1+) switched and dedicated service plans. There are minimum monthly usage levels (MMUL) for each (switched, dedicated) term plan options, as set forth in Section D following. Beginning with the Customer's second invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross usage is less than the MMUL. The MMULs and applicable discounted per minute usage rates are set forth in Sheet PL-10.18 following.

RESALE COMMON CARRIER SERVICE

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)

3.3 Calculation of Distance

Mileage between Global terminal locations or Metropolitan areas will be determined by applying the formula listed below to the Vertical and Horizontal coordinates set forth in AT&T's Tariff Number 10 incorporated by reference herein.

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates set forth in Part B of Table II according to the following formula:

$$\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}$$

where V_1 and H_1 correspond to the V & H coordinates of City 1 and V_2 and H_2 correspond to the V & H coordinates of City 2.

<u>Example:</u>	<u>V</u>	<u>H</u>
City 1 - Raleigh	6344	1436
City 2 - Greensboro	6400	1638

$$\frac{(6344 - 6400)^2 + (1436 - 1638)^2}{10} = 4394.0 = 66.2873 \text{ miles}$$

Airline Mileage = 67 Miles

*Result will always be rounded to the next highest mile

RESALE COMMON CARRIER SERVICE

ANCILLARY CHARGES (Cont'd)3. ALLNET SPECTRUM

Allnet Spectrum is a personal communication service which allows the caller to dial an Allnet Spectrum 800 telephone number and enter a four digit personal identification routing number (PIRN) to complete a call. Allnet Spectrum service is only available in conjunction with Global's interstate Spectrum service offering.

As a PIRN-based product that can be shared among customers, customers are not granted exclusive use of the 800 number used for accessing the Allnet Spectrum service and, thus, may not continue to use the 800 telephone number upon cancellation of their Allnet Spectrum service.

To use Allnet Spectrum service, the customer dials the 800 telephone number for the Allnet Spectrum service. The customer may then (1) enter a PIRN which routes the call to a customer pre-designated telephone number (PIRN CALL); or (2) enter a PIRN which permits the customer to then direct dial a telephone number (DIAL TONE PIRN). Certain PIRNs are reserved for use by the Carrier under Allnet Spectrum Service or for accessing other services.

The customer's total monthly usage of Allnet Spectrum service is charged at the applicable rates per minute as set forth on Sheet PL-11.2 which are based on the time of day, length of call, and the distance in airline miles of the call. Allnet Spectrum calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment

ADDENDUM I

SECTION 6 - PROMOTIONAL OFFERINGS

Max@Misersm Promotion

Allnet Maxcess III customers who sign up for service between June 1, 1992 and October 31, 1992, may elect to receive (in conjunction with Global's interstate Max@Misersm Promotion) a discount credit of 10% which will be applied for a period of 12 consecutive months to all Maxcess III outbound and inbound calls, and all outbound Allnet Access calls which are made to the single area code or international country with the highest total usage (in dollars) in the period for which a bill is being calculated. Calls to directory assistance and operator services are excluded from this discount credit.
